## New shop joins antique district

DAVE MASKO PHOTO  
Marvels by the Sea owners Bernie Hill and Lois Bass

Oregon coastal treasures reside at the newly opened "Marvels by the Sea," which is home to distinctive fine and decorative regional art creations.

Owners Bernie Hill and Lois Bass offer carefully selected collectable prints, ornaments and fine glassware in the heart of the Florence Antique District (FAD) along Highway 101 in downtown Florence.

"We are happy to be a part of the proud heritage of FAD as a top local antique district along the Oregon coast," said Hill.

Hill and Bass have worked together to assemble an eclectic mix of more than a dozen vendors who display some of the top collectibles at reasonable prices.

"There is always that hidden treasure available when you visit this shop," said Bass.

For more information about Marvels by the Sea or the Florence Antique District, Marvels by the Sea at 541-997-1267 or email [marvelmsea@gmail.com](mailto:marvelmsea@gmail.com).

Marvels by the Sea is located at 575 Highway 101 Unit B in the heart of the Florence Antique District.

The shop is open seven days a week.

## Proposals sought for Siuslaw Watershed restoration

CORVALLIS — Cascade Pacific Resource Conservation and Development (CPRCD) is accepting pre-application proposals for watershed restoration projects in the areas represented by the Alsea, Hebo, Marys Peak and Siuslaw stewardship groups.

Approximately \$400,000 is available for projects that improve or restore fish and wildlife habitat on private and other non-federal lands where there is a demonstrated benefit to national forest lands.

CPRCD, working in con-

junction with the Siuslaw National Forest and the four partner stewardship groups, will help to administer the process of project application, technical review, prioritization and final award of funds to approved project proposals.

Funding requests generally should not exceed \$100,000. It is recommended that projects be scalable. A 25-percent match in funding or in-kind contributions is recommended.

Pre-application proposals are due Aug. 3.

The Siuslaw Collaborative

Watershed Restoration Program was developed after the Wyden Amendment authorized that retained receipts from stewardship timber sales may be used on nearby lands that benefit resources within watersheds of the Siuslaw National Forest.

"The Collaborative Watershed Restoration Program (CWRP) allows the Forest Service and its partners and neighbors to consider the whole landscape when planning restoration efforts," said Kirk Shimeall, CPRCD execu-

tive director. "It's a valuable and effective collaborative program that we're pleased to host and administer."

All required forms, including the pre-application, timeline, stewardship group area maps, final application and more are available online at [www.cascadepacifcstewardship.org/multilist\\_1/documents-forms/documents-forms](http://www.cascadepacifcstewardship.org/multilist_1/documents-forms/documents-forms).

For more information, contact Connie Barnes at 541248-3094, or email her at [connie@cascadepacifc.org](mailto:connie@cascadepacifc.org).

## Relay for Life team signups continuing

The American Cancer Society's Relay For Life of Florence event be held Saturday, Aug. 8, from noon to midnight at Miller Park.

Teams and individuals can sign up for the Relay event by visiting [www.relayforlife.org/FlorenceOR](http://www.relayforlife.org/FlorenceOR).

Relay For Life is a community-based event where teams and individuals set up campsites at a school, park or fair-ground and take turns walking or running around a track. Each team has at least one participant on the track at all times.

Cancer survivors and caregivers take a celebratory first

lap to start each event. Funds raised through Relay For Life have a major impact on the fight to end cancer through American Cancer Society efforts such as:

- Helping to save 500 lives a day that would have otherwise been lost to the disease.
- Finding cancer's causes and cures through groundbreaking research like targeted therapies and personalized medicine that tailor treatments to the unique characteristics of each patient.
- Finding new ways to prevent cancer and detect it at its earliest, most treatable stages.
