## MAXIMUM FREIGHT RATES.

A Bill introduced in the Senate by Mr.  
McAlister.

Section 1. That all railroads or  
corporations, organized or doing  
business in this state, their trust-  
ees, receivers or lessors, under the  
laws or authority thereof, shall be  
limited in their maximum charges to  
the rate of compensation for the  
transportation of flour, grain of all  
kinds, fruits, potatoes and salt,  
and live stock by the car load lots,  
as follows: For the transportation of  
a car load lot of flour, grain of  
all kinds, whether sacked or bulk,  
fruit, potatoes and salt, either  
straight or mixed, or not less than  
18,000 pounds to the car, the sum  
of one cent per ton to each mile the  
same is so transported; where the  
distance is over one hundred miles,  
less than one hundred and over  
fifty, not over seventy-five cents  
per ton. For the transportation of  
a car load lot of not less than  
18,000 of live stock of every descrip-  
tion whether mixed or straight,  
the sum of one and a half cents  
per ton for each mile the same is  
transported, where the distance is  
over one hundred miles.

Sec. 2. It shall be unlawful for  
any railroad corporations, as afore-  
said, to charge, demand or receive  
a greater compensation than the  
foregoing schedule.

Sec. 3. All connecting railroads  
in the state, operated or controlled  
by the same person or company,  
under lease or otherwise, shall for  
the purpose of this act, in comput-  
ing distances and determining rates  
be regarded as one road.

Sec. 4. No railroad shall charge  
any person, company or corpora-  
tion for the transportation of any  
property a greater sum than it shall  
at the same time charge and col-  
lect for any other person, company  
or corporation for a like service,  
from same place and on like con-  
ditions, and all concessions of  
rates, drawbacks, and contracts for  
special rates found upon the de-  
mand of commerce and transporta-  
tion shall be open to all persons,  
companies and corporations alike.

Sec. 5. Any officer, agent or em-  
ployee of any railroad company,  
person or corporation, operating a  
line of railroad within this state,  
who shall violate or be a party to  
the violation of any of the provi-  
sions of this act, or instrumental  
therein, shall be guilty of a mis-  
demeanor, and shall, upon con-  
viction thereof, be punished for  
every such offense by fine not less  
than twenty-five dollars, or by im-  
prisonment not less than ten or  
more than fifty days; or any such  
person, corporation or railroad  
company as afore said, who shall  
authorize, direct, cause, permit or  
allow any violation of this provi-  
sion of this act by any officer, agent  
or employee, such railroad company  
person or corporation, shall forfeit  
and pay to the person injured ten  
times the amount, or charge illeg-  
ally taken or demanded, or ten  
times the amount of damage, caused  
as the case may be, to be recov-  
ered with reasonable attorney fees  
by such person in a civil action in  
any court, or before a justice of the  
peace, as the case may be, of this  
state; and if any appeal is taken  
thereof, it shall be the duty of the  
appellate court to include in the  
judgment an additional reasonable  
attorney's fees for services in ap-  
pellate court or courts; and for  
every such violation such railroad  
company, person or corporation,  
shall forfeit to the state of Oregon,  
for the use of the school fund, the  
sum of five hundred dollars, to be  
recovered in any civil action in the  
name of the state; and it is hereby  
made the duty of the attorney-  
general of the state, and of the  
several district attorneys within  
their respective districts to sue for  
and recover all sums forfeited as  
afore said.

Sec. 6. The terms "railroad  
corporation" and "railroad com-  
pany" contained in this act shall  
be deemed and taken to mean  
all corporations, companies, or in-  
dividuals owning, or which may  
hereafter own or operate, any rail-  
road in whole or in part in this  
state; and the provision of this act  
shall apply to all persons, firm, and  
companies, and to all associations  
of persons, whether incorporated or  
not, that shall do business as com-  
mon carriers upon any line or  
railroad in this state [express com-  
panies and street railway excepted],  
the same as to railroad corporations  
herebefore mentioned.

Sec. 7. All acts or part of acts  
inconsistent with this act are here-  
by repealed.

A Des Moines woman who has  
been troubled with frequent colds,  
concluded to try an old remedy in  
a new way, and accordingly took a  
tablespoonful (four times the usual  
dose) of Chamberlain's Cough  
Remedy just before going to bed.  
The next morning she found that  
her cold had almost entirely dis-  
appeared. During the day she took

a few doses of the remedy (one tea-  
spoonful at a time) and at night  
again took a tablespoonful before  
going to bed, and on the following  
morning awoke free from all symp-  
toms of the cold. Since then she  
has, on several occasions, used this  
remedy in like manner, with the  
same good results, and is much elat-  
ed over her discovery of so quick  
a way of curing a cold. For sale  
by Osburn.

## How to Size Up Clothes.

"Oh! that's about a size too small  
for you," said a salesman in a big  
clothing establishment near Her-  
ald square, as he critically survey-  
ed a coat in which he had assisted  
a patron.

"Yes, it is a bit too small," as-  
sented the other, removing his gar-  
ment; "but just let me know much a  
size is."

"In a coat," answered the sales-  
man, "a size is one inch."  
"Is that so?" exclaimed the cus-  
tomer. He had been living nearly  
thirty-two years, and was fairly in-  
telligent, but never knew that fact.  
And there are thousands just like  
him, who do not know, for instance,  
that a size of underwear is two  
inches, in a sock, one inch, in a  
collar, half an inch; shoes, one-  
sixth of an inch; in trousers, one  
inch; in gloves, a quarter of an  
inch, a hat, one-eighth.

## Before the Legislature.

A measure of great importance  
is Senator Brownell's bill No. 80,  
known as the irrigation bill. It is  
intended to create the office of state  
irrigation engineer, the holder to  
be a man versed in surveying and  
engineering, hydraulics, hydro-  
statics, etc., and to be under con-  
trol of the state board of land com-  
missioners. He must have his of-  
fice at the capital and his salary is  
to be \$3,000 a year, his deputies  
and assistants not more than \$5  
per day for actual time employed.  
His duty shall be to examine arid  
lands, locate and measure streams  
and other bodies of water possible  
to be reached for irrigation pur-  
poses; prepare maps showing arid  
lands, sources of water, size and lo-  
cation of canals, flumes, etc., have  
supervision of the building of such  
canals, etc. The act provides that  
the governor shall file these maps

"Blondie" and the "Corporal" make a discovery.

with the secretary of the interior  
and obtain contracts for the land  
to be reclaimed. It also provides  
the manner of constructing the ir-  
rigation works; creates a state ir-  
rigation fund to be used only for  
reimbursing the state for expenses  
incurred. The bill is designed to  
enable the state to take advantage  
of the act of congress known as the  
Carey law.

## Falling Off.

A startling evidence of the man-  
ner in which our wheat trade with  
Germany has suffered by the com-  
petition of the Argentine Republic  
is contained in a report to the state  
department by Frank H. Mason,  
United States consul general at  
Frankfurt, upon the German wheat  
imports for the last three years.

In 1892 the United States ship-  
ped to Germany 6,302,130 tons of  
wheat. The next year this dropped  
to 3,149,282 tons, and in 1894  
the imports were but 3,054,639  
tons. Meanwhile Argentine seem-  
to have gained about what we lost  
of this trade, for the imports of  
wheat from that country into Ger-  
many, amounting in 1892 to but  
651,697 tons, had swelled from 18-  
93 to 1,513,961 tons, and in 1894 to  
3,196,190 tons.

The nomination of candidates  
for municipal honors the other  
night at the school house, turned  
out to be illegal inasmuch as the  
law requires that nominations  
shall be made 30 days before the  
day of election. When the callen-  
dar was referred to, it was found  
that but 29 days elapsed until date  
of election, consequently all names  
will have to go in by petition.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

## IMPRISONMENT FOR LIFE.

Judge Refuses "Bunco" Kelly a New  
Trial and Passes Sentence.

Joseph Kelly, now so well known  
as "Bunco" Kelley, was brought  
before Judge Stephens, probably  
for the last time. Anticipating his  
appearance in court, quite a crowd  
of curiously-disposed had already  
taken seats at the time the prison-  
er was ushered in the presence of  
the judge.

Kelly's attorney, Judge Caples,  
was in his seat, prepared to argue  
the motion for a new trial, and as  
soon as order prevailed, the argu-  
ment was proceeded with. Three  
affidavits were filed with the clerk  
of the court, showing that new evi-  
dence had been discovered. Judge  
Caples, in his appeal for a new  
trial, laid great stress upon this  
new evidence, which, he said, would  
prove Kelly not to have been away  
from town on the night of the murder.

In spite of Judge Caples' great  
effort to obtain a new trial, the  
court overruled the motion.

Judge Stephens then asked the  
prisoner to stand up and state  
if he had anything to say why  
sentence should not be passed up-  
on him.

Kelly had a great deal to say,  
and without a tremor he addressed  
the judge.

"Yes judge," he began. "I don't  
know any thing about the matter  
of murder of which I am accused. I  
do not think I got a fair trial. The  
jury was prejudiced; Attorney  
Hume was prejudiced. Jurymen  
Charley Revers had it in for me  
and wanted to get even. Croas-  
man's clerk, Coffey, was also mad  
at me, and was only waiting for a  
chance to come and swear against  
me. I'll just tell you, judge, Coffey  
was mad at me because of a

## STARVES IN SIGHT OF FOOD.

Nebraska Sufferers Are Victims of  
Gross Mismanagement.

LINCOLN, Neb. Feb. 8.—The com-  
plaints from all parts of the state  
as to the inability of the Nebraska  
relief committee to furnish proper  
relief to the destitute have become  
so frequent that a concerted demand  
has been made for reorganization  
by the legislature and an investi-  
gation is now in progress with that  
idea in view. With people in many  
counties suffering all the pangs of  
hunger and without fuel except  
dried grass and with the mercury  
seventeen degrees below zero, hun-  
dreds of cars of food, provisions and  
fuel are standing on the sidetracks  
in various parts of Nebraska con-  
tributed by outside states, waiting  
the pleasure of the relief committee.  
In many cases the people threaten  
to burst open the cars and help  
themselves to the food. Charitable  
people of other states have sent  
them, and they are withheld by a  
clumsily organized relief com-  
mittee.

The state has appropriated \$50,-  
000 to relieve the destitute and it  
is estimated that other sources have  
contributed \$1,000,000 in food,  
money, etc. This is more than  
sufficient to feed and clothe all the  
destitute of the state for a year if  
properly distributed.

As an evidence of the manner in  
which the supplies are being wasted  
almost in sight of the hungry for  
whom they are intended the follow-  
ing report to the legislature by Cpt.  
W. H. Hunter, of Lincoln and Dr.  
S. S. Sandler of Alma, Neb., who  
investigated the situation, is given:  
"We visited the Burlington &  
Missouri freight office yesterday  
and were there informed by the  
agent that twelve cars loaded with  
supplies for the destitute were then  
in the Burlington & Missouri yards  
and about three carloads in the  
freight depot besides what were  
stored in other warehouses. We  
proceeded to a building said to be-  
long to Buckstaff Bros. and there  
we found from the statement made  
by the party in charge of said  
building, sixty carloads of supplies  
which the men in charge said had  
been there from one to three weeks.  
These supplies were composed of  
flour, wheat, corn, oats, corn meal,  
beans, potatoes, kraut and a large  
amount of groceries and clothing.  
Of the potatoes, about one carload  
was frozen hard. The kraut was  
in barrels some of which were burst-  
ed and leaking badly. We were  
informed one carload had been  
shipped out of this warehouse Jan-  
uary 30."

## As Others See Us.

We never really know what queer  
things we do and say over here un-  
til we see the English report of us.  
The following is from an English  
weekly: "Republican severity in  
the far west is maintained so con-  
sistently that a Kansas City jour-  
nal describes the Czar's wedding as  
the 'marriages of Mr. Nicholas Rom-  
anoff and Miss Alix of Heese Darm-  
stadt.'"

## Jack Dempsey Insane.

Jack Dempsey, the celebrated  
pugilist, is insane. Dempsey was  
known as the nonpareil and was  
for years the champion of the prize  
ring of his class. It is believed  
that his case is a hopeless one. He  
will probably be placed in a pri-  
vate asylum.
