## Better Credit is Plea Made by 41 Eastern Railroads

### QUESTION IS DISCUSSED WHEN COMPANIES PETITION TO INCREASE RATES.

Financial Depression of Roads Laid to Frequent Attacks of State Railroad Commissions, Declares St. Louis Banker—Credit of Railroads Should Be Restored.

CHICAGO, March 6.—The credit of railroads as reflected in their ability to obtain new capital was discussed before Interstate Commerce Commissioner Daniels in the petition of 41 western railroads for permission to increase freight rates. Festus J. Wade, a banker of St. Louis, testified that owing to their poor earnings western railroads were unable to obtain money except on high rates of interest out of proportion to that asked from industrial corporations.

"To what do you attribute the financial depression from which the railroads are suffering?" asked Luther Walker, counsel for the packing interests, who are opposing the increases.

"Attacks on Railroads Planned." "I attribute it," said Mr. Wade "largely to the attacks of state railroad commissions in reducing the railroads' revenue, to onerous acts by state legislatures and to wild and extravagant charges against railroads."

"If business conditions throughout the country are poor now do you think it would hasten prosperity to tax the shippers?"

"It would help hasten prosperity to restore the credit of railroads. Many shippers who are now suffering from business depression would be glad to pay higher rates to improve business."

"Don't you think it is rather mismanagement and the selling of blue sky and water that has hurt the roads more than state commissioners?" asked Everett Jennings, counsel for the Illinois public utilities commission.

"Wild Statements" Hurt Credit. "It's just such wild statements that you have made that has hurt their credit," replied Mr. Wade.

Mr. Wade said no better illustration of the impairment of railroad credit could be shown than in the fact that savings banks had been required to charge of \$125,000,000 and life and fire insurance companies \$100,000,000 in the last year on account of railroad securities held by them.

## SMILES DON'T SWERVE JURY SAYS WOMAN PROSECUTOR

SAN FRANCISCO, March 4.—"The suggestion that smiles may be used by a woman prosecutor to sway a jury is tom foolery. The average federal jury is made up of hard-hearted business men. They refuse to be swayed either by smiles or tears."

This was the declaration today of Mrs. Annette Abbott Adams, recently appointed assistant United States District Attorney here, and the only woman ever employed as a prosecutor by the United States government. Mrs. Adams recently obtained her first conviction here when a jury in United States Judge Deering's court found Louis Butler, a negro guilty of robbery on the high seas. Mrs. Adams conducted the prosecution unopposed and Butler was sentenced to serve eight months in the Alameda county jail. He was accused of stealing \$118 from Otis Scruggs on the United States transport Sheridan.

"I like my work immensely," Mrs. Adams continued. "If I had the

## HEADACHY, COSTIVE, BILIOUS - CASCARETS

### TONIGHT! CLEAN YOUR BOWELS AN DEN HEADACHES, COLDS SOUR STOMACH

Get a 10-cent box.

Sick headache, biliousness, dizziness coated tongue, foul taste and foul breath—always trace them to torpid liver; delayed fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months.

choosing of my life work over again. I would again study law and try to arrive in the same position I now hold.

"A woman can be just as successful as a prosecutor as a man. The convictions I obtain never bother me. I have never yet remained awake at night, thinking of the man who has been sent to jail as a result of my efforts. In my position as an assistant federal attorney, I am never called upon to prosecute unless it is almost a certainty that the victim is guilty of the charge. One United States commissioner and two jurists pass upon his guilt before I obtain his conviction and before he is sent to jail. That should be sufficient to relieve any pang of regret I might have if the person I am prosecuting is convicted. I would not prosecute anyone I did not believe was guilty.

"I take the business of prosecuting as an important thing. I do not feel that I am prosecuting the individual but the crime. One thing I am opposed to is the drawing of a confession from a prisoner with the promise of a light sentence."

Survivor of Cumberland Dies. WASHINGTON, March 3.—Major-General Charles Hayward, United States Marine Corps, retired, died at the Naval Hospital here, aged 78. General Hayward, who was a native of Maine, fired the last shot before the Cumberland went down in the engagement with the Confederate ironclad Merrimac, and then saved his life by jumping overboard.

Men Pay Homage to Mother's Friend

"I am not surprised to observe the number of men who come into the store to purchase 'Mother's Friend,'" remarked a leading druggist.

It is a happy thought to send hubby to the drug store for "Mother's Friend." It is applied externally over the abdominal muscles.

It is a gentle, soothing lubricant, penetrates to the finest network of nerves beneath the skin and has a marked tendency to relieve the muscular strain to which those broad, flat abdominal muscles are subjected. The cords, tendons and ligaments are thus permitted to stretch without the corresponding surface strain so often involved during the period of expectation. This in part accounts for of nausea, morning sickness and other distresses, such as laceration of the epiform of lubrication is neglected.

"Mother's Friend" has been highly recommended by a host of women who know from experience and by men who know from observation. Write Bradfield Regulator Co., 308 Lamar Bldg., Atlanta, Ga., and we will send you a valuable little book to expectant mothers.

IN RECORD TIME OUR "SIX" HAS SOLD ITSELF TO THE NATION  
Public opinion has endorsed our own belief in the new Studebaker "Six."

Record sales prove the new "Six" the most popular of all Studebaker cars. East, West, North and South this Six has leaped to instant favor.

The phenomenal sales record of the "Six" is simply the result of unusual value in the car itself. For the new Studebaker "Six" sells itself.

We have made strong claims for the new "Six"—claims that have caused a sensation in the motor world. Yet every claim has been proved.

Standard Road Tests reveal the "Six" through a course of sprouts which can neither hide its defects nor exaggerate its virtues—a trial such as not one owner in a thousand would give his car.

This is the plan by which the Studebaker "Six" has sold itself to the nation.

Improvement begins immediately.

Hood's Sarsaparilla purifies the blood, makes the rich red blood that is needed for perfect digestion, and builds up the whole system. No other medicine can take its place.
