Women nowsdays do not have to use a stream of water for a looking glass. They have modern mirrors that will tell them very promptly whether their beauty is fading. A wom-an's beauty fades very rapidly if she is troubled with some derangement of the distinctly feminine organism. Ignorance of carelessness in this respect frequently causes great suffering and irregularity in after life. Little irregularities and weak-nesses in girlhood should be looked upon mptly and properly treated at once. Mothers cannot be too conscientious in this respect, and cannot throw aside the prudery that is so prevalent apon this point too soon. Every young woman should know something about her own physical make-up, and the importance to her future of her local as well as general health. A woman who suffers from weaknesses peculiar to her sex will rapidly lose beauty, her general health, her amiability ssels should be cleared for and her usefulness and capability as a wife and housekeeper. Dr. Pierce's Favorite Prescription promotes regularity of all fem-inine functions, gives sturdy health to the distinctly feminine organism and prepares to Porto Rico on a footing precisely sim- it to meet the trials of wifehood and motherhood. The "Favorite Prescription" is not a cure-all. It is intended for but one class of disorders and is good for no other. Taken during the period of gestation, it makes parturition easy, and banishes the discomforts of the expectant months. All good medicine dealers sell it.

"I wish to express my thanks for the good I have received from Dr Pierce's Pavorite Prescription," writes Mrs. E. Scovili. of Bolton. Stephenson Co., Illa. "I have used it at different times for the last eight years. It is the best est times for the last eight years. It is the best medicine for expectant mothers. In ever tried it for that until my last baby. I had been very bad, almost helpless. I could not get out of bed alone, or even turn over. Last December I commenced taking the 'Favorite Prescription, and could soon get in and out of bed as well as at any time. On March 30th I gave birth to an eleven pound boy without pain, and have since been as well and healthy as I ever was."
