DR. W. D. BAKER DEAD

One of Astoria's Prominent Citizens Close to His Long Rest.
The community was shocked yesterday afternoon to learn of the death at St. Mary's hospital at 239 a clock of Dr. W. D. Baker, for so long a prominent figure in Clatsop county. His intimate friends knew that he was very sick and to them the end was not unexpected. Disease of the liver was the immediate cause of death.
Dr. W. D. Baker was born June 21, 1841, in Yamhill county, Oregon, and received his education at McMinnville college in that county.
At school he exhibited great aptitude in his studies and showed a talent for public speaking which he had chosen for a specialty, would probably have given him distinction for life.
During the civil war he enlisted as a private in the First regiment, Oregon volunteers, but was unable to see the physical examination required by the government and reluctantly returned to his studies.
He began the study of medicine when 19 years old and at his graduation ranked second in his class. He served as a medical assistant in the United States army for several years at various posts in Alaska, Washington, Idaho, and finally settled at Astoria, where he practiced his profession many years before his death. At Astoria he was health officer of the city and a member of the city council and while not a seeker for office he took an active interest in political affairs, lobbying with honest zeal for the principles of the republican party, with which party he allied himself in his earliest manhood.
When a young man he became a member of the Christian church at McMinnville, a relationship which he never relinquished.
Dr. Baker was an honest, high-minded gentleman, strong in his convictions, independent in his judgment, having hypotheses and wrong with his very soul. It was natural that he should throw all his energy and force into any cause which he espoused. He was a frank and fearless defender of what he believed to be right, ready to battle for his opinions, but tolerant to those of others.
His affections for his friends was a prominent trait in his character, and with him a friendship once formed was a part of his life.
The community will miss an honorable and useful citizen, his friends will miss a loyal and faithful friend, and his surviving relatives will mourn for one who was ever an affectionate son and brother.
The remains were taken to Portland yesterday for interment at McMinnville, the family home.
Dr. Baker leaves to mourn his mother, two brothers, G. L. and M. A. Baker, and a sister, Mrs. Liz Boyd of Portland. Mr. G. L. Baker and wife and Mrs. M. A. Baker arrived from McMinnville several days ago, and Mrs. Boyd came down Thursday to attend upon the doctor in his illness.

TANDEM AT SEA

A strange sight occurred on the waterfront yesterday afternoon, when the big steamer Elfin Thompson started off for the far away Yukon river, having on board the two handsome stern wheel steamers Stagbound and Gimecock, while her decks were loaded with two other peculiar craft already described.
The Stagbound and Gimecock arrived down from Portland where they were built, yesterday in tow of the Harvest Queen. Both steamers are handsome boats, the best of their kind and fitted with every modern convenience. They have a large carrying capacity on a very light draft. Staunch and well protected, it was the opinion of old sea captains yesterday that they would make the long voyage in perfect safety. The fleet put to sea in single file, tandem fashion just as the sun was setting.
Another incident on the waterfront to attract attention was the sailing of the big raft of lumber from the Inman-Paulson mill for San Francisco. The raft is 32 feet long, 25 feet wide, 27 feet in depth, with a draft of 10 feet. It contains 2,200,000 feet of lumber.
All day yesterday, until the hour of his departure, a huge crowd of people congregated about the Pacific Coast Metal Company's dock viewing with a great deal of curiosity the huge lumber raft. There were many predictions as to the likelihood of the tug being able to take their tow safely to San Francisco, though those who are familiar with current in water craft say she will go through all right. If she does, there will be a number of disappointed ranchers reeling along beaches between the Columbia and the Nehalem.
The news was received late last evening that the Elfin Thompson, towing the Stagbound and Gimecock, bound for the Yukon, and the big raft of lumber for San Francisco, passed out to sea about 6:30 p. m. The sea was smooth and everything was favorable to successful voyages.

Probably the oldest sailing craft in the world is the so-called Godstad ship, a Viking vessel which was discovered in a sepulchral mound on the shores of Christiania fjord. It is not less than 1,000 years old.

THE WAR HAS GIVEN ENTERTAINMENT-LOVING INDIVIDUALS A SPECTACULAR EXCUSE FOR GETTING UP ALL SORTS OF FEES AND FESTIVALS THAT OTHERWISE WOULD NEVER HAVE TAKEN PLACE.

When a man and woman indulge in a quarrel they generally deal in glittering though cutting generalities. Two women, however, will always go in for the most pointed personalities.
Half the joy in life has evaporated when you have schooled yourself into being able to unite strings rather than cut them when they are around a bundle into which you are anxious to peep.
