ward as well as Forward without stop-  
ping. Quiet, Light Running, adjustable in all  
its parts.

WE SELL TO DEALERS ONLY.  
Correspondence Solicited.

UNION MANUFACTURING CO.  
TOLEDO, OHIO

### SICK-HEADACHE

Makes life miserable. All other  
ailments are as nothing in com-  
parison. Women especially know  
its suffering, and few escape its  
torment.

THE RELIEF AND CURE IS

Many people take pills, which  
gripe and purge, weakening the  
body. More take Simmons Liver  
Regulator, liquid or powder, be-  
cause more pleasant to take, does  
not gripe, and is a mild laxative,  
that also tones up the system.  
The relief is quick. It is Nature's  
own remedy, purely vegetable.

"I never found anything to do me any  
good until I used Simmons Liver Regu-  
lator. It has been three years since I first  
used it and I have not had Sick Headache  
since. I sent my sister (who had from one  
to two attacks of Sick Headache every  
week) one-half of a package, and she has  
not had it since."—G. S. MORAN, Brown-  
ville, W. Va.

AS EVERY PACKAGE  
Has our Z Stamp in red on wrapper,  
J. H. ZEHLIN & CO., Philadelphia, Pa.

### ALASKA'S WILD FOWL.

Mitchell's Amendment for Their Pro-  
tection.

The amendment of Senator  
Mitchell, of Oregon, inserted in the  
sundry civil bill, may lead to some  
interesting results and also cause  
further international complications,  
similar to those over Behring sea,  
as a part of the appropriation for  
protecting salmon fisheries in Al-  
aska. There is a provision by  
which the secretary of the treasury  
is authorized to send an inspector  
to investigate and report upon the  
taking and destruction of the eggs  
of wild fowls, and alleged wanton  
destruction of game birds, deer, fox  
and other animals in Alaska. A  
report is also asked as to what  
method should be taken to prevent  
such destruction in future. It ap-  
pears the Canadian poacher, not  
content with the destruction of  
seals, is playing havoc in the wilds  
of Alaska, where game birds make  
nests in the summer and rear their  
young. These eggs have been  
found valuable in the man-  
ufacture of certain articles, and are  
taken by thousands. While poach-  
ers are at work they kill every-  
thing that comes along. There  
has been a perceptible falling off  
in the number of game birds on  
the Pacific coast, and an investiga-  
tion of the cases led to the discov-  
ery of this new form of poaching.  
It is believed by Senator Mitchell  
that an official report on what the  
people of the Pacific coast have dis-  
covered will lead to legislation to  
prevent further poaching.

3. Opposition to the issue of  
bonds or coin bonds at any time,  
and of any bonds whatever in times  
of peace.

4. Opposition to the retirement  
of any more legal tender green-  
backs.

5. Government ownership of  
adequate means for the transpor-  
tations of persons and products,  
and for the transmission of intelli-  
gence.

6. The proper restriction of cor-  
porate ownership of land, and the  
abolition of alien ownership of the  
same.

6. Direct popular self-govern-  
ment through the initiative and  
referendum.

State Sunday School Convention.

The Sunday school convention  
season has opened this year with  
marked interest among the organ-  
ized counties. The Multnomah,  
Clackamas, Yamhill, Marion, Polk,  
Lane, Benton, Washington, Doug-  
las and Josephine counties associa-  
tions have already met, or are mak-  
ing arrangements to meet within  
the next few weeks. Large attend-  
ance and increased interest is the  
general report.

Plans are well under way for the  
state convention to be held in Port-  
land, May 7 and 9. This will be  
the tenth annual meeting of the  
state association, and is expected  
to break all previous records in  
point of attendance. The program  
will be of unusual practical benefit,  
taking up almost exclusively the  
more recent methods and plans for  
enlarging and bettering the Sun-  
day school work which have been test-  
ed and proved, and are being ad-  
opted by many schools.

### Eggs by the Thousand.

The largest shipment of eggs ever  
sent from this county, says the  
Pendleton Tribune, and in fact one  
of the first shipments of its charac-  
ter, was sent out yesterday by Mil-  
ler & Fritchman and comprised 3,-  
000 dozen of eggs. They were con-  
signed to Schwabacker Bros., of  
Seattle and the West Coast Grocery  
company, Tacoma, two of the large-  
est wholesale establishments situ-  
ated on Puget Sound. The entire  
shipment was obtained in Umatilla  
county within one week's time,  
and purchased at the rate of 6 cts.  
a dozen, cash.

### A Minister on Trial.

A court of inquiry was instituted  
at the M. E. church, at Baker City  
Saturday, presided over by Rev. J.  
S. Anderson, of Union, presiding  
elder of the district, to inquire into  
certain charges preferred against  
Rev. Oscar A. Smith, residing pas-  
tor, of conduct unbecoming a min-  
ister of the gospel by a young lady  
member of his congregation. The  
proceedings were commenced Sat-  
urday afternoon and were attended  
by those in official capacity in the  
church and several ministers from  
abroad.

### Our better halves say they could not keep house without Chamber- lain's Cough Remedy. It is used in more than half the homes in Leeds, Sims Bros., Leeds, Iowa. This shows the esteem in which that remedy is held where it has been sold for years and is well known. Mothers have learned that there is nothing so good for colds, croup and whooping cough, and permanently, and that it is pleasant and safe for children to take. 25 and 50 cent bottles for sale by Osburn.

### You Can Fish.

If you have fishing tackle and  
are a lover of that kind of sport you  
may now cast your line for the  
finny tribe lawfully. Section 14  
of the revised fish and game laws,  
makes misdemeanor for catching,  
killing or having in possession, or  
selling or offering for sale any  
mountain, lake, brook or speckled  
trout, caught from any fresh water  
during November, December, Jan-  
uary, February and March, and  
prohibits catching them with seine,  
net or other device than hook at  
any time.

### Sugar Beets.

Reports from the Oregon experi-  
ment station show that beets grown  
in the immediate vicinity of Mil-  
ton contain 274 pounds of sugar  
to the ton. At the rate usually  
paid for beets at that high grade,  
we have acres and acres of land  
that will yield its owners \$200 per  
year, and yet that same land can  
be bought now in advance of the  
building of the sugar factory, for  
\$100 per acre.

### Resolutions Adopted.

Resolutions adopted by the Mar-  
ion county central committee of the  
people's party, at Salem, on  
Saturday, March 23, 1895.

Resolved, that we earnestly in-  
vite the co-operation of all who en-  
dorse the following propositions,  
and cordially welcome such to  
membership in our party clubs:

1. The free coinage of legal tender  
silver money at the ratio of 16 to 1,  
as provided by law previous to 1873.
2. That all paper money de-  
manded by the needs of business  
should be controlled, directly by  
the government, and not through  
private or corporate banks; also,  
that this paper money should be  
kept at par with coin by being  
made a full legal tender for all  
debts, public and private.

### INDIAN EFFRONTERY.

#### Charles Blackhawk's Monumental Gall Described by an Attorney.

A Pendleton attorney relates a  
story of cupidity and gall which is  
worthy a repetition:  
"Charles Blackhawk, the Indian  
killed by the cars a few days ago,  
peace to his mangled remains,"  
says the legal gentleman, "was by  
nature a money-maker. Had he  
been given time enough and the  
care of a temperance society, Black-  
hawk would have become rich.  
When Moses Minthorn was sick at  
the hotel Pendleton, a gentleman of  
this city was summoned to his bed-  
side. For many days and nights  
he watched the dying Minthorn,  
until his exhaustion called for re-  
lief, and he hunted up Charles  
Blackhawk and asked him if he  
was not a relative of Minthorn.  
Blackhawk said he was, and so the  
gentleman suggested that Black-  
hawk do some of the watching.  
This was done, and Blackhawk  
stayed with Minthorn for some  
time, always going to the gentle-  
man's house for his meals three  
times each day. Occasionally the  
Indian borrowed money from this  
gentleman until \$15 had been thus  
secured. Finally Minthorn died,  
and Blackhawk came to me and  
requested me to sue the gentleman  
for \$40 for services in nursing Min-  
thorn. I protested that Minthorn  
was a blood relative of Blackhawk,  
and the gentleman had merely  
asked him to perform a duty in  
caring for his kinsman. But  
Blackhawk insisted that he had a  
good case, and argued that the  
nursing was done at the instance  
of the gentleman, and not at the  
request of Minthorn. Of course I  
entertained no notion of bringing  
any such suit, and only gave the  
ridiculous proposition a moment's  
attention because of the sublime  
gall and adamant cheek exhibited  
by the fellow, Blackhawk. It  
certainly was a case which is  
worthy of record."

plowed and others say they will do  
the same. This is all fall grain, of  
course, and will cause serious loss  
to some farmers."

Mr. McArthur then said some  
more things. He said them with a  
sober countenance and with his  
hand on the official seal of the  
county clerk which is used in ad-  
ministering oaths to tell the whole  
truth and nothing else most of the  
time when convenient. His story  
is repeated only because Mr. Mc-  
Arthur told it and his prominence  
and responsibility are not to be  
questioned.

"We have held an election up  
our way," says Hugh, "and Robert  
Coppick has been chosen chief.  
We are rather sullen and I cannot  
say we will not break out and mas-  
sacre the inhabitants. Chief Cop-  
pick has been installed with fit-  
ting solemnity, an ox being killed  
at the celebration, 40 gallons of  
coffee consumed and other propor-  
tionate quantities of edibles indulg-  
ed in. His title is Chief of the  
Jubbubs. In my opinion, there  
should be ordered to our locality a  
troop of cavalry soldiers, for there  
is no telling what we may do. We  
may even have a dance and do  
other savage things. By all means  
let Uncle Sam send a company of  
regulars to guard us. We need  
it."

Mr. McArthur denied that he  
was speaking sarcastically and in a  
figurative sense of the recent In-  
dian scare. He left every one to  
wonder just what he was driving  
at.

### A Peculiar Case.

Thomas Nevins, a Brooklyn  
merchant, from whose spine a re-  
markable growth was removed a  
few weeks ago, died at the Seney  
hospital Wednesday afternoon.  
Ever since the operation his life  
has been ebbing away. He was  
38 years old, prosperous and ro-  
bust, till nearly three months ago,  
when he complained of sharp pains  
in the thighs and groin, and his  
friends concluded that in some  
over-exertion an abscess had for-  
med. An operation was performed  
and a male child eight inches long  
and perfectly formed was found  
imbedded in tissues. The doctor  
said Nevins was one of twins, and  
that before birth the embryo of the  
other child had become entangled  
in his own. The doctors believe  
that all his life Nevins had sus-  
tained the life of his imprisoned  
brother. Then, in some way, the  
connecting ligaments were broken,  
and the death of the baby ensued.

### An Indian on a Bicycle.

It is reported that a bicyclist,  
while riding across the Nez Percé  
reservation, attracted the attention  
of an Indian and so completely  
captivated him that the wheel was  
soon exchanged for a wagon and  
team, with which the native was  
hauling posts to fence his ranch.  
The white man left the Indian  
trying to mount the newly acquir-  
ed vehicle and drove into town.  
The last report from the amateur  
bicyclist is that he tried to make a  
reckless run down the Soldiers  
Canyon grade. The wheel went  
off on a tangent and piled up on  
the rocks twenty feet below the  
road, where wheel and rider were  
both supposed to be in need of re-  
pairs.

### Gold in the Blue Mountains.

It is just about a year ago since  
a prospector by the name of Green  
delved deep into the hills about  
Blue creek and the expectations of  
those who furnished the "grub  
stake" and other necessities, were  
way up in the nineties, but some-  
how the thing petered out and no  
one said a word; not a word. Still  
there are a number of old settlers  
who at sundry times found grains  
of gold in the craws of their ducks  
and geese, and they are firm in the  
belief that there is gold in the  
Blue mountains, but the trouble is  
where to find it. However, if at  
first you don't succeed, try, try  
again, for if there is gold in our  
mountains we want some of it,  
says the Walla Walla Statesman.

### A Lion and Bear Fight.

Monday in a bull ring at New  
Laredo, Mexico, the African lion,  
Parnell, fought a terrible battle  
with an immense grizzly bear of  
the American type. The attend-  
ance was large. The animals  
fought desperately two rounds,  
until completely exhausted, but con-  
trary to expectations, neither was  
killed.
