SUFFERING CATS!
GIVE THIS MAN
THE GOLD MEDAL
 No humbug! Any corn, whether hard, soft or between the toes, will loosen right up and lift out without a particle of pain or soreness. This drug is called freezone and is a compound of ether discovered by a Cincinnati man.
 Ask at any drug store for a small bottle of freezone, which will cost but a trifle, but is sufficient to rid one's feet of every corn or callous.
 Put a few drops directly upon any tender, aching corn or callous. Instantly the soreness disappears and shortly the corn or callous will loosen and can be lifted off with the fingers. This drug freezone doesn't eat out the corns or callouses but shrivels them without even irritating the surrounding skin.
 Just think! No pain at all; no soreness or smarting when applying it or afterwards. If your druggist don't have freezone have him order it for you.—Adv.

BOY SCOUTS

M'ADOO STRONG FOR SCOUTS.

The following telegram from former Secretary of the Treasury W. G. McAdoo was sent from Santa Barbara, Cal., to Chief Scout Executive James E. West of the Boy Scouts of America, New York:
 "Truly the organized boyhood of America as constituted in the boy scouts has rendered an extraordinary and wonderful service to the country in connection with the Liberty loan and War and Thrift Stamps campaigns. In the fourth Liberty loan campaign I am told that the boy scouts secured subscriptions for \$92,000,000 representing 700,000 subscribers, and that in the War and Thrift Stamps campaign they have sold approximately \$42,300,000 to 2,150,000 individuals. This is an inspiring achievement, and the Boy Scouts of America have vindicated by their initiative, patriotism, energy and courage the highest conceptions of junior American citizenship. Give the valiant troops of the boy scout organization my warm congratulations and best wishes. I am proud of these boys, and the country is proud of them. There is still vital work to be done for the country, and I look to the boy scouts to do their part with the same valor and patriotism they have exhibited in previous campaigns."

EXPLORER ANTHONY FIALA.

Noted arctic circle traveler is now commissioner of boy scouts at Springfield, Mass.

PRINCIPLE OF SCOUTING.

Scouting is becoming an important factor in the successful raising of boys to manhood. The scout movement develops the sense of duty in the youngster that enables him to probe within himself for the manly characteristics. It's a man-size job to be done in a man's way, and W. A. Perry, the editor of Scouting, offers a few lines on that subject:
 "I am not interested in scouting in a high-priced school amid landscape gardening, and stately, and drinking fountains—all made by somebody else—I am interested in a forest far from civilization, where I must either conquer nature—or confess myself a weakling. It is a fine thing to teach boys to stand in line with spotless uniforms and win the applause of a crowd gathered to witness a dress parade. But I would rather develop a boy, so that he could walk alone into a world of wickedness, conscious of the great laws back of it all, with a spirit which would make him forget self and fight for the right."

SCOUT ASLEEP KEPT SECRET.

"But, mamma, what did I say? What did I say?" There was anxiety in the boy scout's tones.
 The little fellow had joined the tenderfoot class of the boy scouts the night before, and had been cautioned not to reveal the password of the rank, to not even mention it "in his sleep."
 Next morning his mother asked him what made him so nervous during his sleep, telling him he had talked all night long, according to the story reaching J. E. Pershing, scout executive of Oklahoma City, a cousin of General Pershing.
 When assured that the secret word was still sacredly kept, he breathed a long sigh and the look of relief that swept his face was like a burst of sunshine after a storm.
