CHILDREN'S DAY SERVICES

There are great preachers and great sermons, just as there are great kings and great potatoes, but the good of earth is not all in their keeping.

Sunday last was Children's Day at the M. E. church, and birds and flowers were the text and the children were the preachers.

Boils, carbuncles, and eruptions of all kinds are nature's efforts to throw off poison from the blood. This result may be accomplished much more effectively, as well as agreeably, through the proper excretory channels, by the use of Ayer's Sarsaparilla.

Mr. W. R. Ellis was obliged to have his limb amputated on Saturday, owing to its splintered condition at first setting, when some of the bones were not found, consequent upon its swollen condition from long waiting for a surgeon.

Sarsaparilla belongs to the similar family of plants, and is found very generally over the American continent; but the variety that is richest in medicinal properties is the Honduras root, of which the famous Ayer's Sarsaparilla is made.
