OUR WATER SUPPLY

In order that all doubt might be removed concerning the purity of our water supply, samples have been sent to the state board of health for analysis. In order that a test of this kind may be of much value great care must be taken in securing samples.

In the present case the bottles and corks were boiled in water for some time and then put in a hot oven and subjected to dry heat for an hour or more. Then samples of water were taken and bottles securely corked without allowing either the mouth of the bottle or cork to come in contact with the hands.

One sample was taken from the creek at the entrance to the mill race; a second, from the race where the water is taken into the city pipes; a third from the drinking fountain in the school building; while a fourth sample was taken from one of the wells of the city. The different samples were numbered and sent to the state board of health by express and returns may be expected in a week or ten days. The one making the test will not know from what source any particular sample was taken.

As the News stated a couple of weeks ago, we believe our water supply is a fairly good one and the purpose of the test is to avoid any possible chance of sickness, especially of the school children who have no other supply than that which comes thru the city mains.

Such tests should be made at least once each year.

The proprietor of the City Meat Market informs us that he will either move the slaughter house or change the drainage to empty below the entrance to the mill race if there seems any chance of the water being polluted from that source.

Another step which should be taken to safe-guard the purity of the water in the mill race, is to prevent stock from being watered from it. There are a few places where stock can find access to the water and at one place stock are taken into the race to be watered. No one cares to drink water after stock has been wading in it, or worse, yet many are doing so unknowingly.

LETTERS FROM OUR COUNTRY CORRESPONDENTS

Lascomb Items

Mr. and Mrs. McLeod, parents of our primary teacher, have arrived from Colorado and will settle in this vicinity.

Robert Peery has returned from his trip to the Quartzville mines. He went in company of an Alaska miner. There may be an awakening in the mining business there yet.

Mr. Raines has purchased eight acres of land from C. E. Soule. It joins the town site.

Inspector Benner was around recently inspecting schools.

Our newly married man, Mr. Raines, is building a house.

Rev. Loree returned from Tacoma.

A. D. Craft purchased several head of stock at the Soule sale and took them to his ranch on Roaring river.

Lawson Craft came up recently and favored us with a story or two.

Shelburn Shots

Miss Goldie Jones has recovered from an acute attack of rheumatism which lasted for about two weeks.

The report in a recent issue of this paper that E. B. Spangenburg had sold his general merchandise store in Shelburn is not true. He will continue business here in his new store building.

Calvin and G. M. Trollinger and the Zink brothers returned from a short hunting trip. They reported fair success.

Grant Spangenburg and Miss Alice Piatt were married in Albany last week. Their friends gathered on the night of their return and tendered them a very warm reception.

H. Steidel sold a portion of his farm last week.

Frank Gooch arrived in Shelburn last week but returned to the Gooch mill on Monday.

A large crowd attended the dance in Gooch's hall last Saturday night.

Mrs. Geo. Blatchford returned from Tangent where she had been visiting a couple of weeks.

Santiam Farm Topics

Mrs. Rebecca Morris and granddaughter, Miss Velma Neely of Albany, came over Sunday for a two weeks visit with her sister, Mrs. Elizabeth Gaines and old time friends.

Scott Turner went to Portland Friday to take in the sights and visit his sister Mrs. Lula Muligan.

Mr. and Mrs. P. Wallace went to Crabtree Saturday on business.

Jessie Wiley of Cedar Flat, called at the Santiam Farm Monday night. He is looking for hands to cut shingle bolts for their mill.

Miss Ella Smith of Wal'sa Walla Wash., who is a subscriber to the News, sent the Pie Eater special word that his items are more interesting than all the rest of the paper.

After the big hail storm the Pie Eater was sadly up against it for apples. So providence

and good luck smiled on the old man and he found M. C. Gaines of Crabtree had plenty left after putting away his winter supply and I had the pleasure of picking 20 bushels of fine apples for my winters use.

Mrs. S. W. Gaines has 5 apples off of the first apple tree ever known to be in Linn Co., which she is going to take to the Albany Apple Fair. The tree was on Uncle Johnny Crabtree's old donation land claim, and bore its first crop of apples in 1851 from which they all enjoy an old fashioned cobbler cooked in an old fashioned oven before the fire place.

Mrs. Eva Neeley of Albany, who has been in the hospital at Portland the past two months is now up with us on a weeks visit also Isaac Crabtree of Scio, is visiting with his sister Mrs. S. W. Gaines.

THE SCHOOLMARM

WALT MASON

The teacher in the country school Expounding lesson, sum and rule, And teaching children how to rise To heights where lasting honor lies, Deserves a fat and handsome wage, For she's a triumph of this age, No better work than hers is done Beneath the good old shining sun;

She builds the future of the state; She guides the youths who will be great; She gives the childish spirit wings, And points the way to noble things, And we, who do all things so well, And of our "institooohuns" yell, Reward the teacher with a roll That brings a shudder to her soul.

We have our coin done up in crates, And gladly hand it to the skates Who fuss around in politics And fool us with their time-worn tricks.

In congress one cheap common jay Will loaf a week, and draw more pay Than some tired teacher, toiling near, Will ever see in half a year.

If I was running this old land, I'd have a lot of statesmen canned, And congressmen, and folks like those, Would have to work for board and clothes; I'd put the lid on scores of snaps And pour into the teachers' laps The wealth that now away is sinned, For words and wigglejaws and wind.

A Good Position

Can be had by ambitious young men and ladies in the field of "Wireless" or railway telegraphy. Since the 8-hour law became effective, and since the Wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chances of advancement. The National Telegraph Institute of Portland, Ore., operates under supervision of R. R. and Wireless officials and places all graduates into positions. It will pay you to write to them for full details.

Don't trifle with a cold is good advice for prudent men and women. It may be vital in case of a child. There is nothing better than Chamberlain's Cough Remedy for coughs and colds in children. It is safe and sure. For sale by all dealers.

The Start is Easy.
"That young man seems to think everything is easy."
"It's a common trait at his age. Life up to a certain point is just as easy as writing a letter down to the line 'Dear Sir.'"—Washington Star.

What Worried Her.
Daughter—Oh, mamma, I do wish I were pretty! Mother—You needn't, dear. Sensible men think very little about beauty. Daughter—But it isn't sensible men I'm thinking about, mamma; it's Charlie!

The Auctioneer
Who has cried sales successfully, who knows current values, and who is otherwise well qualified as a salesman, is the one who will get the most money for your products.

SOME BIG BILLS A REAL GOVERNOR OBTAINED FOR PEOPLE IN OHIO

The Oregon plan of nominating and electing United States senators by direct vote of the people.

Placing the Ohio judiciary beyond the clutches of party bosses by electing all judges on nonpartisan ballots.

A workmen's compensation act, so that injured employees can get damages without expensive and tedious litigation.

A public utility commission with authority to regulate issues of stock, rates, mergers and service.

A corrupt practice act that will make vote buying in primaries and elections a dangerous undertaking.

A limited initiative and referendum for Ohio cities.

A central board of control for nineteen state institutions to take the place of nineteen separate boards of trustees with their corps of employees. This bill places subordinate employees in the institution under civil service.

A shorter ballot by abolishing boards of infirmity directors of three members each.

A reform of Ohio election laws to prevent corruption and fraud.

To have delegates to the 1912 Ohio constitutional convention nominated by petition only and elected on nonpartisan ballots.

To stimulate the agricultural industry by requiring agriculture to be taught in all Ohio village and country schools.

Ratification of the proposed income tax amendment to the federal constitution.

Memorializing congress to call a convention to provide for the direct election of United States senators.

Insuring the honest handling of all state money by depositing in banks under the competitive bidding plan.

Creating a fund of \$3,000,000 every year by general levy to give Ohio a system of improved roadways equal to the best in the world.

A complete reformation of tax laws that will put tax dodgers out of business and will compel corporations and owners of intangible property that have been dodging taxes to place their holdings on the duplicate the same as small property owners. Included in this is a 1 per cent tax levy limit bill.

Providing for the construction of a women's reformatory and placing all girls in the state correctional institutions under the control of a woman.

Public utilities bill, corrupt practices act and the initiative and referendum have passed both houses, but are in the hands of the conference committee. These bills will become laws in satisfactory form.

SOME HARMON EPIGRAMS

Guilt is always personal.

I would vote for a Republican for United States senator if the people by their votes declared for a Republican, and I would be proud to do it, for I would simply be doing the will of the people.

The party emblem in municipal elections is an aid to the ignorant and those who corrupt voters and no help to upright and intelligent electors. Both parties would be better off if they were kept out of purely municipal elections.

The people who support the government have to economize. Why should their public servants not do the same?

It is not the existence or discovery of wrongdoing that brings shame to a state, but failure to put a stop to it.

We must make the state government more broadly useful, for its powers are ample to grapple with many things which have been developed by new conditions.

There can be no relief so long as the interests which profit through tariff laws are allowed to frame them.

A lawyer's honor is his crown, and no hand but his own can ever dis-crown him.
