We have often heard it said in defence of poor printing that it attracts attention. Attracting attention is

only a part of its mission. Printing that will do you good should attract favorable attention.

There are some things which are better overlooked.

The kind of commercial printing which a great many merchants are willing to use belong to this class.

You want your printing to attract attention not by its defects but through its

It should be so good, so perfectly suited to its purpose that it will attract attention only through the clean, clear and satisfactory way in which it delivers

This applies just as much to the printing you put upon the head of your letters, statements and things of that kind as it does to the printing used in a pamphlet, booklet, folder, circular or card.

Whatever is printed is printed to be read. The best printing is none too good for your purpose if your business depends upon the opinion of

other people. If you wish to practice what this sermon preaches, let us see you at our office.

OUTPUT OF GOLD IN OREGON

Increase - Baker County Holds First Place.

WASHINGTON, Aug. 25 .- "If no damaging frost occurs wi hin the next 30 days," said Secretary Wilson, of the the Agricu'tural Department, this morning, "there will be the greatest corn crop harvested this country ever saw. With this crop matured within the next month, and feeding to begin about the first of September, I feel confident that within three months you will see some reduction in the price of

Secretary Wilson explains that the loss of Australian mutton has incressed the demand for American beef, and that Americans themselves are becoming the greatest beef-eaters in the world. He adds

"Despite this increased consumption and foreign demand, I still believe that our large corn crop turned into beef will bring down the prices of that article of food.
