People Who See Well

believe, naturally enough, that they have normal vision, and do not require glasses. But it doesn't necessarily follow that all...

Many people of strong physique of ten can, and do, overcome a considerable amount of vision because of their excess energy. They argue that inasmuch as they see perfectly of what use would glasses be to them? But when they fall ill, or get even a little below par physically, their optical defects are often revealed. Glasses are then secured with happy results.

You can't know—YOU can't know—whether your eyes are or are not a drain upon your nervous system until you have had them examined.

Always at your service for your eye welfare.

"AMERICA IS READY," A GREAT NATIONAL MASTERPIECE, AT THE ARCADE MAY 9

"The supreme test of the nation has come. We must all act, speak, serve together.

"This war is not of our making. It has been thrust upon us by Prussian autocracy. The world must be made safe for democracy. In this grim eventuality we must strike with all our might. America, God helping her, can do no other."

In these brief words our esteemed president sums up the situation of our beloved land today. We are now at war with the most barbarous, unrelenting enemy that recorded time discloses. What will be our fate in this gigantic conflict? Is our democracy doomed? Is "government of the people, for the people and by the people to perish from the earth?" The decisive blow for these immortal principles must be struck by America. Are we prepared for the huge task that destiny has set for us?

The marvelous film production "America Is Ready" offers a reply of good cheer in answer to these ponderous hopes and fears.

Accompanied by the dainty lyric so-
