**First Tier Subcontractor Disclosure due:
Not later than March 20, 2017, 4:00pm**

The City of Hillsboro seeks sealed bids from qualified firms able to provide Construction Services for the redevelopment of the existing small watercraft launch at Rood Bridge Park.

The goal of this project is to provide a safe, durable, and usable method of access to the upper Tualatin River Water Trail. The existing launch is too short, leaving a dangerous expanse of steep, muddy drop off to the river. The launch is located at the southwest corner of Rood Bridge Park, 4000 Rood Bridge Road, Hillsboro, OR 97123.

Contractor will remove the existing inaccessible ramp and will replace it with a realigned concrete ramp that extends to the water level. The paved ramp will comply with Marine Board guidelines. The new ramp will accommodate a City-provided modular, floating dock with sloped transition abutment and supported with three metal pilings. The dock will be installed on a seasonal basis to facilitate access for those of varying abilities. The small parking area adjoining the access will stay as it is.

There is no pre-qualification process for this ITB. No pre-bid conference will be held.

Late bids will be rejected as non-responsive.

Sealed bids will be received by Maria Rosa Davila Bores, Parks Project Specialist at 4400 NW 229th Avenue, Hillsboro, OR 97124. A public bid opening will be held at this location at 2:05pm.
