D. E. Gilman this week closed the deal mentioned in last issue, whereby he transfers to D. S. Barlow a tract of land consisting of 630 acres and lying on Rhea creek just above the Henry Gay place. This is creek bottom and hill land, lying on both sides of the creek. Mr. Barlow will immediately begin the construction of a dwelling on the place and move there. He will improve the property with a view to diversified farming, and in a few years will have one of the best creek farms in the county. This land is suitable for fruit raising, gardening, hog raising, dairying and general diversified purposes. We hope to hear of many more like deals, as the era of diversified farming is beginning to dawn upon the county, and this Rhea creek section is one of the very best. It is the opinion of this paper that ere long there will be some of the very finest orchards along this creek that can be found anywhere. In fact the Hood River section is not ahead of it when it is developed up to the stage that it can be.

F. M. Griffin and Jake Bortzer, of the Ione section, were in Heppner on Monday looking after business matters. Jake has about 850 acres of prime summer fallow in shape to be sown, and is now on a rustle to get seed wheat. He, in common with quite a number of other farmers of the county, failed to raise anything the past season, and is without wheat necessary to seed his ground. Some action should be taken to help out such worthy people, and more especially so when the prospect is such that they will reap an abundant harvest the coming season. Jake is only one of quite a number who are badly in need of help, and there should be some one ready to play the part of the "Good Samaritan."

A special trip was made to the Junction by the branch line train on Sunday to bring home the greater portion of the Morrow county visitors to the District Fair and Round-up. There were a few, however, that were unable to make it home on Sunday, and these came in on Monday evening. What little good money they had was for the most part left with the people of our sister city. All report a good time, even if it did come a little high.

The Eastern Oregon Medical Association met at Pendleton the past week and was largely attended by the physicians from all over this section of the state. A common team and buggy was to slow, so Al has joined the ranks of the progressives and may be expected to exceed the speed limit in the future. His car is a good one and was purchased at a bargain.
