WHOLE NUMBER 2757

"CENTURIES OF BLOOD LETTING" DECLARES KNOX

SAYS UNITED STATES SHOULD DECLINE PART IN VERSAILLES SETTLEMENT

NEGOTIATE SEPARATE PEACE

Foreign Relations Committee Wants U. S. Representation Equal to Great Britain

Washington, D. C., August 29.—Declaring that the peace treaty cannot be enforced but will lay the foundation for "centuries of blood letting," Senator Knox of Pennsylvania told the senate today that the United States should decline to become a party to the Versailles settlement, but should negotiate a separate peace. What he characterized as "hard and cruel terms" imposed penalties on Germany, violates, he says, international law and will engender strife.

Washington, D. C., August 29.—The foreign relations committee today adopted another amendment to the peace treaty providing that the United States shall have as many representatives in the league of nations assembly as has the British Empire.

SHAN CREEK MINING COMPANY ORGANIZED

George Britton and G. C. McCallister returned this morning from Tacoma, Wash., where they organized and incorporated the Shan Creek Mining Co., with officers as follows: President and general manager, George Britton, Grants Pass; secretary, A. R. Rutherford, Tacoma, Wash.; treasurer, Frank C. Bramwell, Grants Pass. Directors, Geo. Britton, G. C. McCallister, Grants Pass; and E. McCalley of Tacoma, Wash.

This property is located 17 miles west of Grants Pass and is known here as the manganese consolidated. The company will start installation of machinery on or before October 1.

TURKEY IS WARNED

Washington, Aug. 29.—Under instructions of the state department Rear Admiral Bristol has warned Turkey that Armenian massacres must stop.

IN PRISON DURING WORLD WAR NOW PRESIDENT OF BOSNIA-HERZEGOVINA

Sarajevo, July 15. (Correspondence of Associated Press)—One of the men who were arrested by Austrian authorities after the assassination of Archduke Ferdinand in 1914, is now president of the provincial government of Bosnia-Herzegovina and is recognized as one of the leaders in the new kingdom of Jugo-Slavia. He is Atanasije Shola and was kept in prison at hard labor during the war.

Today, in his office in what was formerly part of the Austrian palace, Mr. Shola describes his years in prison, and subsequent rise to power. He is a Herzegovian, 42 years old and considered to be a man of exceptional ability.

"One hundred and forty-six of us were placed under arrest in July, 1914," he said. "There was no proof that I was in sympathy with the Jugo-Slav propaganda, but the authorities suspected what was in my heart. Sixteen of the men arrested

BOMBARDMENTS IN EUROPE CONTINUE

British Naval and Air Forces Believed to Be Taking Hand in Finland

London, Aug. 29.—A Helsingfors message says that heavy bombardment, lasting two hours, was heard in Viborg, Finland, from the direction of Kronstadt yesterday. It is supposed that the British naval and air forces were engaged.

London, Aug. 29.—The towns of Paulouk and Kupiansk, on the Don river, have been captured by the bolshevik forces, it is reported here today.

MEXICANS ARE OPPOSING MARRIAGE TO CHINESE

El Paso, Tex., Aug. 29.—Agitation against the marrying of Chinese men and Mexican women is spreading in Sonora, Chihuahua and other west coast states of Mexico. This has long been a source of ill feeling against the Chinese as many of them have married Mexican women in the north. Villa gave this as his reason for killing many Chinese at the time of his campaign in 1917 and was credited with saying the Chinese were trying to make a "yellow race" of his people.

HAND GRENADES NOW ARE SAVINGS BANKS

San Francisco, Aug. 29.—Banks of the Twelfth Federal Reserve District have ordered 60,000 hand grenades which were ready for shipment to the American expeditionary forces when the armistice was signed, and which have been turned over to the treasury department for use as savings banks to stimulate thrift. The only alteration made in the hand grenades to convert them into savings banks was the removal of the TNT charge and the cutting of a slot as a coin way.

The Federal Reserve Bank of San Francisco, which is handling the distribution of the grenades to the banks and trust companies, anticipates orders aggregating 100,000 of the war souvenirs. Robert E. Smith, director of the war loan organization for the Twelfth Federal Reserve District, said "These American-made hand grenades constitutes one of the best souvenirs of the war one could possibly get. Some months ago an eastern firm managed to get some of them and disposed of them readily at one dollar each."

REPUBLICANS ENDEAVOR TO POSTPONE TRIP

INDUSTRIAL SITUATION AND H. C. OF I. INVESTIGATIONS ARE REASONS GIVEN

CONFERENCE WITH GOMPERS

President Wilson's Schedule Names September 15 For His Speech at Portland

Washington, D. C., August 29.—Two republican representatives today introduced resolutions proposing that congress declare that President Wilson should postpone his tour, due to the present industrial situation and high cost of living problems which are now confronting the nation. Labor Leader Gompers conferred with the president today.

Washington, D. C., August 29.—President Wilson, on his western speaking tour, will visit 30 cities and will be absent from Washington until September 13.

His first address will be at Columbus, Ohio, on Thursday, then at Indianapolis, St. Louis, Kansas City, Omaha, Sioux Falls, St. Paul, Minneapolis, Bismark, Billings, Helena, Couer d'Alene and to Spokane on September 12. He will make addresses at Tacoma and Seattle Sept. 14; Portland September 15; San Francisco September 18, and then will stop at San Diego, Los Angeles, Reno, Salt Lake City, Cheyenne, Denver, Pueblo, Wichita, Oklahoma City, Little Rock, Memphis and Louisville. On many occasions President Wilson will make two addresses a day in two different cities.

PITTSBURG STRIKE IS OFF

Pittsburg, Aug. 29.—Street car service suspended two weeks ago by a strike of 3000 motormen and conductors of the Pittsburg railway company, will be resumed today. The striking carmen have decided to return to work.

Inventor of Telegraphed Pictures is Mere Youth

One evening in October, 1915, in a hotel at Blackfoot, Idaho, a nineteen-year-old boy, already well known as an inventor of mathematical instruments, sat reading interestingly a Craig Kennedy story in the November 1915 Cosmopolitan Magazine.

The story was a pure work of fiction about an imaginary invention to send pictures by wireless. The story said that the tiny parts of the pictures were sent in such rapid succession as to give the eye the impression of a complete picture. That set the 19-year-old boy to thinking.

Until then, all his inventions had been of a mathematical nature. In fact, it was to introduce his area-scope an instrument that is now used in one-fourth of the colleges of the United States, and in over a thousand high schools, that he was making the trip that took him, among other places, to Blackfoot, Idaho.

After he had read the Cosmopolitan story about the fictitious picture telegraphic machine, he must have said, "I'll make that story come true" for that is what he has done.

Before going to bed that night in Blackfoot, all the fundamental ideas of this big invention had been worked out by him. He finished his trip in the interest of his earlier invention, and when he returned home he started work on a model of his electric picture transmitter. This instrument was completed and exhibited before a U. S. naval expert.

He soon invented two other entirely different ways to telegraph pic-

CENTRAL CAL. RAILROAD MEN NOW AT WORK

NO TRAINS NOW BEING SENT TO LOS ANGELES STRIKE TERRITORY

R. R. RECEIVING MEN BACK

Hines is Confident That Strike Will Be Ended By 7 O'Clock Saturday Morning

San Francisco, Aug. 29.—Railway employes have returned to work throughout Central California. Trains are now being sent to Los Angeles, where the strike is still on.

Although the railroads are willing to receive striking workmen back, not a single complete train crew has reported in Los Angeles, despite the orders of the international officers.

San Francisco, Aug. 29.—Announced determination of the government to restore full railroad service in California, Arizona and Nevada by 7 o'clock Saturday morning, expressed in Washington by Walker D. Hines, director general of railroads, was generally accepted here as meaning that the strike situation would be cleared in the west within a few hours.

Even before the announcement of Mr. Hines, strikers at practically all points except in Los Angeles territory were obeying the orders of chiefs of the international railroad brotherhoods and were returning to work.

Union leaders here urged the men to consider the consequences of remaining on strike in view of the statement of Mr. Hines that all men who did not return to their posts by the time set would find their positions filled.

The statement of the director-general further announced that anyone who interfered with or interrupted the use of railroad property would be dealt with for having committed an offense against the United States.

ASK PRESIDENT TO PREVENT STRIKE

Claim Advanced Corporation is Seeking to Cause Strike By Wholesale Discharges

Washington, D. C., August 29.—President Wilson will be asked to take a hand in the controversy between the steel workers and the United States Steel Corporation in an effort to prevent a general strike of steel workers, it is announced. The claim is made that the corporation is trying to force the issue before the president will be able to take up the matter. It is stated that the corporation is discharging men by the wholesale in order to force a strike.

GOVERNOR WANTS PRINCE TO SEE THE WEST COAST

Salem, Or., Aug. 29.—Acting upon request of the Portland chamber of commerce, Governor Olcott today sent a telegram to Secretary of State Lansing extending to the Prince of Wales an invitation to make Oregon and the Pacific Northwest part of his itinerary on his tour of the United States. "Will you assure his royal highness that no adequate conception of the glories of America may be obtained without a glimpse of this wonderful land on the Pacific coast?" reads a part of the governor's telegram.

ROGUE RIVER LAD HELD FOR MURDER

San Luis Obispo, Calif., Aug. 29.—Hugh Moore, 19-year-old farmer lad of Rogue River, Ore., is on trial here on a charge of complicity in the murder of David Moorehouse, night watchman at Paso Robles. His parents are here from Jackson county, Oregon, for the trial, and they have implicit faith in his ability to show their son was merely the victim of bad companionship.

Moore was arrested with Seth Burt, alias Edward Langdon, 22, after Moorehouse had been shot by the two men he found burglarizing a Paso Robles store. Burt insisted from the time of his arrest that he shot Moorehouse, and that Moore, while with him in the robbery venture, fired no shots.

A defense of mental deficiency will be entered, it being contended that Moore was a good boy, working his father's farm until he suffered an injury in a runaway. After that, he ran away to Medford and got into trouble through his companion, a youth regarded by authorities as a brainy criminal.

GOVERNMENT STARTS CAMPAIGN TO CURB SOCIAL DISEASE "REMEDIES"

Washington, D. C., August 29.—Four hundred and fifty seizures of so-called remedies for social diseases have been made recently under the food and drug act by federal officials who have inaugurated a campaign to suppress this variety of "quack" medicine. In making this announcement today the bureau of chemistry of the department of agriculture issued a general warning that use of such "remedies" was extremely dangerous and likely to lead to long period of suffering.

"The goods seized include a great variety of compounds" said the bureau's announcement. "Some of the labels bear the claim of the manufacturer that the contents are sure cures. Some even contain statements that cures will be effected within definite periods.

FIVE MILLIONS SQUANDERED IN AIRCRAFT WORK

REPORT OF CONGRESSIONAL INVESTIGATION COMMITTEE INVOLVES RYAN

RYAN DEFENDED BY THOMAS

General Disque in Portland and Will Ask to Be Allowed to Testify

Washington, D. C., August 29.—Senator Thomas of Colorado, democrat, today defended John D. Ryan, former assistant secretary of war in charge of the aircraft production, from "insinuations" contained in a report made last night to Secretary Baker by two republican members of the congressional sub-committee now in Portland investigating spruce production. The report alleged that approximately \$5,000,000 of government funds were squandered in the construction of 38 miles of railroad for spruce production, and later converted to the uses of the Chicago, Milwaukee & St. Paul railroad, in which Ryan is a director.

While the committee may have found waste in aircraft funds, Thomas a letter from General Brice P. Disque as said insinuations against Ryan are unjust and unreasonable. He read saying that Ryan had no connection with the construction of the government road.

Portland, Aug. 29.—Frank Pendleton, former superintendent of aircraft production for the Canadian government, told the congressional investigating committee that by depending upon its logging and milling industry for airplane spruce production, Canada produced 26,500,000 feet of airplane lumber between April and November last year and got it cheaper than the United States. No soldiers were employed. Only six miles of railroad had been built and when the operations were closed there was no equipment nor properties to be disposed of.

The congressional investigating committee postponed its trip to Toledo, Ore., in order to hear Pendleton.

Portland, August 29.—Brigadier General Brice P. Disque arrived here unexpectedly early today. It is reported that he is preparing a formal request to be allowed to testify before the congressional investigating committee.

"In all the seizure actions the government alleged the preparations to be falsely and fraudulently labeled. Such preparations are sold largely because of plausible but false claims regarding their curative effect. Many sufferers are led to believe that cures will be effected by these preparations and adequate treatment under competent medical supervision is neglected until permanent injury to health and even danger to life has resulted."

Chicago, Aug. 29.—Four hundred barrels, or 12,000 gallons, of 2.75 per cent beer, manufactured by the Schlitz Brewing company of Milwaukee before war-time prohibition, was dumped into the gutters of a north side street by Otto R. Fuerst, United States revenue inspector. This action was taken to enable the company to recover \$2400 in taxes previously paid the government.
