Lined up for your review by General Service

Talk about an army of facts—we have been able to check up the returns from 500,000 Diamond Tires.

Just think it over for a minute.

This is no puny group of isolated tire testimonials, it's a real report from hundreds of Diamond Tire distributors on tires sold and tires returned for replacement or adjustment.

No tire manufacturer ever dared to speak in public about such a report, let alone offer to place it in the hands of every interested tire buyer.

Use the return coupon and receive the book of compelling facts showing that on an average but one Diamond Tire out of every hundred was returned for replacement or adjustment.

Added to the wonderful Diamond service you can now buy Diamond Squegee Tread Tires at the following

GIANTS AND BRAVES WILL STAGE MERRY WAR OF THEIR OWN

NATIONAL LEAGUE PENNANT RACE IS GOING TO BE INTERESTING.

Critics Who Howled That McGraw Did Not Have a Pitching Staff Are Now Silent—And There's a Reason—Little Napoleon of Baseball Has Made Master Moves.

BY HAL SHERIDAN.
(Written for the United Press.)
NEW YORK, March 20.—More and more, as the opening day draws near, does it appear as though the Giants and Braves were going to stage a merry little war all by themselves for the National League pennant. All there is to it—they are the class of the league and from this angle there doesn't seem to be a team in the Tenor circuit that has even a chance to cheat them out.

Critics who a few weeks ago were howling that McGraw didn't have a pitching staff are strangely silent now. Critics who at the close of the last season were howling that his infield was shot to pieces crawled in to their holes when the Little Napoleon went out and grabbed Honus Lobert. They burrowed still deeper when he went out and grabbed himself Pol Perritt.

Mathewson, Tesreau, Marquard, Perritt, Chalmers, Fromme—how does it look?
Rudolph, Tyler, James, Hess, Davis, Crutcher—how does it look?

If there are any of the other six teams in the league boasting such aggregations they have yet to blare forth.
Getting down to hair line distinctions—on paper—the Giants seem even to have the edge on the hated Bostonians. Comparisons, however, are odious, as was proven quite conclusively last October when the dopsters began comparing Schmidt to McInnis, Deal to Baker and Gowdy to Schmidt.

Schmidt, Evers, Maranville and Smith, against Merkle, Doyle, Fletcher and Lobert, Magee, Connolly and Moran against any three of the following—Roberston, Snodgrass,

Thorpe, Burns or Murray, Gowdy and Whaling against McLean, Myers and Smith.

If the foregoing battle fronts don't offer pre-season prospects of the best little fracas in the history of the grand old game then all dopis is useless, and the dopsters should be sent to Belgium.

The weakness of the Giants last year was attributed to lack of another good pitcher and a weakness at third. Both have been filled—and most ably. Weakness of the Braves—if there are any—was in their hitting. Sherwood Magee, slugger par excellence, was added.

Now if the anvil chorus will just join in on "Just Before the Battle, Mother," we'll let out bets on the Giants and Braves against the field stick from April to October.

POLICE CONDUCT POOLS.

Authorities in New York Handling Race-track Events Says Dope.

BY HAL SHERIDAN.
(Written for the United Press.)
NEW YORK, March 20.—New Yorkers who play the races telephoned their bets to police headquarters the other day and were sore birds when the ponies they picked as winners failed to fatten their bank rolls.
In its crusade against betting the police department has gone in the pool room business—at least that's the way the betters have it doped. A pair of detectives from headquarters sat at the phone in an office in William street, got all the information from betting headquarters and received about fifty bets from clients who stand well enough to bet "markers."

Some of these bets were on winners, and it was the howl brought out by the lucky ones which brought out true facts. They are calling the cops welters.

When the day's races ended the police had collected all the information they wanted. The regular pool rooms are down on the police lists and raids galore were in prospect.

A few weeks back it looked like efforts to interest women in boxing hereabouts had failed. But the other night, when 200 of the feminine fans gathered at Sixty-nine Regiment in aid of the city's poor, pessimists changed their spiel and agreed that beakrked ringside bugs will be able to master the game pretty soon. The tournament was for charity, and that brought a lot of women who otherwise would not have attended, but the simon-pure boxing microbe stung some of the girls, at that.

TO PRAY FOR PEACE.

NEW YORK, March 20.—Prayers for peace will be said in every Catholic church of the world tomorrow, in response to Pope Benedict's special order for Passion Sunday.

HELEN LOSINICH TELLS OF RED CROSS NURSES

MRS. HELEN LOSINICH.
NEW YORK, March 20.—Miss Helen Losinich, former Red Cross nurse in Serbia, who is here visiting Mrs. Slavko Grouitch, wife of the Serbian under secretary of foreign affairs, has given several interesting talks describing the work of Red Cross nurses in her country. In the first place, few of the women at tending the sick and wounded are graduate nurses—most of them have picked up much experience in three years of warfare in Serbia, and they have been further taught by simple, first aid to the injured lectures. She spoke of the lack of facilities and sanitary appliances in the hospitals and thanked Americans for their financial aid.

NEW SUBMARINES TO MAKE 20 KNOTS
NEWPORT NEWS, Va., March 18.—Secretary of the Navy Daniels, speaking at the launching of the Pennsylvania, praised the men of the United States navy, and declared that arm of the national defense was never so powerful as now. He urged constant training and more target practice for the navy.
The secretary also expressed his thanks to congress for providing so amply for new submarines.

THAT TIRED FEELING
Relieved by Hood's Sarsaparilla, Which Renovates the Blood.
That tired feeling that comes to you in the spring, year after year, is a sign that your blood lacks vitality, just as pimples, boils and other eruptions are signs that it is impure; and it is also a sign that your system is in a low or run-down condition in-viting disease. It is a warning, which it is wise to heed.
Ask your druggist for Hood's Sarsaparilla. This old standard tried and true blood medicine relieves that tired feeling. It cleanses the blood, gives new life, new courage, strength and cheerfulness. It makes the rich red blood that will make you feel, look, eat and sleep better.
Be sure to get Hood's, because it is the best. There is no other combination of roots, barks and herbs like it—no real substitute for it—no "just-as-good" medicine.

HOLT COMBINED HARVESTERS

There's a Holt Harvester (either gas or ground power) for every farm.

DON'T experiment. It's expensive and dangerous. Not every Combined Harvester is a Holt—just the successful ones. Holt Harvesters are long past the experimental stage. The design is standard—the improvements added year by year are the finishing touches that add to the owner's convenience and success. Their cut ranges from 12 to 22 feet. Their worth has been proven by years of successful operation and the saving of thousands of dollars to their owners in eastern Oregon and Washington.

This agency alone has delivered over 600 Holt Harvesters with no dissatisfied owners and not a single rejection.

A Gas Holt Harvester Will Make You More Money

It will save your down grain and save you from 40 per cent to 50 per cent the stock needed to pull your machine. Come in and let us figure with you NOW, as the supply is limited for this season.

GAS MOTORS **CATERPILLAR ENGINES**

We have separate gas motors that can be attached to your old ground-driven harvesters. They are of four cylinders and come in 30 and 45 H. P. sizes—also the midget motor weighing under 1000 lbs., for driving small harvesters. The new aluminum base on all these gas motors, this year, make them much lighter.
The traction engine that is the peer of them all. Sizes 75, 60, 45, 30 and 18 H. P. Unequaled for plowing, harrowing, seeding, harvesting, hauling and stationary power purposes. The Caterpillar is the only tractor which takes no account of soil or weather conditions. It works where horses and other tractors are forced to quit.

Necessary Extra Parts Always on Hand.
