### How Much Would You Give to Save A HUMAN LIFE?

YOUR COUNTRY is not asking you to give in this case, but to BUY a security that is worth 100 cents on the dollar, to help save a life and to help the United States to win the war. Your government is not asking you to buy impossible amounts at one clip but does ask you to buy 50 cents worth a day or "two bits" worth of war stamps a week. Let your little boy and little girl buy a "thrift" stamp every week and impress upon them the importance of saving and at the same time inspire them with the thought they are actually doing their "bit" to help beat the world's worst enemy.

"For 25 cents you will receive a U. S. Thrift Stamp and a card to paste it on. The card has spaces for 16 stamps, costing you \$4. When it is full, exchange it—with a few cents additional in cash—for a War Savings Stamp, for which the Government will pay you \$5 January 1, 1923.

"These War Savings Stamps are as safe as U. S. Bonds. They are the safest investment in the world because they are backed by the entire resources of the country, and the profit you make on them amounts to 4 per cent interest, compounded quarterly, on January 1, 1923.

"Every time you have money you don't absolutely need buy a War Savings Stamp. Every time you have a quarter you can possibly spare, buy a U. S. Thrift Stamp."

Your country needs your help.
