LOCAL BOWLERS BEST FIVE FROM MARSHFIELD

BANDON TEAM TAKES TWO BEST OUT OF THREE GAMES AND HAS TOTAL LEAD OF 85 PINS IN FRIDAY NIGHT'S TOURNAMENT—TEANEY ROLLS HIGH SCORE—RETURN MATCH FRIDAY NIGHT.

Bandon's bowlers took the visiting five from Marshfield into camp, in the first of a series of match sets, on the Arc Light alleys, Friday evening. The final score gave the local team a lead of 85 pins.

Taken as a whole the bowling of both teams was poor, only two men rolling over 200 in the three games. Teaney, for Bandon, was high for the evening with a score of 235 and his team-mate, Colgrove, was second best with 215. Conner, with 187, rolled high for Marshfield, and also had the high average for the three games, 178. For second high average, Colgrove beat Teaney by one-third of a point.

Marshfield showed far the best form, but were unfamiliar with the alleys. The Bandon team was picked up at the last moment and except for one or two, had not bowled but very little for several months. A return match will be rolled in Marshfield, Friday evening of this week.

The scores for the evening, by games, were as follows:

BANDON POSTMASTER BUYS BIG CURRY COUNTY RANCH

The Port Orford Tribune prints the following in its last issue: "A deal has recently been closed whereby Postmaster Sweet of Bandon becomes the owner of the old Joe Noy place on Elk river, which for the past several years has been owned by T. C. Clark. This place consists of 960 acres of land, and is one of the best dairy farms in this vicinity. Much of the bottom land lying along the river is still in its wild state, and the farm is susceptible of much improvement. It is understood that Mr. Sweet will not take charge in person for the next year or so, and that in the meantime Dave McKenzie will have charge of the place."

TWO MILE TO HAVE BIG CELEBRATION JULY 4TH

"Come on out and bring all of your friends and relatives." That is the good word which is being passed around by the committee in charge of the picnic celebration to be held on the upper Two Mile, Fourth of July. They are making preparations for a big time and a big crowd and they say the program is to be the best ever seen in his part of the state. Dancing is to be one of the big attractions and a new hall is being built by Chas. Richert, E. L. Strader and Ed. Young. The hall will be one of the largest rural district gathering places in the county and will be used for church and Sunday school services as well as a community social center.

RIVER SURVEY FINISHED

Engineer Donald Charleston, who with a crew of men, has been working on a survey of the river for several days, reports that the job will be completed today and that the crew will leave tomorrow to make a hasty survey of the Umpqua bar. As soon as they return the boring survey, to determine the condition of the bar here, will be commenced. In making this survey the tug Kihyam and a gas boat will be used. Junior Engineer Polhemus, who was here last Friday, announced that if the boring survey showed the bar to be shoaled with sand a dredge will probably be set to work clearing out the channel at once, but if a rock bottom is found nothing will be done until more money is available for the improvement of the harbor.

"Mr. Macleay is starting another industry which will mean much to the Rogue river country. He is planning to manufacture lumber from the tannin, the same timber from which tan bark is produced. Most of the oak now is procured from Japan and there is a demand for the wood. He believes that the Rogue river oak can be put on the market to compete successfully with the Japanese product. He is now furnishing a sample order of the oak lumber and hopes to develop the industry. There are several difficulties which must be worked out. The oak logs will not float but experiments are being made to ascertain an economical means of bringing the logs down the river. The Macleay company has a large lumber mill at Wedderburn, where the oak lumber can be manufactured.

"With the purchasing of fish, operation of the cannery, cheese factory and big ranch, conduct of the big store at Wedderburn and branch stores at Gold Beach and Agness and with the many improvements that are continually being made, the Macleay company is paying out an enormous amount of money every year and is the biggest thing in Curry county. The company is there to stay, and the operations conducted by Mr. Macleay have been and will be in the future a very powerful factor in the development of Rogue river and Curry county in general, which is most certainly a country of great possibilities.
