SUGAR BEET PRODUCTION.

Bring yourself to comprehend by comparison, the magnitude of a single industry that promises to stow away into Uncle Sam's pockets \$150,000,000 a year more than is now swelling them almost to bursting—and this huge sum, too, going principally into the hands of farmers and farm laborers.

This amount would be more than enough to pay the nation's pension rolls and would nearly maintain the army and navy. At the average annual expenditure estimated by Josiah Strong in the North Atlantic States, it would support 213,068 families, of 1,022,726 persons—about the population of Boston and Baltimore.

What is this wonderful thing that promises so much? Sugar beet culture and the manufacture of the beet into the product that is demanded in every household.

Last year the United States imported 1,840,466 tons of sugar, valued at \$97,645,419. Upon this was paid a duty of \$51,171,283.18. At the present rate of growth of the beet sugar industry in this country, it will be possible to provide, soon not only all the sugar needed in America—2,632,216 tons were consumed last year—but probably to provide also a surplus for export.

The industry is advancing by leaps and bounds. Five years ago American beet sugar amounted to 9 per cent of the imports; this year it is expected to reach 28 per cent. of the imports. To the farmers alone this season's crop of sugar beets is expected to bring \$20,300,000; five years ago they received about \$8,500,000.

It is an industry that brings multiplied blessings in its train. Deserts are made to bloom as rose gardens and prosperous communities spring up like magic in beet-growing sections. Land values increase and enterprises flourish. A veritable magician of prosperity is this heretofore neglected product of the soil.—Journal.

And now, according to the Wheatfield, Lexington is the best town in Morrow county. Be careful Brother Thomas are you will be in the same ward with the lone Proclaimer.

Goat and sheep raisers of Polk county are learning that it pays better to raise the pure-bred than common animals, for the demand for Polk county Angoras, and Lincoln and Cotswold sheep now exceeds the supply. The Riddell and Stump sheep and goat farms, in particular, have national fame, especially since carrying away premiums at the St. Louis fair. Fancy prices have been received for much of the livestock shipped out of Polk lately. As much as \$100 is often obtained for a single "billy" goat, and as high as \$5 a pound has been realized for the mohair.

STEADY INCREASE.

Business at Heppner Postoffice Shows Decided Gain Over Last Year.

Business at the Heppner post office for the month of September, like the month of August shows a decided gain over the business for the same month of last year.

Money order business for September of this year amounts to \$2240. For the same month last year the business was \$1804.

Stamp sales for September this year were \$340 while for the corresponding month of last year the sales were \$205.

GET HEAVY SENTENCE.

Turk and Williams Must Serve Four Years in State Penitentiary.

Edward E. Turk and Charles D. Williams, self-confessed horse thieves, were sentenced to serve four years each in the state penitentiary by Judge Geo. E. Davis, Monday afternoon.

Deputy District Attorney J. E. Marks late last week filed an information against Turk and Williams and on Saturday both pled guilty.

The sentence is considered a heavy one, as heretofore about two years was the longest sentence given horse thieves sent up from this county. Judge Davis gave Turk and Williams a short lecture before passing sentence and stated that horse stealing was becoming altogether too common in Grant county and he would not at this time or hereafter be lenient with that class of offenders.

Both Turk and Williams resided in the north part of the county. Williams living on his ranch near Kilbridge and Turk on his ranch in Cottonwood creek a few miles from Hamilton. Turk has a wife and two children. Williams is single.

Williams was arrested at Pocatello, Idaho, while en route to Omaha with a carload of stolen horses and Turk was arrested near Susanville and after a sensational escape from the sheriff was again caught at La Grande. Turk was implicated with Williams in the shipment of the carload of horses overhauled at Pocatello.

Turk and Williams were taken to the penitentiary this week, Sheriff Ambrose leaving here with his prisoners Wednesday morning. Alva Dore, of John Day, and Harford Lyon, of this city, accompanied the sheriff as guards.—Blue Mountain Eagle.

Oregon Breaks Up.

Seattle, Wash., Sept. 29.—Word was received in Seattle late last night by the Northwestern Steamship Company that the steamer Oregon, which went on the rocks on Hinchinbrook Island, at the entrance of Prince William Sound, in Alaska, on the night of September 14, had broken up and sunk. Several portions of the upper works of the vessel floated to the surface, but were battered to pieces against the rocks by fierce storms that have been raging in the North for the past few days.

The Oregon ran on the rocks in a dense fog while seeking the entrance to the sound. The wrecked vessel has been on the Alaska run for many years and was known as the "Alaska Flyer," it making about six round trips a year to the North. The Oregon had a checkered career and was at one time said to be unsatisfactory. A cement hull was rigged up and the vessel once again was placed in commission.

Cures Woman's Weaknesses.

We refer to that boor to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW says of Unicorn root (*Helonias Divisa*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorant, it makes for normal activity of the entire reproductive system."

He continues: "In Helonias we have met with a plant fully possessed of the above purposes than any other drug with which I am acquainted."

In the treatment of disease peculiar to women it is seldom that a case is found where a greater proportion for this remedial agent. Dr. Fyfe further says:

"The following are among the leading indications for Helonias (Unicorn root)."

Pain or aching in the back, kidneys, ovaries, womb, and in the organs of the reproductive system.

Organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women; constant source of loss of weight, regular, but not necessarily hemorrhagic, bleeding, due to a weakened condition of the reproductive system; amenorrhea (suppressed by absent monthly periods), arising from or accompanying an enlarged uterus, presence of different organs and anomalies (thin blood) habit; dragging sensations in the extreme lower part of the body.

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias, and the medical properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of Favorite's Prescription, Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions."

Prof. John M. Studdard, M. D., late of Chicago, says: "Golden Seal root is in relation to its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic useful in all diseases."

Prof. R. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia, flooding and congestive dysmenorrhea."

Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

EQUALIZATION BOARD MEETING.

Only Three Complaints Entered During the Meeting of The Board.

The county board of equalization consisting of Judge T. W. Ayers, Clerk W. O. Hill and Assessor W. S. Conner finished its labors last Saturday.

There were three complaints registered during the meeting of the board.

Ed Day appeared before the board to see that no personal property was listed for the reason that he is now a non-resident. J. R. Simons and Mrs. Lichtenthal entered claims of excessive valuation on their property. Mr. Simons was allowed a reduction of \$100 on the valuation of his property while Mrs. Lichtenthal's was left as listed by the assessor.

A number of improvements were discovered that had been overlooked by the assessor and the added valuations were properly enrolled.

It was not found necessary to make a raise on any assessment.

At Marysville, Ky., James Chester Savage, aged 13, confessed that he deliberately shot his cousin, Wilim L. Savage. The boy said: "I love cousin, but I just wanted to shoot somebody, so I shot him."

SOON TO APPEAR.

George Gilbert Bancroft, The Famous Educator and Lecturer, needs no formal introduction to the American public. Hailing from the city by the Golden Gate, for fifteen consecutive seasons he has appeared upon the platform in all of the principal cities on the continent. By education both a lawyer and physician; by natural adaptation and preference an educator, lecturer and entertainer, Dr. Bancroft brings to the platform a wealth of practical and technical knowledge and experience such as few of his chosen profession possess. Studiously inclined from his youth, naturally of an investigative tendency along original lines, his mind at an early age became centered in the fascinating study of Human Nature. To hold the key to man's mind became his dream; "To know thyself" became his motto.

Having made a special study for years of insanity, criminology, sociology and original psychological research, he stands today one of America's greatest authorities in the study of insanity, normal and abnormal mentality, criminology, etc., his ability to see in man's face, form and actions a reflection of the mentality and predisposition within is not a speculative philosophy, but an exact and mathematical science.

Privileged by profession to travel extensively both at home and abroad, and being constantly alert for new material, he has accumulated an exhaustive array of valuable scientific facts, which he presents so pleasingly and startlingly from the public platform that to hear him once only insures that you will make strenuous efforts to hear him again. Not only has he acquired fame as a versatile and logical platform reasoner and instructor, but he brings to his aid a spontaneous, blunt, eccentric humor that is well nigh irresistible. From hilarious laughter to sympathetic tears has become his consummate art.

Dr. Bancroft is an inspirational speaker, steering clear of the set and oily platitudes of the average platform orator he thus avoids tiring his hearers.

His reasoning is exact and profound, his logic perfect, his language is terse and blunt, yet fluent and fascinating; his wit and humor startling, original and laugh-producing; his imitations eccentric and true to life, and his instruction is priceless;

he leaves you with a practical and new jewel that you may treasure for all time in your eternal storehouse of memory, not made by hands—the human mind.

Dr. Bancroft is able assisted each evening by the charming Vocalist and Impersonator, D. Lillian Lewis, in a brilliant and versatile repertoire of vocal and literary gems. Miss Lewis is no novice in the art of platform entertainment. Endowed by nature with an artistic temperament, a sweet voice and a pleasing personality, she has under the constant guidance and suggestion of some of the best artists gradually advanced to the enviable position which she holds today—The peer of the best.

Opera House, Heppner, one week beginning Monday, October 8.
