## DALLAS CONCERN GETS GOLD STAR

Elliott Motor Company Shows Efficiency in All Departments

For its efficiency in every department during November, the Elliott Motor company has been awarded a gold star by the Ford Motor company. Only three other agencies in the state received this distinction for the month. It is given in recognition of not less than 100 percent efficiency in the sales room, store room, shop, cleanliness and general appearance of the establishment.

The gold star system was inaugurated by the Ford Motor company for the purpose of putting more kick into dealers. Going on the theory that appearances count in a garage business this is featured in the gold star awards. The business for the month is carefully analyzed and compared with corresponding months. In what is termed the sales department the Elliott was 121 percent efficient for the month.

## VICK BROS. TO HOLD AUTOMOBILE SHOW

Vick Brothers, automobile dealers of Salem, are arranging to hold their third annual automobile show the dates being Friday and Saturday, December 15th and 16th. Their complete line of cars including the Overland, Oakland, Paige, Jewett and Willys Knight will be shown in their beautiful sales room on High street. Enclosed cars are more in demand than ever before and this is the reason that they are featuring the enclosed cars above the touring models. Vick Brothers are pioneer automobile men of Salem and have built a large business by giving real automobile service to their customers. The idea of holding an individual auto show is original with Vick Brothers who have made a real success of it in the past and they expect this one to surpass all others. Adv.

## OLD YULETIDE CAROLS

"Holy Night" Regarded as One of Most Beautiful Songs.

"Draw Nigh, Immanuel," One of Oldest Pieces and Far Antedates Any Others.

THE ancient Christmas carol, "Holy Night," is German in its origin and is considered by many persons to be the most beautiful of all Christmas carols. It has sometimes been ascribed to Martin Luther, but the consensus of expert opinion is that it is much older than his time and is one of the oldest of German folk songs.

The carol "God Rest Ye Merry Gentlemen," is English in its origin and dates back to about the beginning of the Seventeenth century, although the author of the words and the composer of the music are unknown. The fine old melody sung to this poem possesses all the best qualifications of a sterling hymn tune and will probably last as long as the verses with which it is always associated.

The carol "Draw Nigh, Immanuel," is one of the oldest pieces of coherent music in existence, and both the words and music far antedate any of the others. The music is an old French melody, dated from the Thirteenth century, although, of course, it has been harmonized to conform with more modern standards.

There is a most curious but beautiful musical effect at the close of this carol. The words of "Draw Nigh, Immanuel," are about 100 years older than the music, being taken from the Mozarabic breviary of the Twelfth century, and it is generally believed that they were taken from the liturgy of the early Christians at Toledo, Spain, where the Mozarabic breviary was formulated.

Another carol, "The First Noel," has a traditional French melody and probably originated in Breton, although the exact origin of this fine old song is somewhat in doubt.

## Crowding Insects.

Man, calling himself the master of nature, may yet be involved in a life-and-death struggle with insects for possession of the globe—and in some ways scientists declare insects are better fitted than men for survival on earth. Baked beans at a dollar a portion! Is the plebeian bean to be driven from its present democratic company into the ranks of the aristocracy? This possibility is suggested by the recent invasion of the southern portion of the United States by the Mexican bean beetle, a handit pest of the first magnitude that now has gained a firm foothold and is already at work in a limited territory, undermining natural resources with such telling effect that the final outcome is a matter of grave concern. Beans of all kinds are being attacked by this handit—a kind of ladybug—and entire crops are being wiped out.

## That Word "Hysteria."

There is a lot of scientific truth pertaining to the physical nature of woman, concealed in the word hysteria. The classic origin of the word is the ancient Greek "hysteria," the womb. The sexual or mother nature of woman is indicated in the word as the origin of the laughter, the tears and the contradictory conduct implied by the word hysteria.

When a man is called "hysterical," therefore, the implication is plainly conveyed that he is acting under the impulses understandable and excusable (though sometimes extremely annoying) in a woman, but not permissible in a person of the male persuasion.—Milwaukee Sentinel.

## Bad Teeth as a Racial Trait.

Do poor teeth run in races? According to a report made by Dr. A. W. Schoenleber of the medical department of the Standard Oil company to the Eugenic Research association there is a racial difference in resistance to dental decay as shown by an examination of 2,758 men of various nationalities.

The gleaming whiteness of the negro's teeth is not just contrast with his black skin, these figures show, as the greatest proportion of perfect teeth was found among the Afro-Americans. Polish and Austrian Jews showed the next highest percentage of excellent teeth, while English, German, Danish, Norwegian and Swedish subjects showed very feeble resistance to decay. The Irish had the worst teeth of all.

## Why Hoover Sent Corn to Russia.

Someone asked Mr. Hoover recently why he sent corn to Russia instead of wheat. "Because," replied the secretary of commerce without a moment's hesitation, "for one dollar I can buy so many calories"—carrying it out to the third decimal place—"in corn, and only so many"—again to the third decimal place—"in wheat. I get about twice as many in corn as in wheat."—From "Behind the Mirrors."
