

OREGON STILL DRY, DECLARES FRANK EBBERT

BEER REGULATIONS DO NOT AFFECT HERE

MEETS WITH OFFICIALS

Mellon's Decision Will Hasten Passage of Anti-Beer Bill, Says Attorney—Procedures Against Violators Drastic.

(By United Press to The Bend Bulletin.) WET STATES FEW WASHINGTON, Oct. 25.—Only 11 states can sell real beer; Illinois, Maryland, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, California, Louisiana and Wisconsin.

Oregon is not affected in any way by the signing of regulations permitting manufacture and sale of beer for medicinal purposes, as the state law prohibits both, says Frank B. Ebbert, attorney for the Anti-Saloon league, who was in Bend Tuesday for a conference with law enforcement officials.

Thirty-five states are dry in spite of any action which national officials may take, Ebbert pointed out. California is the only coast state to be affected. The present congress is opposed to medicinal beer, and the anti-beer bill, which has passed the house, is held up in the senate only by a filibuster. Secretary Mellon's action of Monday will probably hasten senate action, said Ebbert who was in Washington when the Volstead act was passed, and is familiar with conditions there.

Few Able to Brew Further difficulties in the way of medicinal beer being circulated lie in the fact that 78 per cent of the physicians in the United States have never taken out a permit to prescribe liquor in any form, and that most of the breweries have been transformed, and would have to reorganize in order to resume manufacture. Knowing that the passage of the anti-beer bill is only a matter of days, few breweries would attempt to do so, says Ebbert.

The anti-beer bill would have passed before the congressional recess, said Ebbert, except for an agreement that the regulations permitting medicinal beer would not issue until after the recess.

Three Bills Up Now There are now three anti-liquor measures before congress; the beer bill, a measure extending the provisions of the Volstead act to certain territory acquired by treaty and not now covered by it, and a bill extending the power of the 18th amendment to every American citizen, wherever he may be. This latter is for the purpose of denying citizenship protection to Americans engaged in the manufacture and sale of liquor elsewhere in the world.

In his conference with law enforcement officials here, Ebbert will take up the question of possible procedures against liquor law violators, which are five in number; a fine and jail sentence under federal law; collection of double the amount of internal revenue, plus a penalty of \$500 for sale and \$1,000 for manufacture; an injunction, closing the property for a year, in case of persistent violation; fine and imprisonment under state law; an injunction under state law. All these proceedings may be had for a single violation, Ebbert stated.

POTATO DISPLAY SENT TO DULUTH

Evenly Graded Netted Gems Central Oregon's Exhibit At The National Potato Show.

Central Oregon's potato display for the National Potato show to be held at Duluth late this month was shipped Friday. It is composed of 32 Netted Gems, or as they will be entered, Russet Burbanks. The potatoes are evenly graded, both as to size and appearance.

Weston Appeal Argued Before Supreme Court

The appeal of A. J. Weston, convicted of murder in Deschutes county last fall, was argued before the Supreme court of the state last week in Salem, reports H. H. De Armond, special attorney for the state with W. P. Myers. The hearing was postponed from Tuesday on account of the funeral services for Judge Benson, who died Sunday. Announcement of a decision is expected in the near future.

ONLY 3 CASES TO FACE JURY

SERIOUS CHARGES ARE INVOLVED

Old Jury Will Not Be Called This Term — Judge Duffy Returns — Van Cleve, Anderson and Child Cases Will Come Up.

Only three criminal cases, but all of them involving serious charges, are ready for the Deschutes county grand jury when it meets, on November 3.

W. C. Van Cleve of Redmond is charged with arson, specifically the setting fire to the Redmond Juniper Products mill, which burned to the ground in July. A. E. Anderson faces a charge of larceny, in connection with an alleged shortage of over \$3,000 in the funds of the Bend Water, Light & Power Co., of which he was bookkeeper.

George Child is the one man now being held in the county jail, being charged with non-support of his wife and children.

District Attorney A. J. Moore is now preparing subpoenas for the witnesses in these cases. Circuit Judge T. E. J. Duffy returned Saturday from Pendleton.

POTATO QUEST IS SUCCESSFUL

ATTRACTIVE SPECIMENS FOUND FOR EXHIBITION AT DULUTH, PORTLAND AND SPOKANE—CAREFUL SELECTION MADE.

Success in securing attractive specimens for Central Oregon's potato exhibits at Portland, Spokane and Duluth potato shows is reported by County Agriculturist D. L. Jamison, who is making the selections. Potatoes of even size and shape are being secured in the varieties which are to be exhibited. Practically all will be between six and eight ounces in weight.

Potatoes shown at the Redmond fair were necessarily immature for the purposes of exhibition, but by the time the state shows open they will be in prime condition. Many growers who would not dig potatoes early enough to show at Redmond will assist in making up the state exhibits.

Several varieties will be shown in two classes, seed and commercial potatoes. There will also be exhibits of "Bend run," potatoes taken just as they come from the ground.

34,000 SHEEP SENT OUT DURING SEASON

Last Shipment of 25 Cars, Goes On Monday—Over 200 Carloads Sent From Bend Alone.

A train of 25 carloads of sheep left Bend Monday, billed for Caldwell, Idaho. This is probably the last shipment of the season, and brings the total shipped to something over 200 carloads, or over 34,000 sheep shipped from Bend alone during the fall season, according to J. C. Wright, local agent.

VOTE TO TAKE OUT STUDENTS

SEVEN ARE REMOVED AS RESULT

Parents' Association Decides By 48 to 12 Vote to Take Sons and Daughters From High School—Asks Removal of The Board.

After 60 people out of the 400 attending Tuesday's meeting of the Parents' association had voted on the question of keeping their children out of high school until any existing problems are settled, seven students were formally withdrawn Wednesday, the records of Miss Harriet Umbaugh, principal, showed. Forty-eight had voted to keep their sons and daughters out of classes. In addition to those withdrawn from school, there were a number of absences, a few of which may be actual withdrawals on which no notice has been given principal or registration teachers. The absences are only slightly in excess of the average daily number, however.

The vote Tuesday was taken after S. O. Watkins had advised another school strike backed by the parents.

MALFEASANCE CHARGED

A petition asking County School Superintendent J. Alton Thompson to start proceedings in circuit court against the school board, charging malfeasance in office, and misuse of funds, was circulated at the parents' meeting, and is to be presented later. The first part of the charge is based on the discharge of Mark A. Paulson and Frank I. Rockwell, former members of the high school faculty, while the second accusation is because of the board's action in paying the expenses of George Dewey, who was brought to Bend as a prospective football coach, but who was not employed.

Ministers Speak

Among speakers at the meeting were Mrs. C. J. Stauffer, Rev. S. A. Stenseth of the Scandinavian-Lutheran church, Rev. F. H. Beard of the Baptist church, Elder G. M. Thorp of the Seventh Day Adventist church, H. E. Nordeen, Frank Brobert, and Earl Houston.

Nordeen attacked the school budget. Elder Thorp praised the high school students for their recent action in striking. Houston said the board had been discourteous in allowing members of the parents' committee to stand when the committee called to present a resolution last week, and Rev. Beard was indignant at the idea of high school dances. Mrs. Stauffer wanted the high school closed and padlocked, a remark which drew wild applause from scores of senior and junior high pupils.

TO SURVEY NEW HIGHWAY ROUTE

DALLES-CALIFORNIA MAY GO BY WAY OF SEUFERT, REDUCING GADE TO 3 PER CENT—COMMISSION ACTS.

(By United Press to The Bend Bulletin.) PORTLAND, Oct. 25.—The state highway commission today ordered a survey made of the route for a new location of The Dalles-California highway. The new location, instead of going over the hill south from The Dalles, would run east to Seufert, then up an eight mile canyon, thus obtaining a 3 per cent grade. Six per cent is the lowest by the hill route.

POTATOES GOOD BUT QUANTITY LACKING

Extra good quality, but only about two-thirds of the ordinary yield, is the report on the Arnold district potato crop this year. About half of the potatoes in that section have been dug to date, says L. C. Roberts, who is in Bend Wednesday on business. There are not the usual number of potatoes to the hill, due to the frost of July 1 and 2.

ANNOUNCE JURY LIST FOR FALL

CIRCUIT COURT OPENS NOVEMBER 7

Thirty-one Jurymen Named For Service On The Petit And Grand Juries—Sixteen From Bend—Being Notified This Week.

A jury panel of 31 names has been issued by county officers for the fall term of district court, which begins November 7, the date on which these men are expected to report at the court house. Sixteen are from Bend, five from Redmond, two from Deschutes, four from Tumalo, one from Terrebonne, two from Sisters.

From this list will be drawn both the grand jury and the petit juries for the various cases in which trial by jury is asked, coming before the circuit court this fall.

The list follows: W. P. Gift, Deschutes; W. Glen Con, Deschutes; W. E. Claypool, Bend; R. N. Buchwalter, Bend; R. C. Colver, Bend; H. R. Smead, Bend; C. J. Monahan, Bend; Arthur Tift, Redmond; B. F. Livesay, Tumalo; R. N. Palmerton, Bend; Fred Simpson, Bend; Ray Cooper, Bend; E. J. Finnegan, Bend; W. R. Speck, Bend; L. E. Daigler, Tumalo; N. H. Gilbert, Bend; J. F. Van Allen, Terrebonne; George Roberts, Bend; Blaine Devers, Tumalo; Grover Gerking, Tumalo; W. J. Buckley, Redmond; Douglas Mullarky, Redmond; R. M. Doty, Sisters; J. T. Hartley, Tumalo; C. A. Beckwith, Redmond; H. K. Allen, Sisters; A. B. Davenport, Redmond; John Gagen, Bend; O. A. Shilling, Bend; John Newby, Bend; Frank R. Prince, Bend.

EBBERT URGES ENFORCEMENT OF DRY LAWS

"The moonshiner and the bootlegger are the most dangerous criminals in the United States today," was the statement of Captain Frank Ebbert in his address Tuesday night before a large audience at the Methodist church. "More men have been murdered in enforcing the liquor law, in proportion to the number engaged, than the United States lost in the great war."

Ebbert denied that there is as much liquor circulating now as before prohibition went into effect.

"In the first dry year, 22,000,000 gallons of liquors were withdrawn from bond according to government figures. But the last wet year, 2,200,000,000 gallons were withdrawn. The alcohol ward in Bellevue hospital, New York, had its 5,000 cots full almost every night in the old days. Now only 40 to 60 of them are occupied. If you are saying that the liquor law cannot be enforced, you are helping to spread propaganda which the wet interests are spending millions to inflate."

"The 18th amendment never will be repealed, but any congress, by a mere majority vote, can change the definition of intoxicating liquor so that 3 per cent beer can be sold over the soft drink counter—and that is what the wets are after, and will get if the people do not stay on the job."

"That will bring back 95 per cent of the former booze business, for 95 per cent of the 23 gallons per capita average consumption was beer."

"Whether you once leaned toward the wet side is not now the issue. It is, do you believe in law enforcement?"

"Ninety per cent of the law enforcement officers are trying to do their duty, but they are seriously handicapped. Popular support is necessary to successful enforcement."

A resolution prepared by L. D. West, condemning the action of Secretary Mellon in signing the beer regulation, was unanimously passed and ordered sent by night letter to Mellon and the Oregon congressmen.

The flag offered in contest by the Anti-saloon league was won by Miss Pearl Dutt's second grade room at the Central school.

No Trouble Is Anticipated In Marketing Hay

No trouble is anticipated in marketing all of Oregon's hay crop this year, according to L. A. Hunt, of Oregon Cooperative Hay Growers, in spite of the fact that there is a surplus in the state. A ready market can be found for it in other states, he declares in a letter to the Bend Commercial club. About 35,000 tons will be sold outside the state. The proposition which he makes to the Central Oregon growers has been taken up with the Farm bureau. Hunt is expected to come here soon to present the matter in person.

PAULSON CASE IS APPEALED

COUNTY SCHOOL HEAD TO HEAR TESTIMONY

Appeal Filed This Morning, Alleging Inadequate Support To Charges—Hearing To Take Place Within 30 Days.

Mark A. Paulson's appeal from the decision of the school board in confirming his discharge as high school principal, was filed Saturday with County Superintendent J. Alton Thompson, by Paulson's attorney, Paul C. King.

J. C. Rhodes, clerk of school district No. 1, is allowed ten days in which to file the board's answer to the appeal, after which Superintendent Thompson has 10 days in which to set the date of the hearing, so that it will probably take place within 30 days.

Inadequacy of support to the charges on which Paulson was dismissed is made the basis of the appeal. His services as principal were dispensed with on September 27, on charges of insubordination and incompetency. The hearing was held Tuesday and Wednesday of last week, the board reaffirming its previous decision.

CRASH OCCURS ON MILL SPUR

Three freight cars and a switch engine were derailed and damaged, one of the cars being driven by the weight of the train behind it far out in an alfalfa patch near the Brooks-Scanlon lumber yard Tuesday when too little clearance was allowed between the engine and the cars following in switching. No one was injured. A wrecking train was on its way here from Fallbridge this afternoon. As the track was broken, no lumber may be shipped from either mill until the damage is repaired, which will be early tomorrow, railroad men expect.

The car directly behind the engine swung crosswise between the tracks, one truck taking the switch, throwing the second car into the ditch. It was stripped from its trucks and nosed its way through a wire fence and into the hay field.

The second car was almost as badly damaged. Meanwhile the engine was thrown off the track. The one car ahead of the engine crashed into another car, standing on the track, damaging it slightly. The track was broken and twisted in several places.

MANY EXPECTED TO ATTEND BEND NIGHT

Great things are expected of the local Commercial club members in the way of representation at the Fremont-Wastina Community club's "Bend Night," Saturday. Representative H. J. Overturf is to be here. The meeting will begin at 7:45 o'clock. There will be informal dancing after 10 o'clock.

These towns being in Bend's trade territory, Commercial club officers are urging as many members as possible to make the trip Saturday. The hosts are promising a good time.

COUNCIL WOULD DENY BOYS USE OF CARD ROOMS

POOL ROOM LAW TO BE ENFORCED

PLAN NEW ORDINANCE

School Board's Offer Prompts Discussion At Council Meeting—Danger To Children Playing On Pavement Pointed Out

Card tables will soon have the same legal status as pool tables in Bend if plans laid by the city council Friday are carried into effect. On motion of L. L. Fox, City Attorney C. S. Benson was instructed to prepare an ordinance prohibiting the presence of minors in card rooms, if the present ordinance does not so provide.

This action followed a general discussion of the situation, the matter being brought to the council's attention by a letter from the school board, offering the assistance of the truant officer in enforcing the law. No action was taken on the offer. Chief R. H. Fox was authorized to proceed with rigid enforcement of the present law.

J. S. Innes declared that 18 years should be the age under which boys should be denied admission into the pool rooms, unless the state law specifies 21. He said the card rooms were more objectionable than pool rooms, because of the greater gambling temptation. H. E. Nordeen urged that the city cooperate with the school board.

Must Repair Hospital

G. H. Baker then qualified as an expert on the subject, and stated that he knew of nothing on the face of the earth which could be gambled on. He disagreed with Innes. N. H. Gilbert pointed out that if the law specified the age of 21 as the dividing line, those under 18 might be kept out. Fox's motion carried unanimously.

Great danger of children exists on Delaware avenue as a result of so many of them playing on the pavement, it was reported. The matter was left in the hands of Chief Fox.

The detention hospital is in bad condition, H. E. Nordeen reported, and must be repaired before winter sets in.

Signal Lights Are Effective

Immediate steps will be taken to order in a sewer on Minnesota avenue, past the city hall to the new hospital, it was decided. One property holder refuses to give his consent to the sewer going in, it was reported.

The matter of wire netting to protect school children crossing the foot bridge, suggested in a letter from the school board, was referred to the streets committee with power to act.

A petition asking for a street lamp in Boulevard addition was read and referred to the streets committee. Graveling of cross walks and other streets repairs were reported by this committee. The police committee reported that the signal lights are installed and have been tested, and found to be practicable.

BIGGER HOLES WILL TAP ARTESIAN FLOW

Director of State Bureau of Mines Due In Bend Soon To Oversee The Fort Rock Work.

To direct new well drilling work in the Fort Rock valley, Henry M. Parks, director of the state bureau of mines, will arrive in Bend within a few days, according to a letter received Wednesday by State Representative H. J. Overturf. Larger holes will be sunk in order to subject the deep flow of water to an even more severe test than that recently made on the Ernst ranch.

The state appropriation secured at the last legislative session through the efforts of the Central Oregon delegation is sufficient to put down three more wells, it is estimated. Drilling machinery to be used in sinking the new holes is being unloaded from the cars here for shipment to Fort Rock.
