## Remarkable Statement of Personal Danger and Providential Escape.

I then endured, for words can never de- can afford to hazard such chances. just the way I felt when the relent- and personal consequence. less malady which had fastened itself upon me first began. Still I thought nothing of it; that probably I had taken a cold which would soon pass away. Shortly after this I noticed a heavy, and at times neuralgic, pain in one side of my head, but as it would come one day and be gone the next, I paid little attention to it. Then my stomach would get out of order and my food often failed to digest, causing at times great inconvenience. Yet, even as a physician, I did not think that these things meant anything serious. I fancied I was suffering from malaria and doctored myself accordingly. But I got no better. I next noticed a peculiar color and odor about the fluids I was passing -also that there were large quantities one day and very little the next, and that a persistent froth and seum appeared upon the surface, and a sediment settled. And yet I did not realize my danger, for, indeed, seeing these symptoms continually, I finally became

I consulted the best medical skill in the land. I visited all the famed mineral springs in America and traveled from Maine to California. Still I grew worse. No two physicians agreed as to my malady. One said I was troubled with spinal irritation; another dyspepsia; another, heart disease; another, general debility; another, congestion of a long list of common diseases, the comb and brush for a month, at least. symptoms of many of which I really had. In this way several years passed, during which time I was steadily growing worse. My condition had really become pitiable. The slight symptoms I at first experienced were developed into terrible and constant disorders. My weight had been reduced from 207 to 130 pounds. My life was a burden to myself and friends. I could retain no food on my stomach, and lived wholly by injections. I was a living mass of pain. My pulse was uncontrollable. In my agony I frequently fell to the floor and clutched the carpet and prayed for death. Morphine had little or no effect in deadening the pain. For six days and nights I had the death premonitory hiccoughs constantly. My water was filled with tube-casts and albumen. I was struggling with Bright's disease of the kidneys in its last stages!

While suffering thus I received a call from my pastor, the Rev. Dr. Foote, at

Church, of this city. I felt that it was

30 blind I cannot understand.

our last interview, but in the course of conversation Dr. Foote detailed to me the many remarkable cures of cases like my own which had come under his observation, by means of a remedy, which he urged me try. As a practicing physician and a graduate of the schools, I derided the idea of any medicine outside the regular channels being in the least beneficial. So solicitious, however, was Dr. Foote, that I finally promised I would waive my prejudice. I began its use on the first day of June, 1881, an I took it according to directions. At first it sickened me; but this I thought was a good sign for one in my debilitated condition. I continued to take it; the sickening sensation departed and I was finally able to retain food upon my stomach. In a few days I noticed a decided change for the better, as also did | ton Transcript. my wife and friends. My hiccoughs ceased and Lexperienced less pain than formerly. I was so rejoiced at this improved condition that, upon what I had dying bed, I vowed, in the presence of use of the pelts than to sell them if they my family and friends, should I recover I know how to preserve them. For mats would both publicly and privately make take two long-wooled skins and make a known this remedy for the good of hu- strong suds, using hot water; when it known this remedy for the good of humanity, wherever and whenever I had an opportunity, and this letter is in fulfillment of that vow. My improvement was constant from that time, and in less than three months I had gained 26 pounds in flesh, became entirely free from pain and I believe I owe my life and present condition wholly to War-

difficulties and Bright's disease, and the and sprinkle on the flesh side of each truths developed are astounding. I skin, rubbing in well; then lay the flesh therefore state, deliberately, and as a sides together and hang in the shade physician, that I believe more than one- for two or three days, turning the under physician, that I believe more than one-half the deaths which occur in America are caused by Bright's disease of the kidneys. This may sound like a rash statement, but I am prepared to fully verify it. Bright's disease has no distinctive symptoms of its own (indeed, it often leaves). They also make good mittens. symptoms of its own (indeed, it often Lamb skins, or even sheep-skins, if the the kidneys or their vicinity), but has three-fourths inch long, make beautiful common complaint. HEALTH, WEALTH AND HAPPINESS Are more intimately connected with sound stemach and good condition of the blood than most people suppose. Thin blood means weakness, languor and misery. A dyspeptic stoma h means all the horrors you can think of. Brown's Iron Bitters means enriched blood, good diges-

ARRESTING THE PROGRESS OF CONSUMP

In this disease, as every one is aware the only hope of the patient lies in the es-tablishment of a higher vital condition. Efforts are made to reach this through out-door exercise, and by various other means for improving the general health which are known to invalids and physicians. Now, in the Vitalizing Treatment of Drs. Starkey & Palen, 1109 Girard Street, Philadelphia, has been discovered an agent that gives directly this higher vitality, which generally becomes apparent at the very outset of its use. This is manifest in an almost immediate increase of appetite, and in a sense of life and bodly comfort. If the Treatment i continued, a steady improvement nearly always follows; and where the disease has not become too deeply seated, a cure may be confidently looked for. If you would have satisfactory evidence of this, send to Drs. Starkey & Palen for such documents and reports of cases as will enable you to judge for yourself, and they will be promptly

FLOUR-Best city extra, \$4.373@5.00; medium, \$3.75@4.25; shipping superfine, is not in good health, and leads her to the second therefor. Pallor is almost to another. The fact is not a pleasant one seek a reason therefor. Pallor is almost always attendant upon the first stages of consumption. The system is enfeebled, and the blood is impoverished. Dr. Pierce's "Golden Medical Discovery" will act as a tonic upon the system, will enrich the impoverished blood, and restore roses to the cheek.
