FRIDAY, SEPT. 22—1893.

Much abuse is heaped upon corporations of all kinds, railroads in particular, for their oppressive measures, etc. Take it in our own locality, isn't the Southern Pacific railroad of material benefit to this section of the country? When times are hard and various business enterprises are shut down, we cry for work, and what corporation or firm furnishes more employment for skilled and unskilled laborers today than the railroad. Why, even the tie plant, which did business at Latham, is missed here. It furnished labor for many men, and it consumed thousands upon thousands of feet of lumber from the Booth-Kelley Lumber Company of Saginaw, which on account of the demand by the Southern Pacific for lumber, necessarily employed more men than was needed had not the Southern Pacific lumber trade fallen to them. Well, yes the Southern Pacific, notwithstanding it is hit on every hand by newspapers and individuals alike, is a pretty good thing for the country after all. It leaves many a dollar scattered about the country. The only real objection that we have to the Southern Pacific is that we haven't brains enough to run a business successfully that will employ as many men as does this same much-abused corporation.

Bohemia Nugget has been the recipient of many expressions of appreciation from the Cottage Grove boys who served in the Second Oregon at Manila, who received the Nugget free of charge from the date of its first issue to the time of their departure home. In acknowledgment of the kind expressions tendered Bohemia Nugget from these returned soldiers we have only to say that if the Nugget served in even one instant, to please and alleviate any of the hardships and inconveniences of soldier life in the Philippines, we are paid twice over.

Gilstrap Bros. who have leased the Register, the official republican paper of Lane county, are improving their paper each week. They are wide-awake, enterprising newspaper men and chuck full of ability. Success to them.

Dreyfus has been pardoned. Even France has become ashamed of her methods and so far as possible and maintain the dignity (?) of the army has relented.

An exchange says fence posts are now made out of clay at a cost of six cents apiece. "Heavens!" that's nothing to crow about! Man was made of clay from the beginning, but you can't make 'em for 6 cents apiece.

Returned Home.
