UnAmerican!

Nicholas Murray Butler, president of Columbia university, one of America's great institutions of learning, in a letter to the general Protestant and Non-Sectarian Committee for Freedom in Education, with headquarters in the Consolidated Securities building, Portland, voices the universal sentiment of educators thus far heard from when he says:

"This bill (compulsory education, so-called) should be entitled, 'A Bill to Make Impossible the American System of Education in Oregon!' It is fundamentally un-American in its principle and purpose and should be overwhelmingly defeated."

Many college and university presidents, after reading the bill, which is to be voted upon November 7, have written the committee, severely condemning the measure, according to Joseph A. Hill, principal of Hill Military academy, committee executive secretary.

major fraction thereof in excess of 24 miles. The salary on motor routes ranges from \$2,450 to \$2,600 per annum, according to length. Separate examination for motor routes and wagon routes are no longer held. Appointments to both positions will be made from the same register. The examination will be open only to citizens who are actually domiciled in the territory of the Post Office where the vacancy exists and who meet the other requirements set forth in Form 1977. Both men and women, if qualified, may enter this examination, but appointing officers have the legal right to specify the sex desired in requesting certification of eligibles. Women will not be considered for rural carrier appointment unless they are the widows of U. S. soldiers, sailors or marines, or the wives of U. S. soldiers, sailors or marines who are physically disqualified for examination by reason of injuries received in the line of military duty. Form 1977 and application blanks may be obtained from the offices mentioned above or from the United States Civil Service Commission at Washington, D. C. Applications should be forwarded to the Commission at Washington, D. C., at the earliest practicable date.

YOU!

You, voters of Oregon, must decide November 7 whether or not you want the state to take away your God-given, American right and privilege to educate your child as you deem best.

An initiative bill, sponsored by a certain element of our citizens, known as the compulsory education measure, will be on the ballot this general election. It purports to compel children up to certain years to go to school (a very good thing in itself), but it goes so far as to tell you that you must NOT send them to any private school.

There is already a compulsory education law on our statute books that is working well. It, however, gives you the right to say whether your child shall be educated in the public or a private school. YOU decide; but this new bill denies YOU the right to determine this question.

Do YOU want such a law as this in Oregon?

The School Monopoly Bill has a misleading name!

YOU have an interest in schools? Then be sure to understand the true meaning of the School Monopoly Bill which is called on the ballot the Compulsory Education Bill.

The reason that this name is misleading is because we already have compulsory education under the present existing law, and we already have compulsory teaching in English in all schools.

What this bill really proposes is to substitute state control over the education of your children for your control.

The people of Michigan have already overwhelmingly defeated this measure, because it attacked the freedom of education.

Protect your rights which are being endangered—do not be misled by the name of this bill. Read the proposed bill carefully. Read the campaign literature. Find out the intent of the bill which is disguised by the title.

You will find that that they propose school monopoly. A hidden attack upon freedom of education.
