APPOINTED. - Creed Floed has been appointed a mail agent on he cars between Portland and Tacoma, His many friends here wish him success and are pleased to hear of his good fortune.

ASSAYED .- C. Ball has had the rock of the Cleveland and Hendricks, ledge assayed in Portland. It yielded 11 per cent lead and silver, with trace of arsenic. As the ledge goes deeper they expect the lead to drop out and will then have a good silver mine.

CLUBBING RATES .- We have made such arrangements with the N. Y. World as to be able to farnish the World and BECIEW for one year for \$3.00, This proposition applies to all new subscribers paying in advance, and to all old subscribers paying arrearages and one year in advance.

SRELETON FOUND, -A skeleton of a man was found hanging by a rope round the neck to the cross beam of Bob Smith's barn near Yoncolla. The barn was one that had not been used for several months and it is thought that some unfortunate tramp here ended a miscrable existence.

FAREWELL PARTY. -A social dance was given at Slocum's Hall on Monday evening tu honor of Miss Belle Jones who departed Tuesday morning for her future home in Ithnois. It was largely attended by the friends of that young lady and was a round of merriment tinged with regret that the chain of friendship was to be broken.

RETURNED. Miss thez Gillitland and Miss Lulu Willis, two of Roseburg fairest belles, teturned this week from an extended visit to Jackson county where they went in Promenade Concert and Strawberry Festi search of health and pleasure! Our young folks welcome their return with feelings of deepest jo, and from the charming rose tints of health upon their cheeks we presumo their quest was satisfactory.

FROM BOHLMIA. - We learn from the several prospectors who have been engaged in looking for gold near Bohemia mountain that zv while there is undoultedly a great quantity of mineral there, it is so equally divided as of that model of country newspapers-the not to pay for working until cheaper methods and machinery are in use. The cel-brated Knott mine is described as simply having been an unusually rich pocket, not on the main iedge at all.

CAMPMEETING .- There will be a camp the world, meeting held between Oakland and Withur commencing on Thursday May 28th and continning natil June Sch. The object of the meeting is for the conversion of sinners and the promotion of scriptural holiness. We hope it wi! be a salvation meeting. A good boarding tent will be kept on the ground and meals will be furnished at 25 cents. Good pasture and feed for horses at reasonable rates. Rev. B. T. Sharp and other min sters will be in attendance. A cordial invitation is extended to all. Let all who can do so come and camp at the first of the meeting. T. L. Jones, Pastor

Some Homan Nature, -It is prescribed by the unwritten law of chivalry that you must never strike a man while he is down, yet there are many who violate this humane injunction. To borrow and paraphrase Sydney smith's remark, "A no sooner falls into difficulties than B sets himself to see what he can make out of A's embarras-ments. Insolvent estates are preved upon most unmercifully. Questionable claims are set up and extortionate charges pressed against them. Persons indebted to them try to evade payment of what they owe. They are looked upon as legitimate objects of spoliation upon whom many have designs and for whom none feel compassion.

BABYHOO3, -- Marion Harland describes a few good and w. 1 some "nursery desserts" in Babyncos for Mar, for mothers who are judicious enough to their littlest ones such instead of rich cakes and puddings. Wm. P. Gerhard, C. E., contributes to the same number apractica I talk'on "Country Houses and their Surroundings," exposing the false sense of security in which many families indulge merely because they "do not live in the city" : were some of his suggestions heeded desease would make fewer raids in the nursery. Besides various other important topics which are treated in this issue, the readers of the magazine appear to vie with its editors in farnishing useful hints.

LITERARY NEWS .- T. B. Peterson & Br. thers, Philadelphia, will issue in a few days "Snob Papers," by Adair Welcker, Deputy Superintendent of Public Instruction, Sacramento, California. The scene is laid in San-Francisco, Oakland and the surrounding country, and the hero, a lluff old "Forty-Niner." has grown rich at the mines. He comes to SanFrancisco to mingle with the Snobs and see Life, and the shrewd sayings delivered in peculiar style are of the most convulsing type, being one whill of lucicrous adventures, which are quite exciting and sensational, while the action never ceases. Hosts of droll characters are introduced, among them several remarkably lively young ladies and some ladies of uncertain age who are untiring fishers in the matrimonial sen, while the local suobs and dudes are mercilessly ridiculed. "Snob papers" will be published in one large duodecimo volume of 500 pages, at the exceedingly low price of seventy-five cents a copy in paper cover, or \$1.25 bound in morocco cloth, and copies will be sent to any one at once on receipt of price. We predict for it a very large sale. Local agents are wanted in every county. Large wages can be made selling it. Address at once, T. B. I were a newspaper man.

I looked about me and saw a steam saw mill, furnishing employment to a large number of men, turning the surrounding forests into merchantable lumber. Near by I beheld a grist mill utilizing the waters of Pass creek, and turning out a superior quality of flour. I looked again and saw large brick kiln, containing an excellent quality of brick, and I knew that the Messrs, Mattoon had fashioned it. Again I looked and an imposing structure met my gaze, having painted upon the front in handsome letters, "Drain Academy," and "State Normal School." Out of this building trooped nearly a hundred boys and girls of all ages, with happy facss and intelligent expression, showing that the mountain village is not behind in facilities for mental culture. Still further down Miss Sallie Hamblin is attending the street I saw two nice hotels, one conducted by that genial man Mr. Underhill, the other, until the present week, managed by Mr. Merrill, but night proved a grand success-all but now controlled by our old friend Mr. Holyfield who with the aid of his good wife knows how to make a hotel attractive.
