Mr. and Mrs. Geo. McKnight, Frank McKnight and Misses Winnie and Ida McKnight were in the city Tuesday. McKnight Bros. have finished harvesting an immense crop of alfalfa. They expect to start next Saturday for an extended trip through Harney and Malheur counties.

Forest fires are raging in many parts of Grant county at the present time and unless something is done a large amount of valuable timber will be destroyed, as well as damage done to other property, says the Blue Mountain Eagle. The first fire reported is burning on the east side of Bear valley in the mountains between Bear valley and Antelope valley. A large scope of country has already been burned over, and the flames continue. Parties who came in from the Indian creek country report the entire mountain side near there ablaze, a fine great damage to timber. Another fire is also reported raging in the Beech creek country south of the Black Butte mountain, where some fine timber is being greatly damaged.

Impaired Digestion

May not be all that is meant by dyspepsia now, but it will be if neglected.

The cause is after eating, fits of nervous headache, sourness of the stomach, and disagreeable belching may not be very bad now, but they will be if the stomach is suffered to grow weaker.

Dyspepsia is such a miserable disease that the tendency to it should be given early attention. This is completely overcome by

Hood's Sarsaparilla

which strengthens the whole digestive system

22 SHEEP SHOT.

Four Men Engaged in Shooting Will Spencer's Sheep.

Will Spencer returned Friday evening from his sheep range, and to a GAZETTE representative related the following particulars in relation to the killing of his sheep.

The sheep that were shot were being looked after by Herder Jim Nail, and were on Deerhorn creek in the Blue mountains in Umatilla county. Saturday of last week, the herder started to camp about 6 o'clock in the evening to start supper, this being the usual custom. When he got to camp he found that it had been destroyed by fire. His supplies being all destroyed and not knowing just what to do he went back to the sheep. When he got back to the sheep on top of a mountain, he heard somebody talking below him under the rim rock. He looked down and saw four men, three on horseback and the fourth riding a mule. He heard one man plainly say: "Here is where we had the fire."

Another one of the party said: "Yes, and there are the — sheep." They then all got off of their mounts and commenced firing at the sheep.

The herder can give a good description of one man, but he was badly frightened and ran and secreted himself not caring to make a very careful examination while the Winchester were belching forth their murderous fire.

After the excitement had died down and the men had gone, Nail rounded up the sheep and found that 22 had been killed.

Mr. Spencer has a good idea who the men were that shot into the sheep. The camps have been refurbished and everything was quiet at last reports.

Mr. and Mrs. Al Herren of Independence are the guests of Mr. and Mrs. D. A. Herren near this city. Mr. Al Herren has just returned from a trip through Crook, Klamath and Lake counties. He says that there is a great rush for timber lands in the timber districts of these counties. People are coming in from Minnesota, Wisconsin and other places in a wild rush to gobble everything in sight in the shape of timber. Some of them were running their horses to death to get in there. Mr. Herren stopped at Bend, a little station in Crook county, and one evening 90 land lookers came in. Much of the land that is being taken is of very little value but any kind of timber land is in demand. Mr. Herren is proprietor of a big grain elevator at Independence and will go back in a short time to take care of the coming crop. He says that Polk county is prospering. Crops are good and hop men are rejoicing. A large amount of real estate has changed hands in Polk county during the past year.

The readers of this paper will be pleased to learn that there is at least one remedial disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
