BOHEMIA NOTES.

Devoted to Mines and Miners---A Nugget Correspondent's Batch of News.

June 26, 1899.

Every body fixing for the 4th.

A light fall of the beautiful snow to-day.

James Duval, who has been in the employ of the Noonday Co. for the past three months, is outside with his family.

Theodore Jennings took his departure for Cottage Grove to spend the 4th, and also some cash, this week.

Messrs. Tefft & Beck, two miners, passed through camp today for Steamboat, whither they go to do assessment work on a group of claims.

F. C. Cooper, the popular hash slinger at the Noonday, is stopping with Geo. Kerr at Vildwood, for a recuperation of health. Mr. Cooper has been in the mines for 18 months without a day off.

Experts and spring poets are getting numerous of late. Each has a Kodac, and we dirty miners never know when they will take a crack shot at us.

The Stocks & Harlow mill on Fairview is pounding away on some very fine ore, and is, so we are informed, showing up very fine. This is an enterprising firm and should have the hearty encouragement of the entire community.

The new mill on the Musick mine dropped her heavy stamps for the first time this week. There is a record breaking future in store for this mine, as it is one of the best on the Pacific coast.

Mr. John Mansfield is building a large chemical laboratory at his mine in Minersville for the treatment of rebellious and refractory ores. Success to you, John.

Mr. Frank LeRoy reports the discovery of a large body of metaferous ore in an aureferous formation on one of his claims on Sharp creek. He is an enterprising gentleman and ye correspondent wishes him success.

J. D. Fletcher, of the Montana Gold Mining and Milling Co., returned to camp after an absence of three months in British Columbia for his Co. We understand he will resume operations here. E. S. Holderman, who has been in the employ of this Co. in the absence of Supt. Fletcher, has made a strike of some importance to the Co., it being a remarkably rich streak of high grade ore which shows free gold in large quantities.

Capt. Ely and crew are busy on his group of claims just east of the Noonday. A mill will be put in just as soon as the beautiful snow goes off so he can get his machinery in. He has a fine showing and it certainly will prove a good investment for him, as there has never been a failure in camp so far, and with proper management there need not be.

B. E. Hawley, general manager of the Calapooia Mining Co., came in this week to push development work on their valuable group of claims situated on Steamboat about three miles below the Musick mine.

Ziniker & Graber Bros., on Fairview, are taking out some very fine ore preparatory to making a big run soon on the Stocks & Harlow mill. This is certainly a valuable group, for they have a large body of fine ore in the Vesuvius and adjoining claims, making this a very desirable group.

The Grizzly group on Champion creek is reported sold to a London company. We did not lean the purchase price, but if they got what it is worth they got a handsome price, for the showing is of the most permanent character in camp, being between solid walls of andisite, or better known as cyanide, which is a number one mineral bearing rock.

The Laura group, just on the opposite side of the canyon from the Grizzly, owned by LeRoy Bros., is showing some of the finest free milling ore in a large body to be found in camp. This ore shows assay value across the entire ledge of about 14 feet of from \$30 to \$60 per ton, and with development will prove a veritable bonanza.

Ross.

THE OLD TIMER.

I met the "Old Timer" yesterday in his element as the center of an admiring constituency in the lobby of the Imperial, and only had time to hear him tell his latest. "I recently visited Salem," he said, "and fell in with my old crony and prince of good fellows, Colonel N. B. Knight, who vouches for the truth of the following. It appears that the colonel one evening was regaling a party of friends with anecdotes of the civil war, when one of them, James H. Sharp, the pioneer prospector of the Bohemia district, stated that the war had greatly influenced his life. "It was this way," said the miner; "in 1861, I was a young man in St. Louis, had a splendid position and was a member of the crack militia company of the city. For three years we drilled once a week, and once a month, in our handsome uniforms, we gave a swell dance which was attended by all the young ladies of St. Louis sweldom. Those were pleasant days, never-to-be-forgotten, always-to-be-

remembered. Then one day we heard that Fort Sumpter had been fired upon; immediately our bugler sounded the bugle call, and as soon as we could properly array ourselves in our uniforms and shoulder our arms, the company assembled. It was a brilliant sight, a military band led the way, playing patriotic airs, our captain bore himself superbly, and as we marched through the streets of the city in perfect step, the citizens gathered on the sidewalks to cheer; from the windows the ladies were waving flags and handkerchiefs, and throwing floral tributes at our feet. The legions of Caesar never felt more thrilled or joyous. We marched in this manner for three miles out to Jefferson barracks and laid down our arms and disbanded! I don't know what became of the others, but I drew my little savings, bought a ticket to Callao, but at the isthmus was induced to change my mind, and came with a party to Oregon, and have lived practically a hermit's life in the Bohemia mountains ever since. That war ruined all my prospects, —North West Herald.

These Illustrated Publications.

WILL BE SENT BY THE NORTHERN PACIFIC RAILWAY CO., TO ANY ADDRESS UPON RECEIPT, IN STAMPS, OR OTHER WISE, OF THE AMOUNTS NAMED.

WONDERLAND—

An annual publication of about 100 pages, gotten up in most attractive style and beautifully illustrated in half-tone. The contents of each number are varied and different from its predecessor.
