BOHEMIA NOTES.

Devoted to Mines and Miners---A Nugget Correspondent's Batch of News.

BOHEMIA, May 16, 1899.

A furious snow storm is raging.

Mr. James Duvall of Nunn & Duvall, contractors, is out on a visit.

J. C. Klopenstein is out at present for more supplies for their mine, the Grizzly group.

Al Churchill one of the permanent fixtures of Fairview Mountain is out basking in sunshine and strawberries for a few days. Eat some for us Al.

Mr. and Mrs. Dan Beck the Musick's genial foreman, and wife, are spending a few days with their many friends in Cottage Grove and vicinity.

Mr. Ed Jenks foreman of Noonday left today for his mines on Sharp Creek where he has a crew of men opening up his mine.

Mr. George Knowles will be chambermaid and chef of the culinary department of the Musick mine during the absence of Mrs. Beck.

Louis Betters is cultivating a warlike spirit and is very anxious to enlist for service in the Philippines. That's right Louis defend your country, but we haven't lost any Phillipinos.

Mr. Hermann Lilly one of the pioneer placer miners of Steamboat River passed through camp this week for his mines on Steamboat. He informed your correspondent that there was a bright future in store for that end of our already prosperous mining region.

Every few days brings in a new expert from one place or another and they all seem to think this a fine field for investment. People in other parts of this mundane sphere have found out Bohemia is not in Australia.

Superintendents Holderman and Sears are doing some work on several outside claims for their respective companies, the Hartford of Chicago and the Montana gold mine and milling company.

Byrne Bros & Co. of the Grizzly mines have made another richer strike than ever. The ore body is widening all the time as depth is attained and shows native silver in unlimited (coinage) quantities. The boys have a bonanza. Their mines lie almost below snow line and they have one of the finest bodies of timber in Lane county and water power enough to drive the mills of Portland and then have some.

We are informed that the Champion group is sold to a Mr. Kelly of Chicago. This is another instance of prosperity and shows faith in our mines, for different companies to take hold of properties and never see them. The famous Anaconda group on Fairview has recently been bonded to a Spokane company, through a representative of theirs who is highly pleased with what he saw while in camp. He expresses himself as being agreeably surprised at the vast richness plain to be seen here.

Zinaker & Graber Company of Fairview are opening up the Vesuvius, one of their claims, preparatory to make a milling test on the Stocks & Harlow mill as soon as the snow goes off sufficiently to admit of hauling. This is one of the finest groups in camp and the Boys are deserving of great credit for their energy in opening mines, for there is no sunshine and roses in driving 600 or 700 feet of hard rock work and spending lots of money besides, for mining is expensive business. But if in the right locality and properly managed there is no industry that pays a more handsome dividend than mining, and we have every formation and surface indications here for deep mines known to scientific mining experts or mineralogists; and other localities less favored than ours are producing millions and with the proper methods of reduction which to the experienced observer are very inexpensive and simple if men of mining experience take hold of them, this region can be made the goldconda of the Pacific Northwest. But before going any further let me say to the mine owners: Don't expect to go to a goat corral for amalgamators, for mutton and amalgam won't mix; and don't go to a ranch for engineers or machinists. Don't get your superintendents out of the insane asylum for many a man has gone crazy looking for gold.
