residence in the county fell a little short of the requirements. We have references to leeplerg and Meller. They were the only people in Morrow county that wanted Moody. There has been no. change in the situation since.

I sent erg and Miller, the represeptatives of the Simon-Moody machine, are still in Heppner and will stay outil after the county convention to try and do something with the Morrow county delegation for Moody. This is a sample of Moody politics. Moody was turned down completely at the primaries. The sentiment is overwhelmingly in favor of Williamson, and the delegation will be solid for him. Tricks and schemes will not go in Morrow county. This is well understood.
