Why don't some one start a cheese factory at this place? There is undoubtedly a good opening for an enterprise of that kind here. Union is in need of several other industries, which we shall call attention to from time to time, as we think the exigence of the case demands, and our statements may be relied on at all times.

There are also men engaged in various kinds of business here, which a live man would not find in his way if he wanted to start in opposition. Live men are the kind that are needed, and such we shall induce to come, if possible.

Sunday last Mr. Peter Moe, an old resident of Grande Ronde Valley, and father of Mrs. Willis Skiff, of this city, was here visiting his daughter, who has been sick. In the afternoon he took his team and started home, but was found that evening about 4 o'clock, lying by the road side a few miles this side of his house, in a helpless condition. His team was standing a few yards away. It seems he had suffered from a stroke of paralysis, and fell from the wagon, and the horses stopped of their own accord. He was conveyed to his home, where he slightly recovered, but lingered along and died about 6 o'clock next morning. He was buried in the La Grande cemetery, the funeral taking place Tuesday afternoon. Mr. Moe was aged about 70 years, and was well known throughout the county, having lived here since 1864. Many will regret to hear of his sudden death.
