

**Heat Pump Store** — The Heat Pump Store specializes in the sales and installation of ductless heating and air conditioning systems. Ductless Heat Pumps are all we do and we do them right — the right equipment, the right applications and the right people. Since 2006, we have grown to serve the Willamette Valley, the Oregon coast and other regional areas. Local utility rebates and tax credits combined with reduced energy consumption make ductless heating and air conditioning systems the smartest choice for home comfort. Let our expert Ductless Applications Specialists introduce you to this efficient and innovative HVAC technology.

**Jamberry** — Jamberry Nails are nail wraps applied with heat and pressure. They can last up to two weeks on hands and four weeks on your toes. Jamberrys are made in America with no harsh chemicals and are latex free. Get your own personal nail design and say goodbye to nail polish. Stop by our booth at the Green Fair and give Jamberry a try.

**Oregon Beverage Recycling Cooperative** — What's worth five cents, but makes more change than you can count? Returning your bottles and cans. Oregon's bottle bill means a

clean environment, Oregon jobs and new products from recycled containers. And that's just the beginning. Oregon Beverage Recycling Cooperative acts on behalf of beverage distributors to administer Oregon's bottle bill. It collects and recycles 1.2 billion containers each year. The entire process is funded and managed by the beverage and grocery industries — at no cost to taxpayers.

**Oregon State Parks** — We know that everyone loves to visit Oregon's beautiful parks. We want to show you how to have fun and help us keep our parks green and beautiful for years to come. Park Rangers will be at the fair all day teaching fun tips and tricks to make your next park visit a blast. Kids, look for a special appearance from JR Beaver, Oregon State Park's mascot, from noon to 1 p.m. Families, stop by our booth and learn about the Oregon State Park's "Let's Go" program, where your family can spend a weekend learning the basics of camping from our team of expert campers and enjoy one of Oregon's many amazing state parks.

**Pampered Chef** — Our booth at the Green Fair will have a variety of products for healthy living. There will be natural bamboo fiber prod-

ucts, cooking tools for home cooking, reusable storage and other earth-friendly kitchen items.

**Protect Florence Aquifer** — Stop by Protect Florence Aquifer to learn about the fragile nature of the North Florence Dunal Aquifer, drinking water source for both City of Florence and Heceta Water PUD customers. It is the only sole source aquifer in the state of Oregon. The aquifer is currently in danger from a variety of sources including an 80-acre forestry project within the aquifer involving large applications of herbicides. The spraying began in 2013 and continues for at least four more years. We have the right to pure, safe drinking water and need to work together to help protect it. Our community's health and economic vitality is at stake.

**Real Food Co-op** is a member-owned co-op open to the public. Our mission is to provide healthy and nutritious food, emphasizing locally and sustainably grown products at a reasonable cost. We provide bulk items, such as nuts, seeds, dried fruit, beans, grains, flours, vinegars and oils. We proudly support local farms that produce chemical-free meats, and we don't support any products containing GMOs.

## At Central Lincoln, every day is Earth Day!

We are proud to provide our customers with 96% carbon-free electricity-- one of the highest rates of clean energy in the world. Clean electricity helps keep Oregon's air clean.

We support renewable energy--we offer rebates for solar hot water heaters, solar panel systems, small wind, and micro hydropower projects. (See [clpud.org](http://clpud.org) for more details)

We are excited to have helped our customers save more than 93 million kilowatt hours, thanks to our incentives for energy-efficient weatherization, appliances, water heaters, showerheads, lighting, heat pumps, duct sealing, and new manufactured homes (Call 888-883-9879 for more details)

**For some simple ways to save on your electricity bill,  
please go to [clpud.org](http://clpud.org)**
