NO. 4

TOWN IS STILL WITHOUT MAYOR

COUNCIL TOOK NO ACTION LAST NIGHT

Monday Designated as Cleanup Day. Horse Carts to be Placed Down Town—Engineer Koon Makes Report on Sewer System Plans

Bend is still without a mayor. The City Council met last night but failed to elect a successor to Mayor Coe. There will be another meeting of the council Saturday afternoon. A timely act by the council was the setting apart of a cleanup day, when all property owners and tenants must put their premises in a clean condition. Monday, April 8, was set as the day, and those who do not clean up will be dealt with by the police department. The city will provide team and wagon to haul off refuse.

The council authorized Councilman Allen to have a frame shed erected at the rear of the Skuse Hardware store for one horse cart. Mr. Skuse having agreed to let the city use that ground. Another cart will be placed at the Wenaundy livery stable, free storage there being offered the city. This will place the carts closer to the business district.

Hids were ordered to be advertised for 10,000 feet of crosswalk lumber and for street sprinkling. The street committee was instructed to see the water company about getting a better water rate than the 10 cents a thousand gallons paid last summer for sprinkling water.

Preliminary Sewer Report.

R. E. Koon made a preliminary report on the sewer system work, submitting maps and explaining where the mains would run. The council will go with him tomorrow afternoon to look over a disposal location about two miles north of town.

Chairman French of the cemetery committee was instructed to confer with the city engineer and sexton and get the cemetery tangle straightened out.

George S. Young filed his acceptance of the position of city engineer. R. B. Gould filed a map of the proposed wall street extension.

Chief of Police Roberts reported 20 arrests in March and \$184.50 collected in fines and forfeitures.

City Treasurer Overturf submitted a report showing disbursements of \$1682.58 in February and March and that the April 1 balance was \$204.60.

The following bills were ordered paid:

B. W. L. & P. Co. water, light and extras.....	\$160.25
Geo. S. Young, eng. work.....	5.75
H. C. Ellis 2 mo. salary.....	60.00
V. A. Forbes, ditto.....	49.00
C. E. Morris, adwk bldg.....	1.00
R. B. Gould, eng. work.....	12.50
C. D. Brown, salary.....	100.00
S. E. Roberts, salary.....	100.00

PROCLAMATION.

Monday, the eighth of April, 1912, is hereby set aside as cleaning up day within the City of Bend. Citizens are requested to pile all rubbish, etc., in the alleys in rear of their lots. The city will furnish man and team for purpose of hauling away not more than one load to each lot. No manure will be hauled by the city free of charge.

H. E. ALLEN,

President of Common Council.
April 2nd, 1912.

TURKEYS CAN'T GRAZE IN NATIONAL FOREST

Area Applied for by La Pine Man Taken up Years Ago by Other Applicants, Supervisor Says.

Among the grasshoppers—born or yet to be born—of Crane Prairie and Dav's lake, in the upper Deschutes valley, there is great rejoicing. The 1200 turkeys which C. D. Schell of La Pine contemplated raising and fattening on these juicy insects will not be permitted to wander over that district, but horses, sheep and cattle will continue to roam there as of yore.

As reported in The Bulletin of February 7, C. D. Schell of La Pine applied to Local Forest Supervisor Harvey for permit to herd those fowls in the national forest. The territory sought being in the Paulina reserve, the application was referred to Supervisor W. W. Cryder at Crescent. Replying to an inquiry from The Bulletin, Mr. Cryder writes as follows.

"It was found impossible to consider Mr. Schell's application favorably, since the area in which he wished to graze his turkeys was fully taken up many years ago by prior permittees.

"I have not been advised that Mr. Schell has appealed from my decision."

FALLS 15 FEET

Three-year-old Child Has Remarkable Escape From Death

Falling 15 feet onto a pile of rock yet sustaining no serious injuries. The 3-year-old child of Richard Herold, a newcomer from Newberg, had a marvelous escape from death Monday.

The child was playing on the landing at the top of the steps leading up to the rooms over French's store and accidentally fell off. It landed on a pile of rock below and was apparently dead when picked up. However, an examination proved that the child was not seriously injured and within a few hours it was playing again.

Mr. Herold and family arrived Sunday from Newberg to make their home here.

BEND PARK MAN HERE.

J. W. Fox, a Portland salesman of the Bend Park Company's property, was here over the week-end, accompanied by William Strubbe and A. Oberwaller, both of Klamath and both purchasers of Bend Park residence property. According to Mr. Fox, his company has put a second picture machine on the road, which is to tour the state with a lecturer on Bend.

PORTLAND MAN TO BUILD DAM

NORTH CANAL WORK IS UNDER WAY

L. F. Gerdets Puts Big Force of Men Clearing Canal Right of Way—Railroad Building Spur Track to River to Handle Machinery

Contract for the construction of the diversion dam and the North Canal has been let by the Central Oregon Irrigation Co. to L. F. Gerdets of Portland, who has already set a force of men to work. Four months is given for completion of the contract.

The camp for the workmen was established yesterday at the dam site, a mile below town, about 30 men being at work already.

A spur is being built from the railroad to the dam site, a large force of men rushing this part of the work to completion so that the heavy machinery can be unloaded at the dam location.

B. R. Johnson of Portland will superintend the dam and canal work; H. McConnell will be in charge of the camp and J. A. Bernard is the foreman.

Clearing Right of Way.

Clearing of the right of way for the canal was begun yesterday. When work is got going at full blast about 150 men will be employed, Mr. Johnson said. The biggest part of the canal work will be through rock. Machine drills will be used.

A crusher for grinding rock to be used in building the dam will be brought in as soon as the spur is completed. This will probably be the largest crusher ever used in Crook county, and without a spur track to the river it would be almost impossible to bring it in. The track will be built to the point where the heavy piece of machinery is to be unloaded from the car.

Drilling for foundation for the dam is under way now, this part of the work being done by the C. O. I. Co.

Work to be Rushed.

Contractor Gerdets is expected in Bend tonight to spend several days seeing the work started off. His record for carrying out contracts shows that he is speedy, and that the dam and canal will be finished as rapidly as possible is expected by the company.

BRINGS STOCK FROM EAST.

George A. Bradley of Waterloo, Iowa, is in Bend on his way to La Pine where he has bought land and will make his home. Mr. Bradley has a shipment of thoroughbred stock on the way here, which is expected to arrive this week. The carload includes Gurnsey cattle and Duroc Jersey hogs.

GIRLS GET HARD FOUGHT VICTORY

BASKET BALL TEAM DEFEATS PRINEVILLE

In Fast, Rough Contest Bend Lassies Outdo County Seat Rivals With 12 to 9 Score—Band Welcomes Victors Home With Concert.

In a rattling good game the Bend girls' basketball team defeated the Prineville players at the county seat, Saturday night, by the score of 12 to 9.

From start to finish the contest was hotly contested, the score at the end of the first half being 7 to 5 in favor of the local team. It was a rough, fast game, and although averaging smaller and shorter than their opponents, the Bend girls covered themselves with glory by the way they handled themselves, the ball and whomever tried to get in their way. Also, the floor was covered pretty well at times, for there were spills a-plenty on both sides, with a great number of fouls called.

Girls Keep Their Heads.

One particularly creditable feature of the game, from the Bend standpoint, was the splendid way in which the local team kept its head, despite the fact that it played on a strange floor before a crowd that was openly hostile, catcalling and jeering whenever the visitors made a point, and especially when fouls were being thrown.

Those interested in the team say they are particularly anxious that when Prineville comes here for a return game every courtesy be shown the visitors, with no possibility of repetition of the incidents of Saturday night's game.

As usual, Angie Young distinguished herself by her quick work and excellent basket shooting. Miss Black was accurate of foul throwing; the centers played hard and well, and the guards contributed greatly to the victory by their steadiness.

In the first half Anne Markel and Cornelia Wilson played centers; Angie Young and Arrie Black, forwards; Ethel Holmes and Gertrude Markel, guards. In the second half Louetta Wornstaff replaced Miss Markel at center. Nell Markel and Iva West were substitutes, Jesse Hunter refereed, with Mr. Bechtel as umpire.

About twenty people autoed over to see the game, which was well attended.

The Prineville lineup was as follows:

Nora Livingston and May Campbell, centers; Hildreth Geyer and Elma Noble, Guards; Georgie Cleck and Mammie Bailey, Forwards; Avera Dobbs, substitute.

Band Meets Girls.

The team returned Sunday night by train, and their homecoming

made the occasion for celebrating. The band boys got together and went to the depot and when the train rolled in the air was full of music. The girls had remarked just before the train got here how nice it would be for the band to meet them, not suspecting that it really would be on hand to greet them. Autos were also in waiting and they were given a ride to their homes.

Return Game Here.

A return game will be played here on Friday evening, April 12. Another interesting contest is expected, the two teams being evenly matched, and a big crowd will no doubt see the contest.

ICE MAKING WILL START THIS MONTH

Machinery for Factory Being Received—Creamery Will Probably be in Operation First

Within three weeks ice making in Bend by the Central Oregon Ice & Cold Storage Co. will be started, according to R. G. Hall of the company. Mr. Hall returned Sunday night from Redmond, the ice storage plant there having been completed.

The building here has been finished and machinery for the factory is arriving, a carload being received this week. Another carload will come from Portland, and as soon as everything can be installed the work of changing Deschutes river water into pure ice will be begun. Ice for the company's plants at both Redmond and Madras will be made here.

Mr. Hall said that S. R. Cooper, the Prineville creamery man, will probably have the local creamery in operation before the ice making factory is ready. The machinery is already here and as soon as necessary shafting, which has been delayed in arriving, gets here, can be set going, turning out butter and other creamery products. Mr. Cooper is expected over from the county seat in a few days to look after his interests here.

MAINS EXTENDED

Park Addition Residents Will Get Better Water Service

Work of extending water main in Park Addition was begun by the Bend Water Light & Power Co. Monday, and residents in that part of town who have had to carry water for considerable distances are rejoicing that they can now get it piped into their homes.

The main will be extended along Wall street to Cascade street, along Cascade to Jefferson drive, along Jefferson to Rainier drive, along Rainier to St. Helens drive and along St. Helens to connect with the main already laid.

A large number of people will be served, this part of town having developed very rapidly the last six months.

MISS SATHER ENGAGED

Announcement has been made of the engagement of Miss Inga Sather to John B. Morton. Miss Sather is the oldest daughter of Mr. and Mrs. E. A. Sather, Mr. Sather being one of Bend's longest established merchants, and prominent as a successful business man. Mr. Morton is a railroad engineer, having charge of the maintenance on the Oregon Trunk from here to the Columbia river. He is a graduate of Cornell University.

NO ORDINANCE FORBIDS TENTS

CRITICISM OF CITY UNFOUNDED

Men Who Complain Were on Railroad Property—Lots for Tents Obtainable From Property Owners—Deposit Returned

The following is an extract from a letter which was received by H. E. Allen, president of the city council, from a Bend resident:

"My attention was called to a condition today that seems to me the City Council should give consideration. Two different people arrived here, both of whom shipped in two cars of stuff, including live stock—one from Iowa and the other from North Dakota. They told me that they found an ordinance prohibiting the erection of a tent within the city limits, and both of them seemed very much put out about it."

Mr. Allen points out that there is no ordinance regarding the erection of tents in the city. The men who complain tried to put up their tents on railroad property and were asked to move by railroad officials.

The Bend Company, when the matter was brought to its attention, said that it is willing to give every aid to newcomers who want ground for tents. It is only necessary to make a \$10 deposit with them to protect the property against damage, to get lots for tents, etc., and when vacation is made the money is returned. Other property owners also state they will gladly furnish locations for tents, etc.

FIRE ON ROOF

April Fool Blaze Caused by Tar Catching.

A fire that played April fool on Bend people and got two men into trouble caught on the roof of the new Boyd stone building Monday morning from a stove which was being used to heat tar for the roofing. No damage was done, the flames being extinguished in a moment. The fire department turned out in quick time but its services were not needed.

As an aftermath of the fire, Chief of Police Roberts arrested Case Beer and P. B. Johnson for having the stove on the building. The case was called before Recorder Ellis yesterday and continued for ten days.

BASKET BALL GAME FRIDAY

Friday evening of this week at Linsag's Hall the Blues basket ball team will play the Royal Neighbors team. The lineup of the teams will present some of the best players in town.

Before the game and during the intermission the band will give a concert in the hall.

"It's Humble====
but It's Our Own"

said a depositor a few days ago as he proudly drew \$500 for the final payment on a home he and his wife saved for years to buy. Like them, you and your wife can have a home of your own by depositing each pay-day or oftener, on a joint account in our bank.
