Boy Thieves. Athena officials are working on clues which will probably lead to the arrest of several boys who reside in Athena. Sometime ago, Hansell & Maloney missed a couple of dozen of high grade pocket knives. A watch was kept and their vigilance was rewarded the other day, when a gentleman was observed with one of the same brand. On being asked where he obtained it, he gave the names of a couple of boys, whose names the Passes, at this time, refrains from mentioning.

One of these boys was closely questioned by an officer, and it is said, broke down and gave some very important clues, which lead to the belief that the recent burglaries committed in Athena were done by boys, ranging in age from 12 to 16 years. The matter will be looked into and no doubt several arrests will follow.

Deafness Cannot Be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free. F. J. CHEREY & Co., Toledo, O. Sold by Druggists, 75c.
