## Flying Boat About to Begin Across-Ocean Flight

Hammondsport, N. Y .- Lieutenant Porte, pilot of the Rodman Wanamaker flying boat, expects to start for New Foundland not later than August 1 with the America.

As the America now stands, without installing the third motor, it is believed she can carry Lieutenant Porte and George Hallett, his aide, with fuel and oil for 24 hours and another hundredweight of provisions and accessories.

In order to make the trip, the two engines in the America must pound their hardest for 20 consecutive hours, at the least calculation. This will endanger the light framework and eat up at least two-thirds of the fuel. In case an adverse head wind is encountered most of the way, the remaining one-third of the fuel will be exhausted before the boat could reach

the Azores. Assuming that the air currents are favorable, that nothing happens to mar the working of the machinery and that the fuel holds out, Porte and Hallett must drive a course as true as a bullet through 1200 miles of ocean and air and pick out the tiny Azores. They must give unflagging attention to driv-

ing and , balancing their craft and at the same time find their way over the vast waste with certain death beneath them at all times unless they hit the

FARMERS AGREE TO HOLD WHEAT

**Kansas Growers Ask Big Price** for 100,000,000 Bushels.

### Present Price of 60 Cents Thought Too Low-Dollar a Bushel Popular Slogan.

Topeka, Kan.-Kansas farmers will hold 100,000,000 bushels of wheat this year, or 25,000,000 bushels more than the entire crop of 1913, according to W. H. Mitchell, National vice president of the Farmers' Society of Equity.

Mr. Mitchell is organizing the farmers of Kansas and urging them to hold their immense crop for higher prices. Sixty-cent wheat in Kansas has become the rule and has turned the thoughts of the farmer to the possibility of holding his grain. When the organizers arrive in a community they find little opposition to the idea of holding the grain, Mr. Mitchell said.

"I do not believe more than onefourth of the wheat grown this year will be sold," said Mr. Mitchell.

Grain bins of frame and cement construction are being rushed all over the state, and in many places wheat is being piled on the ground by the farmers who refuse to accept present prices for it. The Farmers' Society of Equity is campaigning for dollar wheat, but the Kansas members will sell their grains for less than that figure, it is generally believed. Most of them are preparing to hold for higher prices than the 60-odd cents now offered, however.

The money order section of the country town postoffices in Kansas prove that this year is an exception with the harvest hand, as well as the wheat-growing farmer, for the harvest yet been constructed whose bow can hand is sending his money home. This is probably due to two causes. One is value of money, and the other, the farmer has learned that he must protect his helpers to be sure of getting them when they are needed.

For years the popular diversion with a certain crowd of men who followed the harvest was "harvesting the harvest hand." Gamblers began in Kansas and worked with the harvest to the to remain in flight with one engine out of commission. Canadian border. Some of them even worked in the fields, to be better enabled to separate the harvest hand from his money. There was every sort of game that would be easily tranported and quickly hidden. The layouts were not of the fancy kind, but they brought quick action on the wagers the gambler.

Peacock Spit. One gillnetter returned products from Copenhagen to English with his net in four pieces as a result ports. If the Britishers were deprived of fouling that obstruction.

Carver Franchise Urged.

Milwaukie - The Milwaukie Commercial club met recently at the home of the secretary, Mrs. Maggie John-son, and decided to assist Stephen Carver in obtaining a franchise for the Portland & Oregon City Railway com-pany through Milwaukie and for a grade crossing over the Southern Pacific at Oak street. The matter was referred to the club railway committee, which will confer with Mr. Carver this week. The franchise is pending in the council, but will not come up for final action until the August meet-

ing. The club decided to appeal to the State Railway commission for a stop at Washington street on the Oregon City branch of the Portland Railway, Light & Power company.

#### Streetcar Line Talked.

Baker - Promoters here are busy with a proposal to build a streetcar system in Baker and to Eagle valley, a rich farming community, 45 miles out of this city in the northeastern part of the county.

Joseph Kries, of Portland, conferred with prominent men here relative to forming a company to back the scheme. Mr. Kries is said to have among his backers John B. Yeon, and others connected with the Eagle River Electric

company. The farmers have already been sounded on the proposal, and have welcomed it heartily.

Prominent bankers and other leading citizens of Baker who have conferred with Mr. Kries were inclined to returns from his strawberry crop this seized. regard the project as feasible and the backing to be sound.
