

Making the Nation's Credit Liquid

Reservoir systems insure a steady water supply in every city and large town. The faucet is of very little value without the reservoir behind it.

The Federal Reserve Banking System is a simple and practical means of making the nation's credit liquid at all times.

As a member of that system, this bank is as independent of local conditions as it is humanly possible to make it.

ETNA REBEKAH LODGE BANQUETS STATE PRES.

Preceded by a 7 o'clock supper, to which about 75 Rebekahs and Odd Fellows were in attendance, was the opening greeting Mrs. Jessie Jarvis of Portland, state president of the Rebekah Assembly of Oregon, at a special called meeting Saturday evening.

A closed meeting was held at 8 o'clock with a well filled hall. Two candidates were initiated into the order. The always sacred and mystical initiatory work was given an added beauty by the perfectly executed work of the floor drills, for which Mrs. Jennie Burke, as captain deserved the highest praise.

Among the noteworthy events of the evening was the fraternal greeting of the present president, Mrs. Jarvis, and two past presidents, Mrs. Jeanie Burke and Mrs. C. L. Clevenger. A large bouquet of pink roses and a cut glass dish were presented Mrs. Jarvis by Mrs. Burke. Mrs. Jarvis made an address in which she gave special emphasis to this year's work as being the 100th year of Odd Fellowship and the 88th year of the Rebekah Assembly, and the great work being done by the fraternity of Odd Fellowship, friendship, love and truth.

A GREAT SAVING SALE OF Wirthmor Silk Blouses

—Last month we received on a contract placed many months ago our first shipment of WIRTHMOR SILK BLOUSES. Barely had the sale been announced, before prudent shoppers, realizing the remarkable values they offered eagerly purchased all that we could obtain.

—Monday the second shipment goes on sale. They are even more attractive we believe than our previous offerings. The savings they offer are incredibly large, you'll appreciate this the moment you see the winsome styles and note the splendid character.

Your Choice at Just \$5

—The materials used are Crepe de chine, Georgette Crepe and Wash Satin, all of exceptional qualities. The workmanship is of an unusual high order, and they are cut on lines as will insure proper fitting.

—The quantity is limited; no more of the same styles will be obtainable; we therefore urge quick action to avoid disappointment.

The materials used in these Blouses were contracted for last spring by the manufacturer. Since that time the price of these fabrics has almost doubled. The cost to us and to you was figured on the basis of the material when bought. A notable instance of how this store working in intimate co-operation with the right type of manufacturers exercises liberal savings for those they serve.
