# Cause an Effect

**Make the decision to make a difference this Earth Day. On Earth Day and every day, the routine choices we make affect our planet, so here are some simple tips for choosing wisely:**

- Reduce, reuse and recycle at home, at work and at school.
- Shop for used goods, or look for items made from recycled materials.
- Buy in bulk or multi-packs to cut down on packaging waste.
- Look for Energy Star™ and WaterSense® labels on products like appliances and plumbing fixtures.
- Cut down on plastic bags by carrying your own reusable shopping bag to the store.
- Properly dispose of recyclable items, electronics and potentially hazardous materials.
- Always turn off lights and appliances when you leave a room.
- Unplug your mobile phone charger when it's not in use.
- Walk, ride your bike or use public transportation whenever possible.
- Choose locally and organically produced foods.
- Turn off the water while brushing your teeth or shaving.
- Don't top off your gas tank, as this lets harmful chemicals enter the air.
- Go to [www.epa.gov/earthday](http://www.epa.gov/earthday) to find local volunteer opportunities and to learn more about steps you can take to protect our planet.
