AN EFFORT is being made to throw the coming national election in the house of representatives and senate. In this event Cleveland will be president and Reid vice-president. This can only be done by fusing with the third party, and it is being done in many places.

HAL POINTEUR, the great racer, is the record breaker again for the fastest mile, making it at Providence, R. I., last Thursday in 2:55. On the same day, at Independence, Iowa, Johnson, with a flying start on a safety bicycle, made a mile in 1:56 2/5. Verily, this is the year of record-breaking.

The democratic state convention at Columbus, S. C., Sept. 22, chose candidates for electors. There was a hot debate over a resolution requiring these candidates specifically to pledge themselves to vote for Cleveland and Stevenson. It was finally ordered that within 10 days after the adjournment of the convention each pledge shall be given.

The Oregonian gives Grover Cleveland and Governor Flower the left-hand cuff. Governor Flower's "I don't care a damn for votes" ought to go ringing down the ages with Grover Cleveland's "The presidency may go to hell" when he was told he might lose it by publishing his anti-slavery letter. The form of these utterances is not to be commended, but their spirit is admirable.

The Salt Lake Tribune says: The tin plate manufacture in this country is undergoing just now the same process that was gone through with when the making of steel first began, and as the works in America now produce steel billets as cheaply as they are produced across the Atlantic, so it will be in another year, or two years at farthest, with tin plate, and the \$20,000,000 formerly sent away to buy tin plate will be distributed among the workmen of our country, and one more great industry will be established here; in one more way will the United States be entirely independent of all the world.

### THE ARTESIAN WATER.

Below is given the analysis of Heppner's artesian well water:  
Portland, Or., Sept. 10, 1892.

H. V. GATES, Esq.,  
Dear Sir:—I have carefully analyzed the sample of Heppner water you left with me, and find that it contains 25.42-100 grains of solids per gallon, composed of the following ingredients, viz:

Table with 2 columns: Name of substance and amount in grains per gallon.

Total 25.42  
The carbonates of lime, magnesia, and chlorides of soda and potassa are all soluble, and the water is exceptionally free from organic matter, and not a trace of ammonia can be found in it. The water ranks among the best of well waters. No objection need be taken to any water, free from ammonia, where the soluble solids fall below 40 grains per gallon.

Respectfully,  
J. H. Fisk, Chemist.

SAD DEATH.—On Sunday, Sept. 25, '92, at Heppner, occurred the death of Bertha I. Huston, wife of Wayne Huston, and daughter of Mr. and Mrs. J. P. Hadley, of Harnden, aged 19 years, 9 months and 22 days. Mrs. Hadley only recently went down to Salem to visit her sister, Mrs. H. H. Glassford, and though several telegrams were sent her announcing the death of her daughter, not one was delivered, which is creditable indeed (?) to the telegraph service of Oregon. The funeral was to have occurred at 1 p. m. today, but just before going to press, we learn that it has been postponed till 7 o'clock this evening. Mrs. Hadley is expected home on to-day's train, having received the last telegram sent. The services will occur at the grave, and it is hoped that all friends and acquaintances will attend. No one needs friends till in the hour of trouble—then it is that they like their counsel and comforting words.

G. A. R. and COLUMBIAN DOINGS.—A committee of citizens, members of Rawlins Post, G. A. R., at Lexington, came up last Saturday evening to confer with the committee on program, thinking that that committee intended to meet on that evening. This was the result of a misunderstanding, as the committee will not meet till next Saturday. It is expected that the post's committee will be represented on that occasion. The members who were present last Saturday were J. F. Willis, J. S. Boothby, R. J. Hill, D. C. Ely and Capt. T. J. League. J. D. Dampman is also a member of that committee, but was not present last Saturday. With the co-operation of this committee, with the committee on program, appointed here by the general committee, the program cannot help being interesting. It is expected that the old soldiers will make out their own program for campfire and like exercises.

OVER TO JOHN DAY.—After October 1 Tom Morgan will be found in Grant Co., John Day City, in charge of a band of those famous Ross bucks, from the band of Chas. Cunningham. He will remain there till about Nov. 15th, and those wanting first-class stock will do well to see the Ross bucks before purchasing elsewhere.

ORANGE BLOSSOM.—At the residence of the groom, near Ione, on Monday of last week, occurred the marriage of T. J. Allyn, of Ione, and Mrs. Russell, of Lexington, Justice Miller performing the ceremony. The Gazette extends congratulations.
