Daily Mountaineer.

Parts | Pasitons .- A few items in regard to Paris fashions will be of practical interest to the ladies :

Several leading dress makers have quite decided ou an attempt to shorten the dresses this winter; those destined for promenades they intend to make with skirts which will barely touch the ground. The success of their endeavor will prove whether there are any reasonable women among the leaders of fashion. The large square vails which were fashionable five-andtwenty years ago will definitely be worn this winter, The mask veil. which has been popular for so long, is at length to give way to the long, flowing veil of the past. Among other costly items which are daily added to Eugenie's wardrobe are the most exquisite embroidered silk and cashmere petticoats. The white cambric petticoats are now quite abandonedduring the day; even the Empress is never to be seen in one : her Majesty wears a variety of silk petticoats, but blue and white appear to be her favorite mixtures.

COFFER IN THE WORLD .- The total annual product of coffee in the world is set down in a circular at an average of 672,000,000, pounds, or about 300,000 tons. Half of this is produced in Brazil; about fifty thou. sand tons come from Java and Sumatra; 30,000 tons from Ceylon, 25, tons from St. Domingo, and the remainder from a variety of other countries, or islands in or near the torrid zone.

For ninety-five successive years the Moravian missionary ship has made an annual voyage from Europe to the shore of Greenland and Labrador.
