The Grant County Circuit Court wound up its docket this week. In the criminal cases Edward Cain was found guilty of horse-stealing and given three years in the penitentiary. He is supposed to be a member of the gang of rustlers now infesting the John Day and Central Eastern Oregon country. Aleck Dehore, who committed a criminal assault upon the wife of a farmer, was given a very light sentence, being fined only \$150 and costs. It is said that the Grant County authorities are determined to use every effort possible to bring to justice all those connected with the gang of cattle-thieves in that county. The conviction of Cain is but the beginning of a crusade that will ultimately wipe out this band of desperados.

In improvements in the water system of the Heppner Electric Light and Water Co. are now in active progress with a large force of men. On the land recently purchased from James Jones fronting on Willow creek, a cross cut tunnel has been run under Willow creek, making a reservoir for the storage of water. A good stream of water coming into the reservoir has already been struck. The work of putting in a large pipe from the power station to the reservoir is now almost completed. This water will be kept as a reserve for the condenser and engine for street sprinkling purposes during the summer months. All of the old mains that were laid when the plant was first put in are now being taken up and tested. The pipe standing the test is being re-dipped and put back. New mains are being put in and when finished there will be a good circulating system which will insure an even pressure.

D. B. Stalter, who has just returned from Susanville, was requested by the business men of Susanville and citizens of that district to try and work up an interest on the proposition of getting a road direct from Heppner to Susanville by way of Ritter. The citizens of the Ritter and Susanville districts are very much interested in the matter. This new road would be 25 miles shorter than the present way of going and make Heppner the nearest railroad point. On account of Heppner's location a better railroad route can be obtained from here than from either Baker City or Pendleton which is an item of importance to the people of the Ritter and Susanville districts. It would bring Heppner in touch with the trade of these districts and most of the business would come here. While it is too late to do anything now, this matter should be looked after when spring opens.

PENDELTON OUTCLASSED.
Defeated by the Heppner Giants by a Score of 22 to 0.
The first game of football of the season in Heppner was played on Thanksgiving day at the depot grounds between the Pendleton Scoring Mill team and the Heppner Giants and resulted in a victory for Heppner by a score of 22 to 0.
The Pendleton team put up a good game for a short time, but could not last against the Heppner boys who were much heavier.
The cold weather put the players on their mettle, and they put up good ball, the most exciting part of the game being played in the first half. During the first half the game was a little slow on account of the lighter team not being able to make headway against the strong aggregation of Heppner players.
The notable points about the game were the clean playing, absence of slugging, etc. Most of Heppner's gains were made through the line, the two tackles, Lalande and Eastland being the battering rams, although there were a few end runs made. Another noticeable feature was the good interference put up by both teams.
Clarke made the longest run of the game, from 45 yard line for a touchdown, with a straight line buck through tackle.
Pendleton won the toss, and took the north goal to defend, giving Heppner the kickoff. Ball tackled the Pendleton man in his tracks. After a few downs, Pendleton was forced to punt, and that was the only time the visitors had the ball in Heppner's territory, holding Heppner there for a few downs.
After twenty-one minutes of play Lalande was pushed through the line for a touchdown, and Spaulding kicked the goal. About three minutes before the half was over Clarke made another touchdown, Heppner failing to kick the goal, making the score 11 to 0.
During the second half Clarke made two more touchdowns, Heppner as before, failing to kick one goal, making the score at the close of the game 22 to 0. The last half was not so exciting as the first, the Heppner team having got warmed up, and the only way the Pendleton boys were saved from a harder beating, was by punting when they got the ball.
It was not much of a kicking game, however, more end runs and line bucks being tried. Every man on the Heppner team played good ball, notwithstanding the fact that there were a few of the players that were comparatively new to the game, but once in a while a man got through the line and did a little damage. There was good tackling on both sides.
For the first game of the season, the Heppner Giants acquitted themselves with credit as was undoubtedly proved by the satisfaction expressed everywhere by the large crowd in attendance over the result of the game. The Pendleton boys were gritty players and played ball to the last.

CITY ELECTION.
Very Quiet Day and a Light Vote Pollled.
Heppner's city election Monday was very quiet. There was a light vote. There was only one ticket in the field and the election was non-partisan. There was little interest taken and no excitement whatever, in fact the judges and clerks had a lonesome job. Following is the ticket elected:
Mayor—Frank Gilliam, re-elected.
Councilmen—George Noble, re-elected, O. E. Farnsworth and Phil Cobb.
Recorder—J. P. Williams, re-elected.
Treasurer—L. W. Briggs, re-elected.
T. R. Howard for fine groceries.
H. D. Wood went to Portland yesterday.
N. J. Hale of Ione, was in the city yesterday.
Heina's mince meat and apple butter at Hart & Blake's.
Heina's pickles at Hart & Blake's. Sweet, Sour and Dill Pickles.
Misses Dot Warmoth and Ethel Gearty visited at Rhea creek Sunday.
P. O. Creswell has been re-appointed night watch and is again wearing the stars.
W. W. Kirk of Black Horse is in the city attending protracted meeting at the M. E. church, south.
P. O. Borg calls your attention to his fine line of holiday silverware just received from the East.
A petition was circulated and unanimously signed this week asking that the Mayor appoint a night watch.
Several reliable representatives wanted at once. The Retail Credit & Collection Association, Boulder, Colorado. If
There is no complaint about lack of moisture. The rain fall for several days was sufficient. The ranges already are beginning to show the effect of the moisture by turning green. If the present warm weather continues for a few weeks, grass will get a good start which will be of great value to stock men. Fall sown grain will take on new life. The soil is now in good condition for farm work, and grain will make a good fall growth before cold weather appears.
Work is progressing as rapidly as the weather will permit on the new building which is being erected by the Odd Fellows. The first story is up and the iron for the front has been placed in position. As the walls are thinner for the upper story, the work will go faster. The stone contractors expect to have the stone work finished by the first of the year. The red sandstone front will present a very neat appearance, and when finished the building will be one of the neatest in Eastern Oregon.

D. B. Stalter, president of the Heppner Mining Co., returned this week from the Susanville Mining district where he has been for the past four months superintending development work at the Mayflower group in the greenhorn range. Mr. Stalter brought with him several fine specimens of ore, and he is very much pleased with the outlook of the Mayflower group. He has been working since the first of August a force of from six to ten men. They run a tunnel 175 feet in the Mayflower and struck a lead seven feet in width. At the Illinois mine they sunk a shaft 60 feet and struck a lead 10 feet in width. This shaft was timbered as they went down. The ore is all fine milling and the prospects are flattering. Development work will be closed down for the winter. As soon as spring opens active development work will again be commenced.

Dyspepsia

What's the use of a good cook if there's a bad stomach—a stomach too weak properly to digest what is taken into it?
The owner of such a stomach experiences distress after eating, nausea between meals, and is troubled with belching and fits of nervous headache—he's dyspeptic and miserable.
"I have been troubled with dyspepsia and have suffered almost everything. I have tried many different remedies, but could get no relief until I began taking Hood's Sarsaparilla. After the use of this medicine I could eat without distress, and today I am as well as ever, but I always keep Hood's Sarsaparilla on hand." Mrs. J. A. Crowell, Canajoharie, N. Y.

"It often made my heart ache," writes L. C. Overstreet, of Elgin, Tenn. "to hear my wife cough until it seemed her weak and sore lungs would collapse. Then she began to use Electric Bitters which wholly cured her. It's a wonderful Stomach, Liver and Kidney remedy. Cures Dyspepsia, Loss of Appetite, Try it. Only 50c. Guaranteed.
