### Are You Engaged?

Engaged people should remember  
that after marriage many quarrels can  
be avoided by keeping their digestions  
in good condition with Electric Bitters.  
S. A. Brown, of Bennettsville, S. C.,  
says: "For years my wife suffered in-  
tensely from dyspepsia, complicated  
with a torpid liver, until she lost her

## COMMERCIAL CLUB MEETS

Committees Report on Plans For  
Building—Site Not Yet  
Chosen.

The Heppner Commercial and Ath-  
letic club held meetings on Friday and  
Monday evenings. Friday's meeting  
was taken up principally with reports  
and an exchange of theories on methods  
of procedure and the successful main-  
tenance of the club.

The meeting was called to order by  
President Gilliam. After the reading of  
the minutes by Secretary Hynd, Phil  
Metschan, Jr., of the finance committee,  
submitted a verbal report. Mr. Mets-  
chan's report showed that only a small  
amount of the canvass for initiatory  
funds had been completed, resulting in  
the collection of \$145. The roll of mem-  
bership now contains 76 names, show-  
ing an increase since last meeting.

C. E. Notson, of the committee on  
constitution and by-laws, stated that  
the committee favored the adoption of  
constitution and by-laws now used by  
The Dalles association with a little mod-  
ification to suit the conditions here.

Mr. Metschan stated that he thought  
it would not be hard work to raise be-  
tween \$400 and \$500.

President Gilliam stated that it was  
his opinion that only a commercial club  
without any amusement features would  
tail as there would not be enough en-  
thusiasm to keep it up. He favored a  
big membership of young people with  
athletics, billiards and bowling which  
would bring in some revenue to help  
pay the running expenses.

Geo. Conser thought that the young  
people would be all right for a while,  
but would fail in time to keep up the  
dues.

E. L. Freeland was in favor of at first  
starting a strong commercial club and  
if there were money enough, then have  
amusements on the side.

Judge Ayers believed that this was  
the proper time to put the shoulders to  
the wheel and make the club a success.  
He was enthusiastic and his enthusiasm  
seemed to be absorbed by all present.  
He favored a high membership fee.

C. E. Woodson believed that the bur-  
den would fall upon the business men.

Dr. Winnard favored athletic features  
and thought that this would not conflict  
with the commercial part of it.

R. F. Hynd did not favor a stat that  
was too elaborate, but wanted to work  
up.

Geo. Conser moved that a committee  
of three be appointed to obtain estimates  
on a frame building, 40 by 80 with 16  
foot ceiling. The chair appointed on  
this committee, Geo. Conser, T. W.  
Ayers, R. F. Hynd. Several offers were  
made to take stock in a building.

Phil Metschan moved that the secre-  
tary be instructed to write to R. L. Sabin  
asking for the return of the balance of  
the flood relief fund which was turned  
back.

Another meeting was held Monday  
evening with a good attendance.

President Gilliam was in the chair.  
Owing to the sickness of Secretary Hynd,  
C. E. Woodson acted as secretary.

Geo. Conser and T. W. Ayers, of the  
building committee submitted plans for  
two buildings costing from \$850 to \$1350.

Judge Ayers was in favor of buying a  
suitable lot, and said that he was willing  
to put in \$500. He said that if the busi-  
ness men would invest their money this  
way it would create enough interest to  
keep it up.

S. E. Notson submitted a report on  
by-laws.  
Motion by Dr. Higgs to incorporate  
the club was carried.

Judge Ayers moved for a committee  
of three to be appointed to look after a  
lot for a building. The chair appointed  
Judge Ayers, R. F. Hynd, and George  
Conser on this committee.

### KILLED BY TRAIN.

Percy Johnson Struck by Freight  
Near Sprague.

The following is taken from the Spokes-  
man-Review, which gives the particu-  
lars of the tragic death of Percy Johnson  
who was killed by a freight train near  
Sprague, Wash., last Friday:

"Percy Johnson, a man evidently  
about 26 years of age, was struck and  
instantly killed by a Northern Pacific  
westbound freight train in a cut three  
miles east of Kline at 9:30 a. m. today.  
He was walking on the track going in  
the same direction as the train, and pre-  
sumably on account of the high wind  
blowing at the time did not hear the ap-  
proaching train, although the whistle  
was sounded just as the train entered  
the cut.

"Engineer McGovern said he did not  
see the man until just before the train  
struck him. The cut is on a sharp re-  
verse curve and it is not possible to see  
over a couple of car lengths ahead of the  
engine.

"The body was brought down on the  
train that killed Johnson and is now ly-  
ing at Fisher & Buchanan's undertaking  
rooms awaiting instructions from the  
parents at Heppner, Ore. Marshal Hall  
secured their address from letters found  
in the dead man's pocket and has tele-  
graphed them.

"An examination of the body showed  
that death was instantaneous, the neck  
being broken at the base of the skull.  
Johnson was evidently making his way  
home, as one of the letters found on him  
was from his brother, Harry E. Johnson,  
of Heppner, in which he mentioned  
sending him a money order for \$20 with  
which to pay his fare home."

Percy Lewis Johnson is the son of Mr.  
and Mrs. Henry Johnson, of this city,  
and was born in Heppner, Feb. 28, 1881.

As soon as the news was received here  
of the young man's death, Mr. Johnson  
immediately telegraphed for the remains  
to be shipped to Heppner for burial.  
Owing to a delay the remains did not  
arrive here until Tuesday evening.

The funeral was held from the M. E.  
church yesterday and the burial took  
place in the Heppner cemetery.

By proclamation issued October  
4, 2,000,000 acres have been added  
to the forest reserves of Montana.

E. Reding, who has been in busi-  
ness at Sprague, Wash., 23 years,  
will erect a \$20,000 hotel in that  
place.

Owing to scarcity of hands and  
machines much of the wheat  
around Reardon is unthreshed, and  
the recent rains have done great  
damage thereto.

The gross earnings of the Spoka-  
ne municipal water plant last year  
were \$222,000; the net earnings  
\$189,000. A municipal lighting  
plant is proposed, to be operated  
by water power.

Charles L. Campbell, of Spoka-  
ne, has the contract for extending  
the boundary lines and effecting  
the subdivision of the Yakima In-  
dian reservation. In other words,  
making the official and permanent  
survey.

## MEDALS FOR MORROW CO.

Seventy-Seven Gold and Silver  
Medals Awarded On Wool  
and Grain.
