A Happy New Year.

Santa Claus dealt kindly with the little ones in Cottage Grove this year.

There was the "oddest" set of fellers up from Eugene last Saturday, you ever sot eyes on afore.

The composition work on the Special Mining Edition of Bohemia Nugget is now finished and the edition will be bound as rapidly as possible. Be sure and get a copy and send it to some one who may become interested in Lane county's great mining district.

Last winter there was little if any work done in Bohemia and practically speaking the district was deserted through the winter months. This year only a few of the miners came out long enough to spend Christmas, and then back they go to their work. A good indication of thrift and order among the miners and prosperity for the district.

With the passing of the year 1899, Bohemia Nugget shall have been in existence not quite one year, and the management is pleased to note that the paper has grown steadily, each month new subscribers being added to the subscription list, and an increase in the advertising patronage, for all of which we are thankful. It has been our desire to get before the people the best local news. We contend that in the main this is all that is expected of a paper, and all that the average country paper can do and do well. We have also done the best we could to keep the Bohemia mining notes before the readers of the Nugget, with the expectation that outsiders will become interested. We felt that this was important as a few copies nearly every state in the Union. The mining public of Bohemia will look to see and appreciate and while only one

our sincere thanks to our patrons, both subscribers and advertisers, as well as to our correspondents who have assisted in gathering news, and wish you all a **HAPPY NEW YEAR.**
