### A Welcome Pay Envelope

**H**ONEST, old man, I don't know what we would have done without that AETNA ACCUMULATIVE ACCIDENT POLICY.

When a fellow lives on the "no-work-no-pay basis" and has nothing to fall back on, a cracked head and a broken arm don't get him anything. All he can do is sit around and wonder how the wife can scrape together enough to keep the family going. He just naturally worries himself twice as sick.

But this Aetna Accident Policy takes the place of the pay envelope. Gives you \$50 a week as long as you're totally disabled by your injuries and \$25 a week even though you are only partially disabled by them. Pays the bill for a surgical operation, too.

All you do is sit back and tell your broken head and arm: "All right, boys, take your time about healing. I'm provided for until you're fit again."

### AETNA-IZE

Safeguard YOUR income against accident. Protect YOUR home from want. Let us explain how easy it is—how cheap. Write or telephone.

Do you want pure drug and drug sundries, fine perfumes, hair brushes, and toilet articles? If so call on

C. Y. LOWE, Bandon

### NEW LEASE LAW FOR SUMMER HOMES

According to the terms of the Agricultural Appropriation Act recently passed by Congress, it is now possible for responsible persons to lease, for periods not exceeding thirty years, not to exceed five acre tracts within the National Forests for the construction of summer homes, hotels, stores, or other recreation or public conveniences. This announcement was made today by the District Forester at Portland, Oregon.

Heretofore, camping sites, hotel sites and the like could be rented, at a nominal fee, under special use permit. While this permit was given for an indefinite period, it was revocable in the discretion of the Department. Under the terms of the new law, however, such sites may be leased for a term of years and the lease can be canceled only for a violation of its provisions. It is, of course, optional with the applicant whether he obtains his camping site under special use permit or under lease. It is obvious that a man desiring to secure a location in the Forest for a summer hotel would feel that his investment was better protected by a lease.

It should be understood that this lease law is not a homestead law in sense, and the title to the land remains with the Government. At the expiration of the lease, unless renewed the lands will revert to the Government. The improvements, however, may be disposed of by the owner as provided in the lease. The Secretary has no authority under this law to issue patents.

Many have availed themselves of the camping site privilege, and as a result there are many summer homes within the National Forests of the Northwest. There are still many scattered lots and surveyed tracts which offer splendid opportunities for recreation grounds in the Forests of Washington and Oregon, notably in such localities as Klamath Lake, Oregon, Lake Chelan, Lake Keechelus, Lake Quenilt, and Crescent Lake, Washington.

### THE THRICE-A-WEEK EDITION OF THE NEW YORK WORLD

Practically a Daily at the Price of a Weekly. No other Newspaper in the world gives so much at so low a price.

The year 1914 witnessed the outbreak of the Titanic European war which makes all other wars look small. You live in momentous times and you should not miss any of the tremendous events that are occurring. No other newspaper will keep you so well informed as the Thrice-a-Week edition of the New York World.

Moreover, a year's subscription to it will take you far into our next presidential campaign and will give to western readers the eastern situation. It contains a vast amount of reading matter at a very cheap price.

The Thrice-a-Week World's regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and the SEMI-WEEKLY BANDON RECORDER together for one year for only \$1.50. The regular subscription price to the two papers is \$2.50.

It is expected that the Secretary of Agriculture will approve, in the near future, regulations which will effectively carry out the provisions of this law.

### INCREASE IN MEAT PRODUCTION ON THE NATIONAL FORESTS

According to an announcement just made by the Secretary of Agriculture, the grazing permits issued on the National Forests for the season of 1915, reveal not only the fact that these receipts will contribute to the public revenue approximately \$200,000 more than last year, but they also show a material increase in the number of cattle. In fact, the increase of 92,656 cattle and horses over the allowance for 1914 is accompanied by a decrease of 130,881 sheep and goats, showing that in many parts of the West sheep are giving way to cattle.

This increase in the number of cattle permits is accounted for by the high price of beef, which has encouraged many farmers and former sheepmen to go into the cattle business. Conditions vary, however, in different parts of the country, and the grazing allowances indicate the relative importance of the stock business in the several regions. District 2, which embraces Colorado, Wyoming, South Dakota, Nebraska, western Kansas, northern Michigan, and northern Minnesota, may graze the largest number of cattle, while District 4, comprising Utah, southern Idaho, western Wyoming, eastern and central Nevada, and Northern Arizona, is given permits for the largest number of sheep. In District 6, which covers Oregon, Washington and Alaska, authority has been given to issue permits for 159,250 cattle and 1,380,500 sheep. In this district there has been an increase over last year of about 10,000 cattle and an almost equal decrease in sheep. In fact, in the Northwest the situation appears somewhat analogous, for while many stockmen are going into the cattle business because beef is high others are selling off their sheep because wool and mutton prices have soared to unusual heights. As a result, it is expected that there will be a still further decrease in the number of range sheep next season. In spite of this fact however, the Northwest is still one of the localities where the demand for sheep range on the National Forests is far in excess of the supply.

The increase in revenue, of which the States receive 25 per cent, is brought about not only because the rates for cattle are somewhat higher than for sheep (48 to 90 cents per head per year for the former and 13 to 18 cents for sheep,) but is also due to the fact that the grazing charges for cattle are slightly higher this year than last. At a recent meeting of stockmen, wool growers, and government officials, the matter of fees was taken up. It was admitted that the fee for cattle was low in proportion to the charge for sheep, and it was agreed to raise the charge for cattle on a basis of one cow being equal to four sheep. Thus the present charge for cattle per head on government range is four times that of sheep.

**FIR MOUNT FACTS**

Mrs. Tom Buckle is sick. Dr. Gage is in attendance upon her. She has six little children, the oldest not yet six years old and the youngest a few months old.

The Study club failed to meet this week, owing to a slight misunderstanding as to the place of meeting.

The Prosper Literary Society gave a pleasant social at Prosper hall recently. A good lunch was served and an all around good time was reported.

The Prosper school house has its yard fenced from the wandering bovines of the neighborhood. The school is so crowded with children that part go in the morning and part of them in the afternoon.

Born—on April 20th to Mrs. D. Sunman, a fine 9½ lb. boy.

Mr. Dupont has bought 15 acres in Fir Mount, adjoining Mrs. A. D. Hack's place. He intends to build a home in the near future. Himself, wife and family will be a pleasant addition to our small community.

The Bandon Library has requested the loan of some of our study books on South America. It is certainly a wonderful country with rivers, 100 miles wide and ranches that from one to four days riding to go across them and cities that rival New York in size.

Lee Neeley has added a new porch to his pretty little home.

Sweet corn and beans are up and strawberries will soon be ripe in several gardens. Young fruit trees, including apricot, peach, pear and quince, are laden with fruit. Cherry trees do remarkably well on the high bench land.

Mrs. A. D. Hack is trying "spells" for chicken feed; so far it is doing well. She thinks it will withstand the long summer drought better than grain will.

## ACT QUICKLY!

Delay Has Been Dangerous in Bandon

Do the right thing at the right time Act quickly in time of danger.

In time of kidney danger Doan's Kidney Pills are most effective.

Plenty of evidence of their worth. Mrs. M. Keibelbeck, 1010 Birch Ave., Cottage Grove, Ore., says: "I was caused much annoyance by the kidney secretions. I never found anything that would help me until I began using Doan's Kidney Pills. They benefited me in every way. I use this medicine once in a while and it keeps me free from kidney complaints."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Keibelbeck had. Foster-Milburn Co., props., Buffalo, N. Y.—adv.

### PORT ORFORD REPORTS

(From Port Orford Tribune.)

Marion Zumwalt, who for the past several years has been a member of the Point Arena Life Saving crew on the California coast, returned to Port Orford last week and in the future will be identified with his brothers in the management of the large Zumwalt dairy farm on Sixes.

P. H. Poole, of the firm of McKenzie & Poole made a business trip to Bandon last week, returning Monday.

John Downs a resident of Elk river was brought down here Friday evening by deputy sheriff B. W. Dean charged with insanity. The man was examined by Dr. Dunlap Saturday morning, before Geo. B. Stafford, J. P. acting as Judge. The unfortunate man was committed to the State Hospital for the insane.

While enroute to Bandon last week, Rev. Hoyt was in some manner thrown from the stage and received severe injuries to one arm and shoulder. We are glad to say however, that the Reverend gentleman is getting along nicely, and will not be left a cripple.

J. R. Hurst, mining in the headwaters of Lobster Creek was a last week's visitor, on business, of course. E. Oakes was down from Bandon last week and spent several days here inspecting and passing upon some 15,000 ties that are in the woods awaiting better roads and the rebuilding of the wharf to be hauled into town for shipment. The total number of ties now cut and ready to be shipped from Port Orford when hauled runs close to 50,000.

Mr. Mrs. M. D. Sherrard motored down from Bandon Monday in a Dodge auto, for which Mr. Sherrard has the southern Coos and Curry county agency. The car, which is the first Dodge to reach Port Orford, was much admired and its good qualities are not all in its looks else it could have made the run from Bandon here at this time of the year without chains and without trouble as it did. Mr. Sherrard is enthusiastic over the way the machine handles itself in bad places and believes that it is especially adapted for such roads as we have along this part of the coast. Mr. and Mrs. Sherrard returned to Bandon Monday afternoon.

F. B. Tichenor returned last evening from a trip to Portland. He is very much encouraged over the outlook in regard to the establishment of steamer service between Port Orford and that city in the near future. A member of the Portland Chamber of Commerce will visit our town shortly, when it is hoped that the necessary arrangements for putting a steamer on the run will be completed.

Mr. Tichenor was accompanied on his return by Dean Mastenbrook, of Canby, Or., and H. E. Bacon of Prosser, Wash. Mr. Mastenbrook is a young jeweler—he likes the looks of what he has seen here, and may decide to locate and grow with the town. Mr. Bacon has interests at Coos Bay, and is visiting this section for the first time and may invest here before leaving.

While making ties in the woods near here last Friday Arthur Mayer received a painful wound that is feared will cost him the sight of one of his eyes. When driving a wedge with a sledge hammer, a piece of the steel flew and struck him in a corner of the eye, cutting a gash in the eyeball. Dr. Robbins probed the wound as much as he dared but could not determine, definitely whether or not the steel had been removed. Upon the Dr.'s advice the injured man started that evening for Portland, leaving in a buggy and being met on the road with an auto from Bandon, to consult a specialist.

Hech and formally committed to the asylum by Justice Geo. B. Stafford.

### LODGE DIRECTORY

**Masonic.**  
Bandon Lodge, No. 130, A. F. & A. M. Stated communications first Friday after the full moon of each month. Special communications Master Masons cordially invited.  
WALTER SABIN, W. M.
