FIRE HAZARDS

In the terrible experience through which Prineville has just gone there is a lesson for every other community in the state, Bend included, and that is the importance of doing away with fire hazards. It is true, of course, that anywhere a depraved creature may set buildings on fire, as is thought to have been the case in the Crook county town. That possibility is a hazard which cannot be guarded against. It is equally true that much can be done to lessen the chances of spreading of a fire even of incendiary origin and to make the work of control easier and more certain of success.

Time and again Fire Chief Carlson has pointed out this fact in his work in Bend. The subject has been harped upon at Commercial club meetings, in the local newspapers, and in talks to the school children but it is of ever present importance. The Prineville fire gives an opportunity of especial value to mention it again.

Compared with conditions existing before the creation of the Bend department our local situation is now almost ideal. By education and counsel, by inspection, sometimes by the use of necessary force, the department officers and members have worked a vast improvement in the city. There is still, however, much to be done. Things are better than they were but they may be made better yet. The fire department will stay on the job. In return it asks the active cooperation of every citizen and property owner. This should be given freely.

PHOTOGRAPHS AND SCENERY

A good deal has been written from time to time about the wonderful fishing to be enjoyed in the lakes and streams of Central Oregon. Truly it is a subject on which much can be said. It seems as though wherever one casts his fly there are trout waiting to rise. The full creel is the rule. As the roads open to the lakes and streams and into the mountains the fishermen go forth and they rarely return empty handed.

How many, we wonder, realize another of the possibilities for enjoyment that comes with the opening of the roads and the opportunity to get out into the forests and the hills. We refer to amateur photography. Just as here in Central Oregon we have fishing that is unexcelled anywhere we have also every sort of scenery to be captured on the photographic film and brought home to entertain the visitor or to recall pleasant outings.

The skilled professional photographers of Bend are constantly setting before us scenic pictures that tell the wonderful story. What an opportunity they disclose for everyone with an eye for the beautiful and a good camera. The good pictures have by no means all been taken. On every side there is the chance for a new view. There is still many a somewhat out-of-the-way spot that will reward the finder with a remarkable photograph.

And some day it will be worth while for the Commercial club to hold an exhibition of photographs of local scenery.

MAIL TO TUMALO

The recent inauguration of rural mail service into the Alfalfa section is a most desirable thing both from the viewpoint of the people who are served and to Bend. On the one hand the families living along the route are brought in closer touch with the rest of the world through a daily mail service; on the other a greater opportunity to extend their trade relations is given the local merchants. In view of these things one wonders if any other opportunities exist for new mail routes and immediately his attention is called to the Tumalo situation.

The Tumalo mail is now carried to the town from the railroad station at Deschutes. It is a roundabout journey, so far as mail from Bend is concerned, and there are frequent delays. By road, on the other hand, it is a direct course and the highway is improved for the greater part of the way. If the mails went from the Bend postoffice to the Tumalo office, there would be a considerable saving in time and a closer relationship would be established between the two communities.

The subject has been discussed here in the past; we are not so sure but that a Commercial club committee was once appointed to see what could be done about the matter. We are sure no final report has ever been made; perhaps the committee is still

at work. If anything can be done to produce the desired result it would be a good thing for both Bend and Tumalo.

In the past few days all Liberty bonds issues have sold at par or better. It is reasonable to expect that with improving conditions they will go above par thus fulfilling the prophecy made when they were issued. You helped your country by buying yours. Did you help yourself by holding them? If you did your financial reward is coming.

Last winter we heard the cracks in the down town pavement compared to a crack in a lip that healed in time. Since then we have been waiting for hot weather to start the healing process. Hot weather is here and the cracks remain. Now we are waiting for contractor Reed and his explanation.

Prineville has had a staggering blow but the town will come back. There are too many resources in the shape of timber, agriculture and live stock back of the town and too many enterprising citizens in it to let it slump.

In a Portland paper we find the headline, "Brodie delivers speech in Siam." Now, if that had only been Siamese we would have known how fast our Oregon minister was getting along.

The German mark is beginning to recuperate. A dollar will buy 270 of them instead of 300 as was the case recently. American tourists will have to revise their budgets.

What extremes you find in the business world. Some folks are in the abstract business, while others yet again, are in the concrete.

Fifteen Years Ago

(From the Columns of The Bend Bulletin of June 7, 1907)

The Bend, Madras & Shaniko Stage company will soon introduce the use of automobiles on a section of its line between Bend and Shaniko, supplanting horse drawn vehicles.

C. M. Redfield, local superintendent for the Deschutes Irrigation & Power Co., announces that work will be commenced soon on a 60-inch stave pipe, or flume to be built across the old river bed in the Powell Butte region.

The crew that is working on the extension of the Arnold ditch reports that rapid progress is being made.

Three new buildings are under construction at Silver Lake, which is making rapid growth.

Theodore Aune reached Bend Wednesday evening from a trip to the east, bringing with him his bride, formerly Miss Martha Olson of Ashland, Wisconsin.

H. J. Overturf returned to Bend Saturday from Shaniko and has gone to work again for the Pilot Butte Development Co.

Elmer Niswonger has left for Tennessee and will bring back his wife and family on his return to Bend.

Severt Debing has applied for a license to sell spirituous, vinous, and malt liquors in Bend.

A daughter was born to Mr. and Mrs. C. M. Redfield last Sunday at Redmond.

REDMOND STUDENTS' BOOKLET IS ISSUED

"1922 Juniper" Is Published By Union High School—Printing And Binding Done Here

The "1922 Juniper," published by the students of Redmond Union high school, was issued Tuesday. It is a booklet of 90 pages, descriptive of the school life of the two years since the last "Juniper" was issued, and is dedicated to the new high school building. Members of the staff of editors were Ernest Hauser, Marjorie Wells, Bartlett Kendall, Cecil Holloway, Paul Marsh, Frances McCormack, Leland Numbers, Fay Miller, Ronald Johnson, Ione Wimp, Gertrude Jarrard and Katie Ruehr.

Attractive illustrations, including creditable cartoons drawn by students, are plentiful, and the literary style of the departments is of a high standard.

Printing and binding was done by The Bulletin job printing department, typesetting and makeup being done in Redmond.

LARCENY COMPLAINT ORDERED DISMISSED

Following preliminary hearing in justice court Monday afternoon, dismissal of the complaint was ordered in the case of J. P. Burns, charged on a complaint by M. W. Pettigrew with larceny of a team of horses from Pettigrew's pasture.

MORROW LAUDS PIONEER SPIRIT

Bend's Enviably Reputation Deserved, Judge Declares In Forum Address.

Not a man's surroundings, but the spirit that prompts his actions, makes him a pioneer; the spirit that causes him to work for the ultimate good of his community, not for immediate personal advantage, said Judge Robert G. Morrow in his able address at the Bend Commercial club luncheon Wednesday. Bend's citizens must have this spirit, or the city would not have the enviable reputation which it now enjoys, he declared.

"Bend has a good start. She has gained a reputation as a clean, progressive, energetic city, and will so remain so long as her citizens are devoted to maintaining that reputation. I have been here for several days, and the longer I stay, the more I am convinced that Bend is entitled to her reputation," said Morrow.

The pioneer spirit is that which looks ahead, and insists that the things that are done now are done for posterity, Morrow stated. The fact of being a pioneer carries with it a responsibility. The outstanding characters of history have been men who felt this responsibility, he emphasized.

City Looks Vital

No city can prosper without this type of citizens, said Morrow. Every community has problems, and some of its citizens must work out their solution, he said.

"Many a town has lost big industries because its schools, churches were run down and its streets poorly kept. Men of means are usually men of character, and before they will become citizens of a town they investigate its conditions; they visit the business men, look over the residence district, and observe the streets, to see what their children will be up against. If it is a 'bum town,' they stay away," he declared.

Alexander Hamilton and Aaron Burr were cited as men of exceptional ability, one of whom had the pioneer spirit, the other lacking it. "Both will be remembered in history, but which would you rather be?" the speaker asked.

Pioneers Gifted Men

Oregon has been enriched because of the unusually gifted men who were her pioneers, and who drafted her constitution, said Morrow. Oregon's schools stand at the forefront in America, and her churches are equally noteworthy, as a result of their forethought, he declared.

J. A. Easton, president of the Commercial club, presided. Miss Alice Stockmon sang two solos, accompanied on the piano by Mrs. A. E. Hill.

CHURCH WORKERS TO CANVASS FOR HOME

Silver Tea Announced For Friday Will Benefit Plan For Children's Relief.

Organization of church workers to canvass the city for subscriptions to aid in financing the Children's Farm Home near Corvallis, will be effected Friday during a silver tea to be given at the W. P. Myers residence at 34 Portland avenue. Funds received at the tea will also be for the benefit of the children's home.

The tea is to be under the auspices of the Christian church and will be from 2 to 5 o'clock in the afternoon and from 7 to 10 o'clock in the evening. All interested in the movement are invited to attend, the presence of husbands being especially requested for the evening.

LOCAL MAN GETS BACHELOR DEGREE

Calvin R. Smith, who received the degree of bachelor of science at O. A. C. in the commencement exercises held this week, returned to his home in Bend this morning. He is a son of Mr. and Mrs. R. M. Smith, and a graduate of the Bend high school. He has completed the four-year course in commerce at the Corvallis institution.

CHANGE OF CHANNEL SPOILS EXPERIMENT

Results of two years' experimental work in the control of poison hemlock on the Sisters-Metolius range have been wiped out by a change in the channel of the Metolius river. Grazing Examiner Jack Horton found when he visited the eradication experiment plot at the headwaters of the Metolius Saturday. Snakes which had been placed to mark individual plants and the different methods used, had been washed away, he reported on his return to Bend.

MAZAMAS PICK THREE SISTERS

Mountain Climbers To Take Third Outing In Central Oregon.

PORTLAND, June 2.—The Mazamas have issued a prospectus of their twenty-ninth annual outing to be held in the Three Sisters region from August 5 to 20. The party plans to establish permanent camp on the western base of the Middle Sister, a few miles from Frog camp on the McKenzie Pass highway. From here they will make climbs of each of the Three Sisters, the Husband Broken Top, Bachelor and the Wife. They will also take a trip around the mountains, a fishing jaunt to one of the six lakes accessible from camp, a flower hunt through Lost creek valley to the falls, explore glaciers and ice caves and numerous other phenomena.

The Sisters region affords an unusual opportunity for geological studies because of the pronounced volcanic features; it affords excellent climbs and from a scenic standpoint is one of the most beautiful mountain areas in Oregon. The Mazamas last spent their outing there in 1916. They were in Central Oregon again last year.

The Mazamas will reach their camp from Eugene over the McKenzie highway by automobile and on foot from Frog camp. Non-members will find splendid opportunity for climbing qualifying peaks while on the outing.

The prospectus contains detailed information as to proper equipment and rules and regulations. The outing is in charge of Miss Martha E. Nilsson, chairman, assisted by Charles J. Merton and E. T. Vajjant.

TWO RETURN FROM TRIP TO SCOTLAND

Mrs. A. M. Rae And Son Back After Absence of Nearly a Year—Visit In Edinburgh.

Mrs. A. M. Rae and son, Stuart, returned Monday night from a trip to Scotland, where they went last summer, leaving here July 9. They sailed from New York on the steamer Columbia to Glasgow, going from there to Edinburgh, where they have spent most of the time visiting with relatives. On the way back they stopped for a short time in Washington, D. C. Mrs. Rae's husband is a foreman in the Brooks-Scanlon mill.

A party to celebrate the home coming of Stuart Rae, formerly a student in the Bend high school, was held Monday night at the home of Ervin McNeal, guests being Glen Burch, Franklin Toomey, Laverne Whitmore, James McNeely, Gurden Dutt, Donald Hudson, Gordon Valitchka, Gerald Hicks, James Blaisdell, Leo Harryman, Elmer Johnson, Phil Philbrook, Ed Norcott, Wilbur Watkins and Michael Mahoney.

SIGN CONTRACT FOR TUMALO COMPLETION

District Directors And Officials of United Contracting Company Complete Negotiations.

A contract for the completion of the Tumalo irrigation district was signed Saturday by directors of the district and A. J. Welton and Judge A. J. Derby, representing the United Contracting company. The amount of compensation mentioned in the contract is \$318,751.75. Over 450 men will be employed, work to begin within 40 days.

A dam will be built just below the county bridge, inside the city limits of Bend, and a feed canal five miles in length, to the Tumalo ditch built several years ago. C. M. Redfield will be the engineer in charge.

THE DALLES FIRM RESUMES AGENCY

Walther-Williams Co. To Have Charge of Dodge Sales—R. S. McClure To Be Manager.

The Walther-Williams company of The Dalles has resumed its management of the Dodge Brothers automobile agency here, given up over a year ago. The company has taken a lease on the Saylor Garage & Service Shop, which will be managed by R. S. McClure, formerly the Dodge agent here, assisted by A. W. Bontreger, who will be in charge of the parts and service department.

This Beautiful Set of Six Brushes can be had for--

\$3.25

Come in and ask us about it.

MANNHEIMER'S

TUMALO LAKE IS NOW OPEN EITHER BY ROAD OR TRAIL

Attractive Spot Easy To Reach If Once Way Is Known.

Tumalo lake is one of the attractive spots near Bend which can now be reached by road and trail, but which is little visited because the routes to it are little known. It is possible to drive to the homestead two and one-half miles from the lake, but the road which was in use several years ago, on the south side of Tumalo creek, was badly cut up while the Shevlin-Hixon cutting was going on and is hard to keep track of because of the many woodcutters' roads branching from it. A few cars have made the trip this year. This road turns off the Tumalo hatchery road a quarter of a mile this side of the brickyard.

An easier road to locate is one that requires one mile more of hiking. Going out beyond the hatchery, it crosses the Columbia Southern canal,

and up the north side of the canal for a quarter of a mile, until the road branches away toward Broken Top. Under favorable conditions, it is possible to drive across the canal here and on to the headgate on the south side; but cars have recently been mired down in attempting this trip.

Around the bend in the canal from the place where the road leaves it, one may cross the canal on a log; from this point there is a good trail to the headgate. Here it is necessary to cross Tumalo creek on the dam, and to travel through the bottom land, then up a hillside to the homestead. Following on up the south side of the creek, a trail is encountered which leads across a small creek and is well marked all the way to the lake. Along this trail may be seen some interesting Indian writing on a stone.

Tumalo lake is at its prettiest in the fall, when the leaves have turned red; but even now it is well worth visiting.

JOBS FOUND FEWER THAN JOB HUNTERS

More job hunters than jobs are reported by Miss Nell Markel, assistant director of the recently created employment bureau of the Bend Commercial club. Applications on file for work, mostly from out of town, total 19, with no requests for men, she said.

BOARD TO MAKE NO EFFORT TO AVOID RECALL

(Continued from Page 1.)

countant selected for the audit.

New Teachers Named

That directors appointed to fill vacancies occurring on the board will serve for the remainder of the unexpired term was the opinion of State Superintendent J. A. Churchill reported to the board. With the appointment of a successor for Foss tonight, George P. Gove will be senior member of the board, and as such entitled to the chairmanship under the

state law.

Letters from G. W. Ager, newly elected city superintendent, were read, showing that steps have been taken to fill all vacancies at present existing in the faculty of either high schools or grades. The board signed contracts with Leo Cozman and Chester Klink as high school instructors, and with Mrs. L. J. Cody for the grades. On the recommendation of Ager, Miss Florence Hudson and Miss Alameda D. Eckert, both graduates of the Monmouth normal, were elected to grade positions, and contracts ordered mailed the applicants.

Rhodes Granted Leave

Discussion of district finances closed with a statement from Chairman Foss that enough funds will be available to run the schools until the first of the year. He suggested that at that time the \$45,000 note issue be renewed with the addition of \$5,000.

Extracts from the annual report of S. W. Moore, retiring city superintendent, were read.

A three weeks leave of absence was granted Rhodes, and J. Alton Thompson, formerly district clerk, was named to serve during his absence.
