#### Oregon Apples in China.

Tsingtau, China.

American apples, especially those of crease over here. Oregon, are invorably known here. Some dea'ers in Shangahai make regular business of i.aporting them, and a Tsingtau firm has a standing order with the Shanghai house. The apples are by far the best that come to this country; they sell well, and their keeping qualities leave nothing to be desired. Aside from oranges, lemons, and apples it is hardly probable that any other fruit could be sent across the Pacific and find a ready market, but if exporters would make connec ions with Shanghai jobbers or commission men it is absolutely certain that a large and growing trade could be worked up.

All of the American tinned fruits are to be found here and command a ready sale The two largest hotels in Tsingtau each have a course of California fruit every noon and evening which is undoubte ly the most popular number on the bill of fare. Peaches, pears and fall apples grow well locally and are shipped extensively to other parts of Chins, but there are no canneries, and fau ilies do not seem to preserve fruit to the extent they do in America. The result is that a great deal of the American goods are used; everybody knows them, and they are universally admitted to be the best to be had. Prices are

### ON THE FARM.

HOW NATURE PROVIDES FOR US.

The most independent man on earth is the farmer, for he makes the earth yield him almost everything needed for life. He knows that as he sows so will he reap. He usually keeps strong and healthy from constant strife with Nature -in sunshine and in pure air. At night when work is done, he finds most refreshing sleep, such as only a tired man knows. In the same way that the earth yields food for man, so does it provide remedies for human ills. Thousands of households throughout the farming districts of the United States know the value of Dr. Pierce's Golden Medical Discovery. It is Nature's most valuable and health-giving agent-made without the use of alcohol. It contains native medicinal roots, and is the concentration of Nature's vitality as found in the American forests. This remedy has a history which speaks well for it because it was given to the public by Dr. R. V. Pierce, founder of the Invalids' Hotel and Surgncal Institute, at Buffalo, N. Y., nearly | this. forty years ago, and has since been sold by druggists in ever increasing quan-

Dr. Pierce found that the bark of the Black Cherry-tree, the root of the Mandrake, Stone root, Queen's root, Bloodroot and Golden Seal root, made into a scientific, non-alcoholic extract by the use of glycerine, made the best alterative and tonic. The refreshing influence of this extract is at once apparant in the recovered strength of the patient-the vital fires of the body burn brighter and their increased activity consumes the tissue rubbish which otherwise may poison the system. This alterative and tonic extract has been found to stand alone as a safe, invigorating tonic, as it does not depend on alcohol for a false stimulation, but is Nature's own method of strengthening and cleansing the system. It tones up the stomach and purifies the blood in Nature's own way. It is well known all over the world as Dr. Pierce's Golden Medical Discovery. The name was given to this vegetable compound because one of the important ingredients was Golden Seal root. \* \* Such an authority as Dr. Roberts Bartholow, of Jefferson Medical College, says of Golden Seal root, "very useful as a stomachic tonic. Cures catarrh of the stomach and headaches accompanying the same." Dr. Grover Coe, in his book Organic Medicines, speaking of Golden Seal root, says that "as a liver invigorator it has few equals." Further he says, "in chronic inflammation of the bladder we deem it one of the most reliable agents of cure. As a fiammation of the bladder we deem it one of the most reliable agents of cure. As a tonic in the convalescing stages of fevers, pneumonia, dysentery and other acute diseases Hydrastis (Golden Seal root) is peculiarly appropriate."

Dr. Coe continues: "We would here add that our experience has demonstarted the Hydrastis or Golden Seal root to be a valuable remedy in bronchitis, laryngitis, and other affections of the respiratory organs."

respiratory organs." Prof. Hobart A. Hare, M. D., University

of Pennsylvania, says of Golden Seal:
"Of service in chronic catarrh of the
stomach and bowels following abuse of
alcohol, a tonic after malarial fever. Has a distinct, anti-malarial influence, Good in all catarrhal conditions, as uterine catarrh, leucorrhea, etc. Is a curative agent in chronic dyspepsia."

Prof. John M. Scudder in Specific Medication says of Golden Seal: "It stimulates the digestive processes, and increases the assimilation of food. By these means the blood is enriched, and this blood feeds the investigate system. the muscular system. I mention the muscular system because I believe it first feels the increased power imparted by the stimulation of increased nutri-The consequent improvement on the nervous and glandular systems are

natural results.
"In relation to its general effects on the system, there is no medicine in use about which there is such general unan-imity of opinion. It is universally re-

garded as the tonic useful in all de-bilitiated states."

Dr. Pierce's Favorite Prescription spe-cially put up for woman's ills—for those distressing—dragging down ailments— peculiar to women—is also a temperance remedy that is best known by its cures. With Dr. Pierce's medicines, their ingredients are matters of public knowledge, being printed on each separate bottle wrapper. Thus invalid sufferers are taken into Dr. Pierce's full confidence. Dr. Pierce's great thousand-page illustrated Common Sense Medicai Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps, Address Dr. R.V. Pierce, Buffalo, N. Y.

somewhat lower than those in America, where the cost of tinned fruit has gone By Vice-Council Ernest Vollmer, up a great deal within the last two years, seemingly without a corresponding in-

Though such a satisfactory statement can be made regarding our tinned fruit. just the reverse has to be said of our jams, jellies and preserves. It may be the goods in any quantity over here, the cost being perhaps too high, but they are certainly not on the market. Practically everybody eats something of this sort for breakfast, and great quantities of current, blackberry, strawberry, orange marmolade, and other p eserves are thus consumed. One might supose that with the size this industry has reached in the United States it would be reasonable to expect at least some American goods, but everything is Fnglish, with occasionally some German goods. If we could succeed in diverting this trade we would gain a market with a grert buying capacity and one which is certainly worth capturing.

When it comes to dried fruits, the American product again makes a better showing, but one which could be easily improved upon. Prunes, apricots, peaches, pears and other orchard fruits are found, but they do not hold the dominating position which their quality should insure them.

Milton has bright prospects for secur ing spring water for municipal purposes Some months ago the city purchas, d he Bowman springs, a few miles above Milton. The water will flow through an 18 inch pipe, which is now being laid by a force of 20 men. About \$3,500 hr g already been expended.
