Worked Fine

A real naughty exchange tells the following story, which ought never to have appeared in print: A man built a new home of which he was very proud. Among other contrivances he could pull a lever and a bath tub would come into his room. One day he was showing a lot of men his new house and took them into his bedroom, where he explained the patent bath tub: "I will show you how it works," he said. Touching the lever the tub came sailing into the room, and his wife was in it.

The child was lying on her arm and seemed heavy and cold. The mother shook it up and could not awaken it. The shock to the mother and father was a severe one and they have the entire sympathy of the community where they live. The funeral will take place tomorrow.

Compiling A Cook Book

The A. N. W. club met at the home of Mrs. F. X. Hofer—Thursday afternoon. The club heard several committee reports on various propositions.

As a fund producer for the club, the ladies have decided to publish a practical cook book and will proceed to accumulate practical receipts. The book will be handsomely bound in a durable cover.

The ladies fully realize that they must accumulate a small fund for an emergency to do some civic improvement, enabling them to act when the iron is hot. The book will contain only tried and true receipts, which will make the book a valuable one and worth ten times the price they will ask for it. This club is composed of determined ladies who can competently carry out any undertaking they tackle, and when you are buying one of these cook books you can rest assured that the money will be

put to some good use and not squandered. You may be taking it from your right hand pocket and putting it into your left. Success to the A. N. W. cook book.

SUNSET ENCAMPMENT OBSERTES

Fourth Anniversary of Encampment No 43, Marshfield

Sunset Encampment No. 43 celebrated the 4th anniversary of the establishment in Marshfield, on Thursday evening, when the members of the lodge and their wives enjoyed a fine literary program, with good numbers too numerous to mention. One of the finest of all was a cake walk by Ned Anderson and Isidore Landy. The two performers went through all of the evolutions in a masterly manner. Their familiarity with the various Hula-Hula-Cau-cannito steps surprised the guests not a little. After the cake walk then came social games of all kinds. At 11 o'clock they all went to the banquet rooms at the Brouler where they were served with the following menu:

- Take Points, on half shell
- Native Clam, a la creme
- Baked Chinook Salmon, Hollandaise
- Chicken Fricasse, Chateaufort
- Mashed Potatoes
- Crab Salad, au mayonnaise
- Prime Rib of Beef, au Jus
- Asparagus, Drawn Butter
- Plum Pudding Hard and Brandy Sauce
- Assorted Nuts and Raisins
- Cream Cheese and Crackers
- Zinfandel
- Weinhardt Beer
- Tum Water
- Cafe Noir

The time will be remembered as a joyous occasion for Sunset Encampment. This organization of higher branch of Oddfellowship is growing rapidly in Marshfield and it is now one of the strongest tents in the state.

Proper Treatment of Pneumonia

Pneumonia is too dangerous a disease for anyone to doctor himself, although he may have the proper remedies at hand. A physician should always be called. It should be borne in mind, however, that pneumonia always results from a cold or from an attack of the grip and that by giving Chamberlain's Cough Remedy the threatened attack may be ward off. This remedy is also used by physicians in the treatment of pneumonia with the best results. Dr. W. J. Smith, of Sanders, Ala., who is also a druggist, says of it: "I have been selling Chamberlain's Cough Remedy and prescribing it in my practice for the past six years. I use it in cases of pneumonia and have always gotten the best results." Sold by John Preuss.

The Chamberlain Democratic Club met last evening and evolved plans and ways and means for campaign work. The club is a lively one and growing. The next meeting will be Friday, March 25th.

Baseball Prospects

It seems that the prospect of a baseball league is likely to fall through, from the fact that outside professional players are inclined to hold out for exorbitant wages. While Marshfield baseball enthusiasts are willing to put up liberally, they do not care to be held up, out of all reason.

That Testimony

The young man referred to in the item from Bay City a few days ago, wishes it understood that he does not put physical culture up against religion. He thinks that if the MAIL's informant would honestly investigate either one, he would be better off. The testimony for physical culture was given after the regular services, and on the preacher's invitation to any one who had anything to say for the general good of humanity.

Voice Restored

(Coquille Bulletin)
Miss Inez Thompson returned on the Alliance from a three months' visit with friends and relatives in the Willamette valley and The Dalles.

Miss Thompson left here about the middle of December en route to Portland for treatment of her vocal organs, having been deprived of her speech for nearly two years. After being out on the water about six hours, her voice was suddenly and miraculously restored. This lasted about two weeks, during which time she visited Wm. Rich's people at Newberg, spending Christmas there. On the 30th of December her voice again left her almost as suddenly as it had returned so she went to Dr. J. F. Dixon, of Portland, who pronounced her troubles paralysis of the vocal chords. After five weeks' treatment with Dr. Dixon, she was again able to talk, and the doctor pronounced her permanently cured, stating, however, that she would never be able to sing.

MITCHELL FORCES WIN IN PORTLAND PRIMARIES

Simon Has Less Than Twenty Delegates In Coming County Convention

(Oregonian, Mar. 17)
The Republican primaries in Multnomah County yesterday resulted in an overwhelming victory for the Mitchell forces. It was a tidal wave. The defeat of ex-Senator Simon and his followers was so overwhelming that they will be able to make but a meager showing in the County Convention next Saturday. Out of a total of 129 delegates to the convention the Mitchell faction (regulars) will have at least 110, and Mr. Simon (independent) less than 20. Complete returns had been received last night from all the 58 precincts in the City of Portland, and all but four of the 25 country precincts of Columbia, Kilgover Readers and Bertha, with a total of four delegates, had not been heard from last night.

THE FIREBUG MYSTERY

Further Developments Respecting the Last Fire at Arago

(Coquille Bulletin)
Mr. Wells, the adjuster for the German-American Fire Insurance Company, came to Coquille City on January 29th last and put up at the Hotel Coquille. During the afternoon on that day he went to his room; on the floor he found an anonymous letter, which advised him that there was not over

\$500 worth of merchandise in Wm. H. Schroeder's store at the time of the fire on January 12th. The letter had either been slipped under the door or through the transom.

The next day he went to Arago to make the adjustment. He returned to Coquille in the afternoon. During his absence some one had entered his room, scattered the contents of his grip over the floor, and stole that letter.

It has also been learned from a reliable source that some one wrote to the agent of said insurance company in San Francisco, stating that the fire was undoubtedly caused by his brother-in-law to secure his portion of the insurance. When Mr. Schroeder began business again after the loss of his store and contents in January, 1902, he borrowed \$500 from T. P. Hanly and secured him by his policy. People who are investigating this matter believe that this last letter must have been written prior to or during the fire.

HEAVY WIND BREAKS LINE.

This afternoon is one of the most blustering and disagreeable of the season. The wind is unusually heavy but no damage had been reported up to the time of going to press, except the breaking of the telegraph line.

This occurred a few minutes after 12 o'clock, cutting off our telegraphic dispatches very shortly after they started. We would be more inclined to ease the line if it had not been doing so much better than was expected lately. This is the first interruption of the service this month, and the wire will probably be repaired by Monday.

The Alert was obliged to put back to Marshfield after getting about half way across the bay and waited at the dock until the wind abated.

The Coos River and the Catching slough gasolines made their way across the bay all right.

When the wind was at its strongest, a genuine waterspout was seen just below the mouth of the Coos river channel, lifting the water 40 or 50 feet into the air.

Inflammatory Rheumatism Cured

William Shaffer, a brakeman of Dennison Ohio, was confined to his bed for several weeks with inflammatory rheumatism. "I need many remedies," he says. "Finally I sent to McCaw's drug store for a bottle of Chamberlain's Pain Balm, at which time I was unable to use hand or foot, and in one week's time was able to work as happy as a clam." For sale by Geo. Preuss.

A Cutting Scrape

On Saturday night a cutting scrape occurred at Beaver Hill which may result seriously to the man who was slashed. The cutting grew out of some disagreement between Frank Standeridge and Henry Quick, the former using a knife freely. Mr. Standeridge has disappeared.

Cancer Removed

J. M. Gibson the gentleman who has been sick at the hotel was taken to a private house Saturday and operated on for cancer of the bladder. Circumstantial Evidence

(New York Sun)
The man ordered baked apples and cream. The baked apples were all right, but the man stared at the "cream" a long time before he began to eat. Then he murmured: "I never saw a purple cow." "I never hope to see one." "But from the cream we're getting now, I'm sure that there must be one."
