## THE ENTERPRISE.

OREGON CITY, OREGON, JAN. 30, 1874.

COMING .- Mr. E. D. Kelly of this city, has received information form his their old home and are now on their way to Oregon, to take up their future residence. Mr. Kelly was very highly esteemed where he has resided for many years, as may be judged from the following item which we copy from the Fenton (Michigan) Gazette: "Mr. C arles Kelly and wife left Fenton y sterday morning for Denvor, Colora-do Territory. Mr. K. has been an old settler of Fenton, having resided in this township since October, 1844. Really one of the early pioneers of this section, he has been an active participant politically and otherwise in every movement that has tended toward the development and improvment of this section, always taking a lively interest in the rapid advancement and progress of Michigan, and serving in many positions of responsibility; acting for a number of years as Justice of the give a reception party at her residence Peace, and in other official and responsible positions, always discharging the trusts reposed in him to the general satisfaction of all concerned. He leaves many warm personal friends outside of the organizations by which he is held in distinguished consideration, who, in view of his removal, have presented him with valued testimonials of their regard, which he takes with him to the land of promise—the Jordan of the West, as treasured momentoes of the We shall miss him in this community. May the 'winds be tempered' to them as the lamp of life flickers as they pass down the grade.

WANTS INFORMATION .- Postmaster Bacon received the following letter last Saturday, and as he has no information concerning the "person or persons," handed it over to us. MUST CUT DOWN THE TARIFF. -- An exchange has the following sensible remarks of the increase of taxation. It says: "The people should remember that, under no possible revenue exigency of the United States is it necessary to impose a tax upon tea or coffee, or an additional one upon whisky and tobaceo. If we must have more money under the tariff, all that is necessary to raise it is to re duce the tariff on iron, cotton, and woolen manufatures about one-half. That would increase four-fold the revenue upon these articles, which are now, on account of a protective duty, hardly imported. We would ted (or authenticated copy thereof) not only raise a great deal more for sinking condition. The Gov. Grover the Government, but we would escame along and aided her in removing | cape the imposition of immense taxes the freight, and by an energetic use of for the benefit simply, of the domestic manufacturers. In both events it would be a great saving. To raise cut down the tariff and not increase repaired the same day and made her regular trip up the river next

IT MAY COME. - A Washington dispatch of the 22d gives us reason to hope that the whole rascality in the Louisiana affair may yet come to light, from the fact that the thieves are about to fall out among themselves. The dispatch says:

"It is reported that Senator Morton's action in reference to Pinch eck's seat in the Senate was based open a confession of Pinchbeck himself of questionable practices insuring his election by the Louisiana Legislature. Damaging reports about the election having reached Morton, he sent for Pinchbeck, who Sabbath in each menth; Cavanaugh | made a clean breast, whereupon Mor Chapel, this d Saturday and Sabbath in | ton abandoned the policy of seating each month; Powell's Valley, fourth | Pinchbeck on a prima facie case, and asked that the matter be carried to the Committee on Privileges and Elections to investigate the conducof Pinchbeck. The latter is said to garding the operations of Louisian: politicians. The reason of his course is said to be his exclusion from the benefits and privileges of the Kellogg

How THEY REFORM .- At the last election in New York, the "Reform" would reform the City government. Have they kept their pleage with the people, may be judged by the figures given in the Mayor's message. \$9,000,000. The amount of bonds issued by the present Controller for various purposes, is \$42,000,000; expenditures in maintaining the Govexecuted for a number of our citizens ernment in 1871, \$26,000,000; in 1872 amply testifies. His studio is in the \$31,000,000; in 1873, \$32,000,000. This kind of reform is rather discour-

PROBABLE CANDIDATES .- Either Coll. Van Cleve, of the Albany Register, or Wm. B. Carter, of the Corvallis Gazette, will probably get the nomination for State Printer on the Custom House ticket. They have day. From what we saw in the Orego- both been kept in the traces with nian, we should judge that he was on a | the promise of this "fat take," but | political mission. Rev. G. Chandler, of as there is but one to nominate, one or the other will be disappointed. There are others who have been STILL THEY COME.—We are informed | promised the nomination by the Custom House, so that it is pretty evident somebody will have to take a back seat.

Ir WILL OUT .- It has been given out semi-officially that Congressman Nesmith will not be a candidate bename will be before the Convention, and that his forces are working all over the State to secure his renomination. If the people want him well and good, but those who are opposed to his renomination should be careful not to send men to the State Convention who will support him.

OUR Radical friends appear to be very busy at present making up the Democratic ticket for next June. It is unnecessary for them to trouble themselves about this little matter.

SOME OF THE CHARGES .- The PIMPLES ERUPTIONS ROUGH SKIN Washington correspondent of the New York Sun, makes the following damaging charges against Geo. H.

January 27, 1872, Attorney General Williams took \$1,600 from the contingent fund of the department to pay for a landaulet for his wife; and to draw this landaulet. In July, also, he purchased a pair of stitched and had it varnished and put other expenses upon it amounting in all to \$211.13. In November and in December the same carriage was repaired again at the cost of the Department of Justice, out of whose contingent fund \$800 was taken for these repairs. It is also alleged that the same Attorney General has bought with \$500 from the money of the contingent fund, but for his private house, one sidewall glass and one base table with white marble top. Moreover, George Wilkenson is carried on the rolls of the Department month, and Charles W. Lee as a messenger at \$60 per month, both of them being domestic servants of the Attorney General, and performing no service whatever for the Depart-

An agreed case was lately made up, E. Semple, State Printer, vs. L. F. Grover Governor of Oregon, in the nature of a mandamus, by which E-Semple, as State Printer, claimed the printing of the newly codified laws of Oregon, despite the terms of the act of last session, which provided that the Governor should advertise for bids to do the work, and let the contract to the lowest reponsible bidder. Semple claims that the law prescribes that all public printing shall be done at the State Capital, and that, as a consequence, so much of Wood's Botanist and Florist..... the law providing for the recodifica tion of the laws as relates to letting by contract is void. Judge Bonham to whom the case was submitted, decided at Chambers on the 26th inst. to the possession of the manuscripof such compiled laws, for the purpose of printing the same as required by the Constitution of this State.

WHEN you hear a man say that this or that person has a clique which must be broken up, and the person more money the Government must is a candidate for position, you can safely calculate that that man wants a clique organized to foist him into office, and also that he is not the most popular man in the community.

> VACATED. - The Ra lical officials of Texas, who attempted to hold their offices against 45,000 majority, hoping to get aid in their usurpation from Grant, as Kellogg of Louisiana did, have given up their positions and Governor Cooke and the rest of the Democratic State officers have been naugurated, and peace and quiet reigns supreme in the "Lone Star."

> Expensive.—The last Legislature, which was thoroughly Radical, made appropriations to the amount of 3755,497, besides dividing up all the swamp land in the State in jobs. That is the kind of economy the people get when they elect Radicals to the Legislature.

> THE New York Herald is of the pinion that unless the parties interested in the Geneva award keep a lookout for it, Congress, will use it up in jobs before it gets to them.

THE Bulletin is considerably exereised as to the probable candidates on the Democratic ticket. We would idvise that sheet to look after its own ousehold.

The papers throughout the couny are warning people not to purchase packages of goods from cerain peddlers, as both themselves and their goods are swindles.

Two Focs of Health. Cold and damp are inimical to health, and we generally have an unwholesome combination of the two at this season. They penetrate the skin and integuments and affect the muscular, glandular and nervous organizations, producing rheumatism, neuralgia, chills and fever, and where there is a tendency to dyspepsia or liver complaint, provoking an attack of indiges on or billiousness. The best advice that can be given under such circumstances is to keep the external surface of the body warmly clothed, and to keep the interna organs in vigorous working order with the most wholesome and genial of all tonics, Hostetter's Stomach Bitters. Gradually but constantly this famous invigorant is superseding the adulterated liquors of com-merce, as a medicinal stimulant and cormerce, as a medicinal stimulant and cor-rective, in all parts of the country. It will be a happy day for humanity, and it will surely come, when this pure restorative shall have taken the place of raw spirits as a stimulant in all our public and private hospi tals. It is not, however, merely a harmless substitute for the fiery stimulants referred to. Its stimulating properties are not its chief merits, although in this regard it surpasses all the unmedicated products it surpasses all the unmedicated products of the still, domestic or imported. The powerful influence it exercises over the torpid and toneless stomach, the disordered liver, the constipated bowels, and the reliver, the constituted bowers, and the leaved nerves, render it a positive specific in dyspepsia, liver complaint, intestinal constriction, nervous weakness, hypocondria, rheumatism and sleeplessness. All chronic rheumatism and sleeplessness. All chronic complaints are aggravated by a cold, moist atmosphere, and it is therefore particularly necessary for those who are afflicted with allments of this nature, whatever their type may be, to meet this predisposing cause of sickness with a wholesome antiiote. Hostetter's Bitters should be taken daily at this season by all persons laboring under chronic ailments that tend to weaken the system.

Used Externally, It Cures Boils, Felons, Cuts, Bruises, Burns, Scalds,

Old Sores, Sprains, Toothache, Pain in the Face, Neuralgia, Rheumatism, Frosted Feet, &c., &c., &c' PAIN-KILLER, after a thorough trial by innumerable l ing witnesses, has proved itself THE ME-DICINE OF THE AGE. It is an internal and external remedy. One positive proof of its efficacy is, that its sales have con-

stantly increased, and wholly upon its own merits. The effect of the Pain-Killer upon the patient when taken internally,in case of Cold, Cough, Bowel Complaint, Cholera, Dysentery, and other afflictions of the system, has been truly wonderful, and has won for it a name among medical preparations that can never be torgotten. Its success in removing pain, as an external Sprains, Cuts, Stings of Insects, and other causes of suffering, has secured for it such testimony, as an intallible remedy, that it will be handed down to posterity as one of the greatest medical discoveries of the

teenth century. The Pain-Killer derives much of its popularity from the simplicity attending its use, which gives it a peculiar value in a family. The various diseases which may be reached by it, and in their incipient stages eradicated, are among those which are peculiarly fatal if suffered to run; but the curative magic of this preparation at once disarms them of their terrors. In all respects it fulfills the onditions of a popular medicine.
