Another Disastrous Fire Visits the City and Destroys Nearly Four Blocks -List of the Losses.

Although Union was nearly depopuand Miss Elizabeth A. Sinclair, of Uma lated on the Fourth, those who remained at home were not at loss for the want of amusement, and we doubt if there was any set of people who traveling on the west bound train had the enjoyed themselves better than those who remained at home in Union on that day. Our citizens were awakened early in the morning by the loud reports of chinese bombs, anvils and the festive fire cracker, but from 7 to 9 of the twine. See their celebrated "M. N." o'clock the town looked pretty deadhardly a soul appearing on the streets save now and then a small boy with a fire cracker which he had been fortunate enough to find. All this time, however, fun was in the minds of a Leon Levy returned home from Uniatida few of our young men, and at about 10 o'clock when the mock band appeared on the street seated in the elegant new platform truck of the milling company, drawn by Tom Ficklin's fine team, it looked as county. The band was driven all over the city and our citizens were treated to this most excellent music until

> In the afternoon the fun was again resumed, and sack races, wheelbarrow races, hurdle races, mule races and various sports indulged in, interspersed with music by the band. The ladies also took an active part and the afternoon soon passed away amid the enjoyment of all.

After supper the crowd was considerably swelled by parties returning from the mountains where they had Wm. Sheriden, a young man who has been spending the day in rest and our town, which will be of great benefishing, and the festivities again commenced. The band again appeared cluding a board bill at Mr. L. A. Robert. on the trucks followed by Coffinberry's son's where he had been stopping for a trucks loaded with a jolly crowd of works were sent up from the bridge and our streets presented a lively appearance by the large number who ties. AT LA GRANDE.

Those who visited La Grande report Justice Summons. Warrant of Arrest, ton on the Fourth Walla Walla defeated a very pleasant time, although preparations had not been made for such a large crowd and the town was unable to accommodate them, their being about 6,000 or 7,000 people present. Hon. J. N. Dolph delivered the oration, Many attractive sports were indulged in, including baseball, wrestling matches, etc., and the day passed off very pleasantly. At about 8:30 in the evening, however, when all was joy and merriment and the young people were repairing to the hall for the dance, the town was suddenly thrown into excitement by the cry of "Fire!" The streets were crowded with anxious people waiting to witness the display of fire works, but not the kind that now threatened to destrey the town. The fire was soon located sold to customers direct from the properly in the rear of the Blue Mountain house and was under considerable headway. A strong breeze was blowing from the northwest and the whole building was soon under flames. The fire spread rapidly, and before it was under control had destroyed nearly four blocks in the heart of the city. Snodgrass' store and the Gazette office were destroyed, including three fine presses and other machinery, with no hot for about six hours and sowing it in insurance. We understand the publication will be resumed as soon as new material can be procured. The total loss is estimated at about \$125,

Besides the above a very heavy loss was occasioned by the removal of goods from buildings that were not burned, and goods stolen, besides valuable wardrobes of guests stopping at the Blue Mountain House, including two fine silk dresses and a diamond necklace belonging to Mrs. Senator Delph, valued at \$600, and a gold watch and chain. Wm. O'Bryant was run over by the hose cart and had one of his legs broken.

La Grande is indeed unfortunate in the way of fires, this being the third since the new town was started, and the meagre means which the town has to fight the destructive flames should be a warning to the citizens of Union. Although we have plenty of water in the creek and ditches throughout the town, it is only a matter of time when we will meet the same fate. The system of water works should be pushed to early completion and the fire company equipped with plenty of good hose and a curt. We would then stand some show. As it is, if a fire was started on a windy night we would be powerless, and the whole town would be reduced to ashes within an hour's time. Take heed,

THE NEW SCHOOL HOUSE.

The Work of Construction will be Commenced Early Next Week.

Contractor Keefe and J. T. Jones arrived in the city from Walla Walla yesterday. Mr. Keefe informs us that the work of preparing for the burning of brick for the addition to our school building will be commenced next week and that the building will be pushed to early completion. Mr. Keefe also has the contract for putting in the system of water works here and will also commence work on them as soon as the right of way is secured. These two contracts will give employment to quite a number of men and considerable money will be expended in fit to our business men.

About 10:30 o'clock all repaired to Wright's hall where the dance was to be given. A large number of tickets were sold and a very good time was had, although there was some dissatisfaction on account of the late hour at which the dance was started. A number of couples were patiently waiting for the hall to be opened, as they could not possibly get seats in the lodge room to witness the ceremonies there; but taken altogether we presume general satisfaction was given and the affair was a financial success.

Nearly a Fire.

During the celebration at Summerville on the Fourth the parties baving in charge the fire works took them up on the top of Wade Bros.' store in order to fire them off. The box containing the fire works was placed on top of the building and when they commenced firing them off the whole business caught fire, causing great excitement. The box was kicked off and landed in front underneath a span of horses hitched to a rack. One of the horses was burned in a frightful manner and it is thought will die. They were finally re leased and taken to a livery stable to be put away and during the excitement a lantern was broken in the barn and another fire started. It was soon extinguished, however, and all went off smoothly.

A CONSTRUCTION COMPANY.

It will Build Roads on the Single-Rail and Saddle-Truck Company.

The organization of a construction company to build roads on the single-2,000 rail and saddle-truck system of Dr 2,800 Mahana's is now in progress. The new enterprise will have the same capitalization, \$600,000, as the original company, which controls the pateuts, and the par value of each share is fixed at \$100 Although money is scarce at Union, where the original company was organized, as it is now at every place in the Northwest, the people there quickly subscribed \$10,000 worth of stock in the construction company, which evidences their faith in the new plan of railroading. The company as soon as organization is effected and plans arranged, will build the initial single-rail and saddle-truck railroad in sutherland. Oregon, probably in the Willamette valley. Some of the original company's stock is being sold at Portland for fifty cents on the dollar,

A newspaper in Ohio recently brought suit against forty-three men who would not pay their subscription and obtained judgement in each case for the amount of each claim. Of these, twenty-eight made affidavit that they owned no more than the law allowed, thus preventing attachment. Then, under the decision of supreme court, they were arrested for petit larceny and bound over in the sum of \$300 each. All but six gave bond, while six went to jail. The new postal law makes it larceny to take a paper and not pay for it."-Toledo Blade,

It is not the intention of THE SCOUT to force the paper upon anyone but if there is a person now taking it who does not expect to pay, or is owing us on subscription and thinks the same will not have to be paid some day, they are badly mistaken. The day of settlement will come and we will have our pay. We are in hopes we have none of this class of subscribers, and that we will not have to resort to such means as the above in order to get our money, but if we should, the claims will be pushed to the fullest extent of the law.

Electric Bitters.

Mr. Frank Huffman, a young man, of Burlington, Ohio, states that he had been under the care of two prominent physicians, and used their treatment until he was not] able to get around. They pronounced his case to be consumption and incurable. He covery for consumption, coughs and colds and at that time was notable to walk across the street without resting. He found before he had used half of a dollar bottle, that he was much better; he continued to use it and is today enjoying good health. If you have any throat, lung or chest trouble try it. We guarantee satisfaction. Trial bottle free at Brown's drug store, Union, Or.

Footprints of the World's History. It is a relief to pick up a new book that

is at once thrilling, romantic, wholesome, pure and true. Such a work is "Footprints of the World's History," the latest and greatest work of the two celebrated historians, John Clark Ridpath and Wm. S. Bryan. These distinguished gentlemen. having won laurels by independent writings, have co-operated on this work and produced a "gem of the purest ray serene." It is not a dry, uninteresting statement of plain facts, but rather each of the most important events in history has been taken up and described by a master of language, who holds the reader entranced as he wends his way along the path of history, following carciully in the footprints of progress.

We are delighted with this superb volume. Perfect in thought, superb in style, and magnificent in execution. The bindings are sumptuous, as are also the many filustrations and colored plates. The pubishers have rightly congluded that such a sem should have a rich setting.

It is a valuable addition to literature. It s a book for the old as well as the young; the married as well as the single; the gay as well as the grave. Everybody will read it with equal engerness and profit. It is sold only through agents, and the publishers' advertisement appears in another col-7-9-w1
