about two minutes, then pass the and sweet. back of the stirring dipper over the surface of the milk to stop any move ment. While the curdling is taking place it is important that there be no jarring of the milk, otherwise the coagulation will not be so per fect. Some makers prefer to use two rennet tablets, thereby saving time in the making, and the resulting cheese will also cure quicker.

and if one tablet is used the curd should be ready to cut in twenty to thirty minutes. To tell when the curd is firm enough to cut, push the forefinger into the milk, bend the finger to a 45-degree angle, and raise it gently. If the curd breaks clean across the finger it is ready to cut. The cutting can be done with a wire toaster, a piece of sufficiently coarse wire netting, or even with a long knife. First cut slowly lengthwise, then crosswise until the curd is in nearly uniform pieces of about a cial factor. In Toronto, Canada, there half-inch cube. If two tablets are are 10,000 tons of waste paper col- used the milk should be ready for received about \$100,000. For just the the evenings milk used should be ordinary waste paper the sum of \$16 pretty close to the souring point when a ton is paid. But for the better the morning's milk is added, the grade of waste papers the price has curdling will take place somewhat been known to run as high as \$40 a more quickly, but the quality of the cheese is liable to suffer. The faccheese-maker uses an accurate test to determine the condition of the milk as to its approach to sourness, but this is hardly practical for the ordinary farm cheese-maker.

Cooking-This is rather a mislead ing term since the temperature reached is only about 100 degrees. but the term is in common use among the factory makers, hence is used here. After cutting leave the curd vast audience that had gathered in alone for five minutes, then raise the the district schoolhouse, waiting a temperature slowly, about 2 degrees in five minutes, to 98 to 100 degrees by the use of the heating can, stirring spellbound listeners. gently all the time while heating. Then cover with a cloth and keep the temperature about 98 degrees for about forty minutes, or until the curd is sufficiently "cooked," stirring occa-sionally to prevent the curd from an Marthy Baker, our next authorsticking together. If the temperature ess in order, hed to stay away tonight, falls too low the heating can will much to her vexation, becuz her pap's have to be used again. Another way got the roomertis." of heating the curd is to draw off a part of the whey, heat it to 130 to 140 degrees and pour it back. It is important that no particle of curd gets into the whey that is being beated. To determine when the curd is ready, take a handful and squeeze of a round of Malaga grapes which it hard in the hand for a moment; if of a pound of Malaga grapes, which it feels elastic and does not stick to have been skinned and seeded, springether it has been cooked enough, kle liberally with sugar and chill If the milk was good the curd should thoroughly. Serve in the grapefruit Eleventh streets, where the elevation

draw off the whey. If a tub is used (Prof. F. L. Kent, Oregon Agricultural this can be done by letting the whey out through a hole in the bottom, or The purpose of this article is to all the curd can be dipped out with a Salting - After the curd is well

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help.

That few of these women have been disappointed in their expectations is proved by the fact that piects with pectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a- million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of

and entities Dr. Pierce to the gratitude accorded him by women, as the life of specialists in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as without fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Prest., out fee, to Worl Buffalo, N. Y.
