VOL. X.

BEAVERTON, OREGON, FRIDAY, FRIDAY, JUNE 2, 1933.

No. 21.

## FARM BUREAU PICNIC, SHUTES PARK HILLS-BORO JUNE 13

The Washington County Farm Bureau will hold its annual Basket Dinner Picnic June 13th at Shutes Park at Hillsboro, starting at 10:30 a. m.

### PROGRAM

Wm. Schuller, Chairman.  
10:30 a. m. Report by the President.  
11-15 a. m. Remarks by President Hillsboro Club.  
11:45 a. m. Talk by Chas. LaFollette.

### PICNIC DINNER

1:30 p. m. Remarks by L. L. Crawford of Manning.  
1:45 p. m. Address. Geo. A. Mansfield, President Oregon State Farm Bureau Federation.  
This is a day for all the family and questions which concern you personally, your family, and your farming business will be discussed. Bring your picnic dinner and stay all day.

## OREGON HAS NEW LUMBER INDUSTRY

Another Oregon lumber industry is making heavy inroads into the markets formerly controlled by the Southern pine products manufacturers. This new competitor for National and International recognition is the Douglas fir cross-arm industry. The manufacturers of cross-arms are now receiving orders from almost every state in the Union and many foreign countries.

## OREGON CHEESE TO BE KNOWN

The Grassley Cheese factory is making plans to reach wider markets and make known the cheese produced in Oregon, through the co-operation of The Associated Industries of Oregon.

## SPORTSMAN-TOURIST EXHIBIT PROVES SUCCESS

Reservations for space at the Oregon Sportsmen-Tourist Exhibit are flocking into the Chamber and every indication points to a large success for this venture. The exhibit will be staged at the Armory during the Rose Festival under the auspices of the Chamber of Commerce. Communities and organizations which have already reserved space for their exhibits are: Spokane, Y. M. C. A. (Spirit Lake Camp), Eugene, Snareside, Ashland, Medford, Grants Pass, United States Forest Service, Federal Highway Commission and Boy Scouts. Samuel C. Lancaster will also have an exhibit of his Lost Lake camp ground and William L. Findley will display his famous pictures of Oregon's out-of-doors. Hood River, Pendleton and La Grande have the matter under consideration.

The purpose of the exhibit is to familiarize Portlanders and Rose Festival visitors with Oregon's advantages and facilities for summer outings, so that each resident of the city will be a source of information on this subject for others coming to the city. The executive committee for the exhibit includes: H. J. Ottenheimer, chairman; Cameron Spitzer, W. E. Boyd, R. W. Price, Major John Guthrie and S. C. Pier.

### Radiating Happiness.

A happy man or woman is a better thing to find than a five-pound note. He or she is a radiating focus of good will, and their entrance into a room is as though another candle had been lighted.—Stevenson.

## SOME COOPER MOUNTAIN NEWS

Strawberries are ripe—pass the short cake please!  
Dollie Walker brought the first rose blossom 1932, to school Monday.

George Blasser has been improving his property west of Beaverton, by erecting a new fence in front of his residence.

McGee's delivery truck arrives every Friday from Beaverton's Department store.

The boys at school are enjoying a "Big Horse Shoe Tournament," the old time game—throwing "Ringers" and "Leaners" is all the go nowadays. The contest is hot and getting better every day for the championship of Cooper Mountain is at stake.

Mr. Liebrick has a big crop of tomato plants and asters in his new green house.

Edwin Jacobson shot a chicken hawk Sunday.

John Cole and son, Byron, were in Beaverton Friday purchasing a few barrels more of B. Loh's famous spray for their orchards on top of the mountain.

Mrs. Pluta was a Portland visitor the last of the week.

Julia Sams brought the first Columbine blossom to school.

Miss Alice Blomquist has completed her first book in her musical course and is making rapid progress.

Russell Cole visited school Friday and was presented with a balloon.

W. L. Anderson recently moved to the J. O. Larson place.

Mrs. Mary Frandlum was a guest at the Pluta home the first of the week.

Alre Watts is starting in the poultry business, with some fine baby chicks.

Dorothy Cole brought the first Jonquil to school Monday and Dollie Walker the first buttercup.

Frank Allen and Carl Matzke have the East road graded in fine shape this spring. C. W. Allen, supervisor, keeps good men on the job.

W. F. Desinger of Beaverton, called recently and took a look at the school building. Desinger and sons built Cooper Mountain school house in 1910, and many others in the east end, namely: Beaverton, Scholls, Jacktown, Mountaineer and Hazeldele, all monuments to their good work.

Matt Blomquist is plowing the Eupuisat ranch.

Road Supervisor Oscar Taylor and crew, are fixing up Cooper Mountain roads in good shape—Haber avenue, southward.

We are often reminded of the Far West—last week a cow boy in full togs visited school.

### For Sister.

At the Madison Avenue branch library a little boy was looking for an interesting book and seemed to be having a hard time finding one that appealed to him. At last he brought to the desk "Wanted: A Husband," saying, "I guess I'll take this home to my sister. That's what she's looking for."—Indianapolis News.

### Real Value of Work.

We may call our work humdrum and monotonous, may consider that it is not great enough to be worthy of our talents or our time, but whatever it may be, remember that we are not only making the work but being made by it.

### Prevent Instead of Cure.

Bordeaux Mixture 4-4-50 will keep the Flea Beetles off your tomato and potatoes and it is good for the plants.

## FORMER PUPILS OF MCKAY SCHOOL WILL HOLD REUNION

Preparations are being made for the sixth annual reunion of the McKay School Alumni association which will be held on the school ground near Wallford station Saturday, June 17th. A business meeting followed by a basket dinner in the grove, music and a short literary program will be features of the occasion.

Present and former pupils who have attended school in the district since its organization sixty-five years ago, their families and friends are earnestly invited to attend and spend the day with their associates of pioneer days.

Officers of the association are, president, B. K. Denny; secretary, C. M. McKay; committee on program and arrangements, Elizabeth B. McGowan, Ruby W. Boyd and Aaron V. Denny.

### BOBBED HAIR TEACHERS

Boards of Education in many cities, especially in the East, have decreed that no teacher who bobs her hair can be employed, and there has been some protest on the matter from the young women who have shod their locks. They contend that they are employed to teach what is inside the head, not outside.

Yet the Boards are clearly within their rights in the matter. Teachers must be examples to the young whom they instruct. They are looked upon as leaders, and a teacher stands in much the same general relation as the preacher. Bobbed hair is not immoral—but it is extreme. It has been adopted by many young women of high standing, yet it must be frankly admitted that it does not tend to dignity and certainly does not improve the appearance of the girl. Possibly the attitude of the Board is that girls who are prone to follow extremes of fashion are more or less "rightly," and lacking in that poise needed for the ideal teacher.

Generally it is a hopeless task to attempt to regulate the dress or habits of the girls and young women, but when men charged with the duty of employing them decree that they will not engage such ones, the effect is very apt to be to render bobbed hair much less popular.

### Lesson From Enemies.

Have you learned lessons only of those who admired you, and were tender with you, and stood aside for you? Have you not learned great lessons from those who reject you, and brace themselves against you? Or who treat you with contempt, or dispute the passage with you?—Walt Whitman.

### Asthma From Animals.

It has been found that asthma is often caused by inhaling particles of the hair of animals, particularly that of the horse, the cat, and the dog, and, above all, of the pet dog that sleeps on the bed. Chicken feathers also cause the disease. There are many other factors in the production of asthmatic attacks, but the first step in curing the disease is to avoid the source. If the cat or the dog is to blame, then these animals should be kept out of the house.

Two Italian editors fought a duel with all solemnity the other day, with the usual result—no one hurt.

The baseball scandal of that famous world series is to be again "aired," it is stated. Of course it needs the air, very badly, but we prefer not to be in the neighborhood.

## COOPER MOUNTAIN HAS NEW MILL

John M. Davis started his sawmill this week on Cooper Mountain, sawing railroad ties and lumber of all dimensions on order. He has over 500,000 feet of timber and more adjoining, the former's orders for rough lumber will receive his attention. His mill is running O. K., cutting over 10,000 feet per day, employing 15 men.

### THE POWER OF JORDAN.

What a lot of sentiment is stirred in the human mind when we read that the water power of the river Jordan is to be harnessed and used for electric light and power through the Holy Land. The river around which more sacred history is written, the river which stands in a class by itself in more senses than one, the river which has always seemed to typify the country through which it passed in that it never changes, is to be utilized to make the land a better, richer and finer land in which to live.

There was some protest when railroads first entered Jerusalem, it being the sentiment of some that the Holy Land should be left in its primitive condition—that it should remain the land of the Bible without change or evidence of progress. But such is not the way of the world—it is not God's way, for old nature teaches growth, improvement, change. Hence it is fitting that the land made dear to all Christendom as the land Abraham, of Isaac, of Jacob, of David, Solomon and Jesus of Nazareth should receive the fullest measure of benefit from the river that is associated so intimately with their history.

It is estimated that more than 1,000,000 horse power will be developed from the great plant that is soon to be erected, and that this power will be distributed throughout Palestine for lights and other uses to which electricity can be put. The movement of the Jews toward their ancient homeland may have had something to do with this development, for the Jew has been among the progressive nations of the earth for centuries; he has progressed with them; and the modern Jew would not be content to go back to a land such as Palestine has been under the domination of the mark. He wants the modern conveniences and the power of Jordan will enable him to have them.

The climate, of course, is warm, but there is always need of fuel, especially if they be any manufacturing. This great power plant will supply the need. Palestine will not be compelled to import from long distances—she will have her own power, giving a lesson to the rest of the world in using the resources at hand.

In early Bible times the Holy Land was described as "A land flowing with milk and honey." It has been far from that condition during recent centuries, but with returning Jews and with capital for development it may retain its ancient leadership. Jordan, harnessed, may be more powerful for good in every way than the Jordan of history, which is largely sentimental.

Cherry Slugs Are Busy.  
Pear and cherry slugs are appearing on the foliage of these trees and are skeletonizing the leaves in characteristic fashion. Growers who experienced serious defoliation from this pest last season may control it by spraying the trees now with arsenate of lead, 2 pounds to the hundred gallons.

## WAR INSURANCE DRIVE PLANNED FOR BEAVERTON

For the purpose of having every ex-service man in Beaverton protected by Government insurance, an intensive drive to secure applications for veterans' insurance amounting to at least \$50,000 will be held here June 13 to 17, inclusive, according to Kenneth L. Cooper, manager of the United States Veterans' Bureau here. This amount, if secured, will help swell the state's insurance total, the goal to be striven for being \$2,000,000, he states. The Campaign is limited to the Pacific Northwest District of the Veterans' Bureau and it is expected that more than \$5,000,000 in War Risk Insurance will be reinstated or converted by veterans during the week beginning June 13.

American Legion posts throughout the entire district are planning to cooperate actively in making the drive a success. Norman W. Engle of Seattle, Northwest Representative of the National organization of the Legion has sent communications to many of the posts urging them to form drive committees to help carry on the campaign. He stated that service men of Beaverton, may make application for the Government insurance either through the local post and the State Department of the Legion or the U. S. Veterans' Bureau in Portland.

### POPE PIUS TO SEE BASEBALL GAME

Pope Pius is to witness a baseball game shortly, played by visiting Americans, members of the Knights of Columbus, to show their work in athletics. Well, the Pope has a real treat in store for him if the score is close.

### NEW YORK HOLDS STREET FAIR

New York is slowly catching up with Main Street. New York has just passed through the experience of a week's Street Fair. As the country town abandoned the street fair about fifteen years ago, New York is about ten years nearer the procession than we had believed.

### FARMER OF THE FUTURE

The farmer of the future is going to be a professional man—farming is not the work of "the clothopper" of the funny papers. It is the work of scientists, men educated and trained to the work. The farmer of the future will be the graduate of the agricultural college, the young man who knows about soils, fertilizers, seeds, crop rotations, planting times and seasons—and also about marketing his crop when it is made. The farmer of the future will be not only a scientist, but a business man.

A manufacturer who merely made goods and knew nothing of selling them would be a failure. The farmer has been the maker, the producer, and has then sold the goods to the middle man at whatever the buyer chose to pay. The farmer of the future will not do this, any more than the manufacturer will permit the buyer to tell him at what price he shall sell his goods. Each year sees improvement in the methods of farming as well as marketing. Perfection is yet a good ways off, but the educated young men that are going on to the farms are going to put the business of farming where it belongs—near the top of all professions. The oldest occupation in the world is just coming into its own.

## FISHER GETS GOOD VOTE IN HOME TOWN

East and West Beaverton precincts gave Earl E. Fisher, candidate for Congress 160 votes, Hawley 44 and Norblad 22. The official count gave Fisher 8000 votes in the First Congressional district, 1257 of which were cast in Washington county. Fisher says: "He likes his friends a little better than ever before."

### An Uplifting Influence.

An editor in a distant city wrote in and said, "As long as I carry God's Word at the head of my editorial column, I must make my editorials square with his word." Still another, in an editorial, called on his readers to make a scrapbook out of the Bible verses, asked parents to have their children memorize the verses, and added: "It will prove a priceless heritage to them in after years."

### The Back to the Bible Bureau

Was organized January 1, 1920, and was incorporated October 5, 1921. The purpose is set forth in the charter granted by the secretary of State of Ohio reads as follows:

"The object of the Bureau is to secure the cooperation of editors and publishers throughout the United States and other countries, in an effort to reach the great masses of the people daily with a helpful and inspiring Bible message, and thus inculcate in the minds of readers a greater reverence for the Supreme Ruler, and a desire for better things in government and all industrial and social relations."

### Beginning and Growth of the Work.

The first insertion of a verse of Scripture for the Bureau was made in a local paper, January 1, 1920. From this small beginning the work has grown until to-day the Bureau is serving over 1,000 papers in this country, 26 in Canada, 2 in Hawaii, 2 in Alaska, 1 in the Virgin Islands, and recently the Bureau filled a request for the service in far-away Korea. The combined circulation of these papers is something over 16,000,000, or the equivalent of 40,000 congregations of people of 250 each.

### ROMANIAN'S QUEEN TO ADVERTISE BOND DRIVE

There will always be something. Just as we were beginning to feel a little enthusiasm about the proposed visit of Roumania's queen to this country we are told that the real reason for the trip—it is to create sentiment in this country for a proposed loan by Americans to Roumania. It's a new idea, making the queen the attraction at a bond selling drive, but maybe it will work.

### SHOT-HOLE BORERS WORKING

Examination of occasional trees in the orchard often discloses numerous small shot-holes like tunnels extending through the bark and into the heart of the tree. This is typical shot-hole borer injury. Where trees are heavily attacked it is best to remove them entirely, and where it is possible to save the trees take steps to revive them and then paint over the infested area with a preparation made as follows: Water, three gallons, soft or liquid fish oil soap, one gallon and crude carbolic acid, one-half pint. Repeat tunneled areas.

## MICKIE, THE PRINTER'S DEVIL

By Charles Squires  
When Heavens Unite

POP HOWLAND SAYS IT'S TOO BAD THAT THIS YEAR'S GRADUATING CLASS WASN'T THROUGH SCHOOL IN MARCH, AS SEVERAL OF TH' YOUNG GENTLEMEN WERE BARRED AS CANDIDATES FOR TH' PRESIDENT'S CABINET ON THAT ACCOUNT PROBABLY MOST LIKELY!

MRS. GOSHAMIGHTY FIGGERS THAT HER FAVORITE AUTHOR'S AGE IS NO LONGER A GUESS—"HE USED TO SAY 'A MIDDLE-AGED MAN OF 40'" SAYS MRS. GOSHAMIGHTY, "BUT LATELY HIS HERO HAS BEEN A 'YOUNG MAN OF FORTY'!"

"I SEE THAT SOME OF OUR CONGRESSMEN AND BIG CITY EDITORS ARE TRYING TO FIX UP A WAR WITH ENGLAND OR JAPAN SEZ BUD JONES OF TH' A.E.F. 'TH' ONLY FELLERS WHO DIDN'T GET ENUFF TH' TIME WUZ BIRDS LIKE THEM WHO WASN'T THERE!"

MY PAW MUST HAVE BEEN A WILD ONE WHEN HE WUZ A KID, FER WHEN EVER I TRY TO PULL OFF ANYTHING, HE ALWAYS KNOWS JEST WHAT QUESTIONS TO ASK!
