The Resurrection Coming-

[S. F. Examiner.] as our Radical friends assert, we marls. think that figures, which never lie, prove its resurrection to be near at hand, in fact no farther off than a brief ten months. An analysis of the popular vote at the Congressional elections of last fall shows an opposition majority of less than the negro vote. We apprehend this majority can be overcome be-

year strew the forests. Notwithstanding the incredulous air assumed by our Radical cotemporaries, the health and hopefulness of the Democracy is cause can alone be preserved through the of alarm to such of them as are cultivation of clover and the grasnot grossly ignorant of the true state of the popular feeling. The or by the application of composts great gains we have made in the Lower House of Congress are the prospect of success been so brilliant as now. This is not buncombe nor bravado; it is a simple statement of the truth that officially collated statistics demonstrate. In the face of such facts are we called upon to surrender our principles drained. and go forth to battle under the leadership of the inventors of the harvested several days before the "Passive Policy." In the midst of depression and gloom, when not a ray of sunshine gleamed athwart the clouded sky, when defeat was certain, and the personal liberty and even the lives of our advoeates were imperiled, we held our field, and though often vanquished, never for a moment did we shrink from a renewal of the contest, nor abandon a single article of our faith. Shall we now, when the tide of battle is turning in our favorwhen victory is within our reach -haul down our standard, ray aside our principles, smother our convictions, that a few disaffected Radicals may use us solely as instruments, by whose means they may gain the ascendancy over their late chief? We think the great Democratic heart pulsates with us, labor away. when we say it would be wrong and unwise to do so. We doubt not the sincerity of Senators Schurz, Trumbull, Tipton and others, when they denounce Grant and his corruptions, and declare their determination to oppose him. He will, certainly, be renominated in spite of them. Whither, then, will these men go? If they, in the face of their record, silently submit to his nomination, they will have lost the respect of all their conscientious supporters in their own party. They cannot form a new party of sufficient magnitude to ensure their success. Obviously, then, they must, if they are sincere and earnest patriots, join the Democratic ranks. We have nearly three millions of voters, the disaffected Republicans—those who will not support Grant-may be safely estimated at a minimum of three hundred thousand. We cannot afford to go to them-they must come to us. Since the mountain won't go

to Mahomet, Mahomet must come to the mountain. There is not a single issue to be presented on the part of the Democratic party next fall that may not be supported and fought for by the Conservative element of the Republican party, and we have no doubt the honest rank and file his first love, they will not follow, party, they will not consent to a in while warm. For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma,

Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually

control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Thront and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs vield to its power; and cases of Consump-tion, cured by this preparation, are public-ly known, so remarkable as hardly to be believed, were they not proven beyond dispute... As a remedy it is adequate, on which the publicmay rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and con-vinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections. which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and pain-

ful Bronchitis, when they know how easily Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

Ayer's Hair Vigor For restoring to Gray Hair its

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. It soon restores faded or gray hair

to its original color, with the gloss and freshness of youth. Thin hair is thickened, falling hair checked. and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy

bustre, and a grateful perfume. Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, LOWELL, MASS. mith & Dais er an , Wholesa

SATAN IN SOCIETY. DY AN EMINENT PHYSICIAN AND D Professor in one of our large Medical Colleges. It deals fearlessly, but chastely with evils from which spring physical and moral degradation, and dovestic felicity. It is being reviewed-praised and criticised, by all the leading religious and secular papers and magazines in the U.S., and the ver, dict of the nest and most discriminating isthat it is a remarkable Book; that it is timeby: that it is needed; that it will make its, mark, and do good. It is of vital importance to every man and woman in the land, and is having a wonder-
