## EVOLU-TIONS

Washington, C. C., Nov. 22:- There is now assembling in the Carribbean beathe most formidable fleet of warships ever brought togeather under the Stars and Stripes. With in a few days Admiral Dewey will hoist his penneut on the flagship of this big force as commander in-chief.

The general plan of the maneuvers is similar to that pursued in the North Atlantic off the coast of New England last Summer, but the mobilization is to be conducted on a much larger sea'e than ever before attempted by the American navy. Socretary Moody and the President believe in prectical drifts exercises that will prepare the officers and men for service should a foreign foe send a fleet against the American shores The "search problem" is to be the chief feature of the programe,

A navel base has been established at Culebra Island, a short distance cast of the island of Porto Rico. For several weeks past colliers and supply ships have been rendezvousing in the vicinity in every State and Territory of the Un-ion, and whereever there are people who can read our mother tongue.

of the island. Admiral Sommer, com-manding the South Atlantic squadron, and Admiral Crowinshild, commanding This paper for the coming winter and the European squadron, are new on their way to the "seat of trouble.", vice, if possible, more extensive than have command of the combiged squadrons. The plan is to have the combined South Atlantic and European squadrons operate against the North Atlantic fleet in a "search" or "scouting" prob lem. In the proposed search problem Rear Admiral Higgingson will be advised that s hostile fleet has left Europe and will combine with another is Southern waters with a view to making an

## RE-ELECTION OF GOMPAST

New Orlens, Nov. 22-Samuel Comper was unanimously re-elected president of the Federation of Labor this morning. Gompers made a speech thanking the convention. Mayor Schmitz, of Sar Francisco, was introduced and made a speech of farewell to the convention. He expressed a hope of having the pleasure of welcoming the next convention to San Francisco.

Port Orford Tribune-A large number of young salmon flave been shipped from the upper Rogne River hatchery, via San Francisco, to the lower Hogne River hatchery. They are expected to arrive at Wedderburn

Black-Draught Stock and Poultry Medi cine and am pleased to say that I never used anything for stock that gave half as good satisfaction. I heartily recomnend it to all owners of stock. J. B. BELSHER, St. Louis, Mo.

Sick stock or poultry should not eat cheap stock food any more than sick persons should expect to be cared by food. When your stock and poultry are sick give them medicine. Don't stuff them with worth-less stock foods. Unload the bowels and stir up the torpid liver and the animal will be cured, if it he possible to cure it. Black-Draught Stock and Poultry Medicine unleads the bowels and stirs up the torpid liver. It cures every includy of stock if taken in time. Secure a 25-cent can of Black-Draught Stock and Poultry Medicine and it will pay for itself to times over. Horses work better. Cows give more milk. Hors gain ficely And hens lay more eggs. It solves the problem of making as much blood, flesh and energy as possible out of the smallest amount of first consumed. Buy a can from your dealer.

## STRUCK A SNAG

## Independent Operators Make Objections

TO SETTLEMENT

OUT OF COURT

Want Commission to Pass on Disputed Questions-Wage Showing Disputed

Scranton, Nov. 22-When the strike commission met this morning, Counsel Darrow of the mines announced that the questions at issue were taken up last night by all parties concerned; that there were hopes of a settlement outside of the commission, and he would therefore ask an adjournment. Gray said he would fix the date for Dec. Srd.

A surprise came when Attorney Burns, representing the independent operators said his elients had not been consulted regarding the settlement; that they were parties to the is ue before the court, having been regularly admitted as such. They wanted the issue threshed out before the commission.

He also agraed that an agreement reached before the commission would be more lasting.

Gray interposed and declared the independent operators were anticipating the issue. The commission viewed the proceeding contemplated as a step in the right direction which it had held itself created. at all times ready to assist,

As Burns read his statement placing the attitude of the independents on record he said they made the issue of recognition of the union not as a vital terminus of the Washington Central, to point. His clients said that condition of anarchy in the mining region was that the purpose of the independent was to insist on an expression from the American people, through the commission thereby placing the seal of disapproval on future act of lawlessness, intimidation and terrorism.

He said they would also dispute wages showing made by Mitchell. He said that the miners of the independent companies received on an average about \$700 yearly, and in some cases as high as \$1200.

Concluding, he said, they want something more than temporary peace.

Wilcox, counsel for the Deleware & Hudson, emphatically denied last nights meeting was a formal one. He said it was held only for the purpose of making an attempt at cut side settlement be tween now and Dec. 3rd.

Lanahan, counsel for the non-unionist said his clients were highly gratified for the chance of settlement.

in the concilliation discussion.

Connecticut Tobacco Crop

Hartford, Conn., Nov. 22-Damp weather has enabled tobacco growers to take down the 1902 crop. Stripping is general and many crops are in perfect condition. Late tobacco suffered from polesweat, and in several localities excessive moisture early in October resulted in mold. The tent-grown Sumatra crop has cured finely, and growers expect better prices than were procured in 1831. The calmare below the usual volume, but growers expect renumerative prices before Epring.

NEW PLAN FOR

Department Tries to Head Off Some Tricks of Sharp

Speculators

OREGONIAN NEWS BUREAU Washington, Nov. 15.— Secretary Hitchcock has finally determined that a forest reserve shall be created in the Blue and Strawberry Mountains of Easterd Oregon, but the lands included qy the Presidential proclamation will be only Government timber lands or worthless mountain summits. The proclamation will not issue until the Interior Department shall have inspected every rere to be included in the reserve, of timber or are owned or occipied by large holders. All towns or settlements and all school lands and all private rang. es will also be excluded. But, shove all else, the Secretary will exclude those purpose just prior to the department's withdrawel by parties who are believed to have received tips as to the intention of creating a Blue Mountain forest reserve. This information the Secretary today gave to Colonel Emmett Callahan of Baker City, who has been urging the establishment of a reserve from which all private holdings shall have been eliminated.

Secretary Hitchcock says it is his purthe Blue Mountain reserve or to permit chances for frauds of any kind. The reaerve he favora will be irregular in shape a checker-board in some escrious, but

will be all Government land. He finds that much opposition that has been manifested by Oregon people was based on mirconception of the purpose of forest reservations. He gives assurance that the timber reservation will not in any way interfere with the location of mining clams; neither will it treated if the hospital in Marshfield, prevent cotting of matore timber. It will, however, prevent corporations and speculators from acquiring title to large, when Father Donnelly will have finisharens of valuable land in this region, to the detriment of the interest of settlers, Protection of water supply is of equal importance to timber preservation he holds, and to this end the forests of the Blue Monotains will, be perpetuated. It may berix months or a year, says the Secretary, before the reserve shall finally be established, but when it is created, its lines will be permanent. There will be no just ground for continued hazgling for the exclusion of some areas or the ad-

## Rushing Tacoma Cut-Off

Tacoma, Wash., Nov. 21-The Northern Pacific has given orders to rush work on the 22 mile branch line to be built from Coulee City, the western Adrian on the main line of the Great Northern. This cut-off was promised last Summer by President Mellen to provide a shorter outlet from the grain fields of Central Washington to the market at Tacoma. The contractors have shipped their outfits from St. Paul and active work will soon begin. The line will run through a rough country, but it is in-tended to have it finished in time to haul out a portion of this year's crop

## LARGE SAWMILLS

ON THE UMPQUA

(Roseburg Review)

of the Oregon Boom & Timber Co., returned this morning from New York where he was in conference with the arge capitalists whom he rep resents. To a Review representative this afternoon Mr. Blakely gave the encouraging when the bad weather is over. information that the people he represents are more anxious than ever to go ahead with their proposed operations

way can be secured for logging operations they propose to begin the erection of large sawmills on the Umpqua river. They do not ask for any bonness, and their plan is to erect mills at Winches-Gray appointed Clark, Watkens and ter, Roseburg and perhaps at Myrtle Parker a committee to remain and assist Creek, and will begin work as soon as the necessary rights of way are assured. These milts, for which Mr. Blakely has the complete plans, are to be modern band saw structures of a daily capacity (freat Central, of 75,000 feet of lumber each. The plans are such that the expanity of either or all may be doubled at any time deemed aivisable. There is plenty of timber along the Umpqua river and its branches to keep a dozen mills running for a generation to come.

> Preparing For Work (Bandon Recorder)

John Kiernan who was awarded the contract for extending the North jetly, at the mouth of the Coquille, arrived De

here last Friday to look over the field and start operations. He has placed W. H. Logan in charge, who with a FOREST RESERVES number of workmen went to work last Monday to make repairs and get ready to drive piling and dumping rock. It will take until March or April before the operation of dumping rock begins.

## A New Surgery

Dr. J. T. McCormac is having an upto-date surgery put in in his rooms in the Eldorado breek. This is something he has long been in need of and it will be a great convenience and will materially help in performing difficult operations, in the absence of a hospital. Many cases which could be operated, on here have had to go to the city for that and to eliminate such lands now included purpose, because of lack of sufficient

parephernalia in the operating room. This new convenience is fitted with a first-class operating table, irrigating lands which were entered for speculative basin and stand, glass top iron framed stand, and all arrangements for running water, in fact everything pertaining to a modern surgery. The walls are covered with glazed paper, and all woodwork and frames and cases are enameled white so that everything can be kept scrupulously clean. A large case of modern surgipose to create no lieu base in making cal instruments of every description is on hand: This is a most valuable acquisition to any physician, and still more so where a good surgery is at hand.

Dr. McCormae has now under care three county hospital patients and two Marine hospital patients, all of which could be much more satisfactority were completed and he longs for the day ed his work of building the hospital.

#### Heavy Loss

(Paget Sound Lumberman)

The Bridal Veil Lumbering Company were heavy losers by the fire last month. For four days their entire crew fought the fire at the planing mill and around town. The fire then swept over the dition of others, as has been the case mountains and destroyed their saw mill with almost every reserve heretofore machine shop, stock of goods, school house, public ball, thirty houses, several bridges and trestles on their railroad, . portion of their flume and the woodwork of two locamotives. Their men and families had a narrow e-cape, but two children were burned to death. Everybody had to run for their lives. They have a portable mill on the ground two miles shove their old mill, where they are sawing orders that are most pressing. They will also saw the tim their new mill, which will be built as soon as the machinery can be obtained. Their loss amounted to \$60,000, with an neurance of only \$12 000. President l'almer was severely burned, as were several of his employes. Two engines ran the locomotive across a burning bridge and were badly burned, the cabs catching fire and burning up.

### Return From the Front

Mesers Wold and Daniels, the civil engineers, who have been on the Great Central survey locating the road from Myrtle Point to Roseburg, returned to Mr. F. J. Blakely, the local manager Marshfield yesterday, work having been discontinued for the Winter. Singe the heavy rains commenced, but slow progress could be made, and it was wisely concluded to let the weather have its way, for a time, and resume to work

Most of the crew went to Roseburg where the men will be employed on the work which the Great Central is prosecutng there. Wold and Daniels preferred Just as soon as the necessary rights of to return to Marshfield and re-open their ffice, which they closed to go on the

> They report that the line has now been located to a point six miles beyond Remote, the most difficult part of the tine being the first few miles above fyrtie Po'nt, where the canyon is narow, and some sharp turns will be necesary, A good grade has been found, not wer I 1-2 per cent being necessary.

Mr. Wold reports that the boys are all pleased with their treatment by the
